BUFFERIN® 1000's

BUFFERIN... for modern salicylate therapy... in a package designed for the modern hospital pharmacy

In amber space-saver bottles for economical and efficient dispensing.

Each BUFFERIN tablet contains 5 grains of acetylsalicylic acid plus the antacids, aluminum glycinate and magnesium carbonate. BUFFERIN *contains no sodium.*

Pharmacological and clinical research reprints available on request

BRISTOL-MYERS CO.
19 W. 50 St., New York 20, N.Y.

NEW... and completely functional

This *new* bottle is tailored to fit your needs

From its unique label with numerals printed in the "working" position, to the functional non-slip thumb and finger grips . . . here's a solution bottle that goes all out to contribute the utmost in hospital efficiency and economy.

Labels and bottles are cross-calibrated for easy reading of fluid levels . . . larger bottles are marked at 100 cc. intervals, while the special pediatric sizes are calibrated in 10 cc. measurements. Designed with the user in mind, to save valuable hospital time . . . to offer the most in "in-use" application.

—another example of pioneering parenterals and service

BAXTER LABORATORIES, INC. MORTON GROVE, ILLINOIS

DISTRIBUTED AND AVAILABLE ONLY IN THE 37 STATES EAST OF THE ROCKIES (except in the city of El Paso, Texas) THROUGH

AMERICAN HOSPITAL SUPPLY CORPORATION

Why not the finest when it costs no more?

Stainless steel equipment is truly the epitome of hospital furniture. Now you can afford the finest stainless steel equipment for your hospital...and it costs no more. Blickman offers an entire line unmatched for quality, specially designed for use in every part of the hospital from the nursery to the autopsy room. Designs incorporate the latest advances in technique. Every item reflects Blickman craftsmanship...the result of a lifetime of experience in raising steel fabrication to true art.

All equipment is built of heavy gauge stainless steel and fitted with conductive casters, tips or glides. All items feature Blickman's famous seamless weld construction throughout for maximum sanitation.

For full information regarding stainless steel hospital equipment write to S. Blickman, Inc., 3808 Gregory Avenue, Weehawken, New Jersey.

A. Clifton REVOLVING STOOL
7745 SS-15", 7746 SS-13"
Sturdy welded construction. Seat 15" or 13" diameter, has non-slip conductive inset mounted in circular depression. Adjusts from 19" to 31".

B. Manhattan MAYO STAND
7740 SS
Easy, one-hand control, absolute stability. Internal, non-slip device locks tray at any height, automatically. Fits under all operating tables.

C. Newark MAYO STAND
7741 SS
The same as the Manhattan Mayo Stand with the hand screw locking device.

D. Lenox KICK BUCKET
7766 SS
Unbreakable carriage is conductive rubber-bumpered inside and out. Twelve quart stainless steel pail is removable.

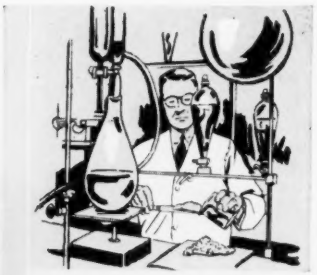
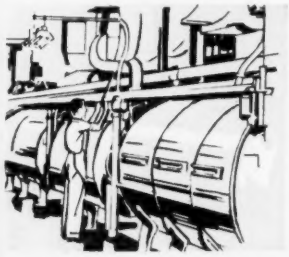
Why "Do it Yourself?"

We get linens and towel supplies hygienically clean . . . sterilized to hospital perfection!



Laboratories test and decide proper washing formulas and bleaching techniques for each type fabric.

Every load goes through ten to fifteen washing operations.



Washed in soft, filtered water with temperatures up to 180°.

when **Morgan Service** can save you Operating Costs • Space • Time • Trouble!

Weigh These Factors! Here's Why So Many Hospital Administrators Have Delegated Linen Housekeeping to Morgan . . .

COST . . . You will be amazed at the savings in maintenance, personnel and bookkeeping! Morgan does the job for a fraction of your present total costs . . . and relieves you of worries about sizes, inventory, quality and quantity!

SPACE . . . When bulky laundry equipment goes, you free valuable hospital space for other, more urgent uses. Even if you decide to retain flat work, you save important space by sending out coats, frocks, gowns and uniforms.

SERVICE . . . Dependable, scheduled deliveries assure you the linens you need, *when* you need them. Never any shortages —for Morgan has large, specialized stocks to meet your peak needs. All supplies hygienically cleaned to your standards!

TIME . . . As an executive, you know it's good business to "delegate the job" rather than "do it yourself"! You save valuable time when you turn your linen housekeeping over to Morgan. Call the "Morgan Man" nearest you for full details!

You get without investment and in the sizes you need:

Patients' Towels	Doctor Gowns
Bath Towels	Surgeon Gowns
Hand Towels	Nurses' Uniforms
Continuous Towels	Patients' Gowns
Office Coats	Pillow Slips
Doctor Frocks	Sheets

how to use part 2 of the guide issue

The annual Guide Issue of HOSPITALS, JOURNAL OF THE AMERICAN HOSPITAL ASSOCIATION, is an old friend to most people in the hospital field. Since the first *American Hospital Directory*, forerunner of the current publication, was published in 1945, this annual volume has been a central reference source concerning hospitals, their facilities and services, operating and utilization data, the American Hospital Association, and allied organizations and agencies.

It is the hope of the editors that readers will find the 1957 edition even more complete, more helpful, and easier to use than previous volumes. We call particular attention to three special aids to locating specific information. These are the edge index, the key pages, and the index to editorial material.

EDGE INDEX

The edge index, the use of which is explained on page 3, is designed to guide the reader quickly to the main divisions of the contents. By matching the symbol on the contents page with the corresponding symbol on the page sought, it is easy to turn directly to the page.

KEY PAGES

Each of the four sections, *Listing of Hospitals, Directory, Guide to AHA,* and *Hospital Statistics,* is preceded by a light blue divider page which serves as a detailed key to the particular section. These key pages will be referred to again in the descriptions of the individual sections which follow.

INDEX

The index to editorial material, beginning on page 445, is a complete reference, by subject, to everything contained in the volume. For example, under the topic "physical therapy" there are references and page numbers directing the reader to the principal associations in this field, to schools of physical therapy, to statistics concerning physical therapy departments and personnel, and to the *Listing of Hospitals,* which codes physical therapy departments in individual institutions.

LISTING OF HOSPITALS

The key page for the *Listing of Hospitals* presents a contents of the section; the requirements for accepting hospitals for listing; and a full explanation of the codings and terminology.

The *Listing of Hospitals* gives a wealth of information about individual hospitals in the United States and Canada. It is also a roster of the Type I and Type II members of the Assoiciation, since the name of each member hospital listed is preceded by a star.

DIRECTORY

This section contains lists of three types of groups which are interested in, or of interest to, the hospital field: voluntary organizations, government agencies, and professional schools.

The list of international, national, and regional organizations comprises associations of various special groups within the hospital field, foundations concerned with research and public health, medical specialty societies, and major fund raising groups in the health field. Regional hospital associations

HOSPITALS is published the first and sixteenth of each month by the American Hospital Association, 18 E. Division Street, Chicago 10, Ill. Entered as second class matter January 9, 1936, at the postoffice at Chicago, Ill., under the Act of March 3, 1879.

SUBSCRIPTION RATES: $5 for 1 year; $9 for 2 years; $12 for 3 years. Single copies, 30 cents, except the two-part August 1, Guide Issue, $2.50. Foreign and Pan-American add $12 per year for postage.)

CHANGE OF ADDRESS: Notice should include the old as well as new address, including postal zone numbers. Four weeks' notice is required. The local postmaster should be notified.

COPYRIGHT: August 1, 1957, by the American Hospital Association.

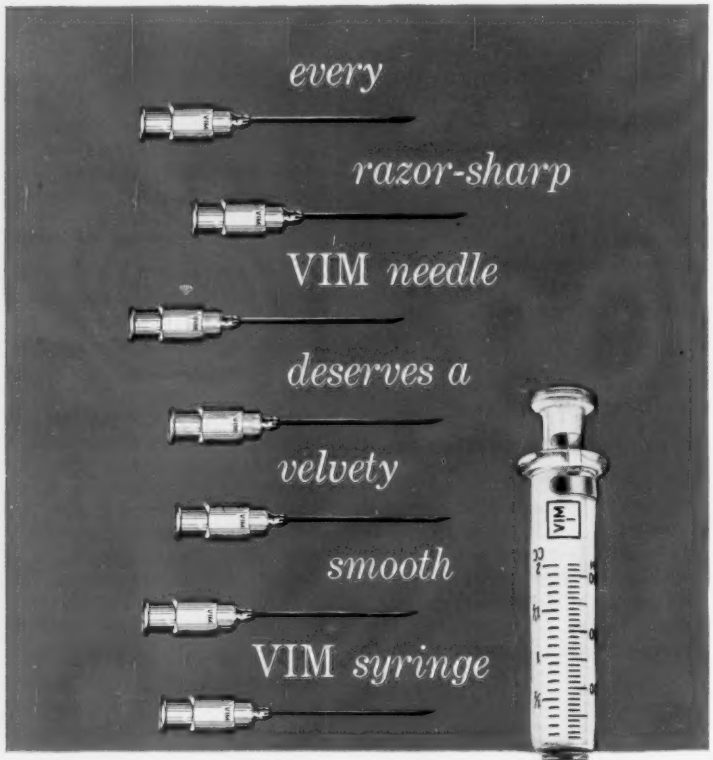
and Canadian groups are included.

These groups are listed alphabetically. The reader who is not sure of the exact name of an organization may find it helpful to consult the index, where each organization is entered under the key word or words in the name. Certain organizations are also indexed under subject headings.

Government agencies (both federal and state) selected for listing in the *Directory* are those most often in direct communication with the hospital administrator and others in the field. Canadian agencies are included.

In the federal listing for the United States the Department of Health, Education and Welfare is represented in detail, as well as other federal offices concerned with hospital and health matters. State agencies include those concerned with licensing, health departments, and various agencies which administer federal health funds.

Professional schools listed are those concerned with training hospital, medical and paramedical personnel. The American Hospital Association does not administer a program of listing or approval of professional schools; the specialty groups with school approval programs have furnished the lists presented in the *Directory*. The names and addresses of these specialty groups are on page 248.



VIM Stainless Steel and VIM Laminex Needles have razor-keen cutting edges with points that stay sharp longer. Concave hubs for easy handling. All VIM Syringes, including stronger clear-glass VIM Interchangeable Syringes (any plunger fits any barrel), have a velvety-smooth action, free from backfire and leakage.

VIM®

hypodermic needles and syringes

For further information, consult your hospital/surgical supply dealer or write: MacGREGOR INSTRUMENT COMPANY, NEEDHAM HGTS., MASSACHUSETTS

GUIDE TO AHA

The key page for the third section, *Guide to AHA*, gives a detailed contents and lists the official categories of membership in the American Hospital Association.

Guide to AHA includes a brief history of the Association, a description of its organizational structure, a list of its councils and committees, and an outline of services provided to members. There are three catalogues of items which may be ordered from the Association: awards and insignia, publications, and films.

A roster of the Association's Type III, IV, V and VI members, and of personal members, concludes this section. The lists are complete as of May 15, 1957.

HOSPITAL STATISTICS

The next section is *Hospital Statistics*. The key page gives the contents of the section, listing the individual statistical tables in detail, explains the classifications of data, and defines terms.

This section presents the annual statistics on the nation's hospitals —their utilization, operating data, personnel, and finances—gathered by the American Hospital Association. In addition to the American Hospital Association statistics, there are three tables giving data on nursing schools and Canadian hospitals.

The discussion preceding the tables provides an interpretation of the figures and of long-term trends. By comparing data for his own hospital with data for others of similar size, type, or locality, the administrator can obtain a useful and revealing picture of the place of his hospital in the national picture.

GUIDE FOR HOSPITAL BUYERS

This final section contains a classified listing of manufacturers and suppliers to the hospital field, with regional and local distributors' names, addresses, and telephone numbers included to facilitate purchasing.

An American Sterilizer Consultant is as near as your Telephone ~~~

More than 150 trained and informed American Sterilizer consultants operate from 13 strategically located district offices . . . to place at your disposal the most current technical information in this highly specialized field. Supporting them, is the full knowledge of American's Research Laboratories, the sound planning of the Technical Sales Division at Erie, and the accumulated experience of sixty years of leadership.

Whether your planning involves the selection of a single sterilizer, the replanning of one or more of your technical departments or a complete, new building . . . you will find American Sterilizer counsel as comprehensive and as dependable as American Sterilizer equipment.

Requirements for Accepting Hospitals for Listing 9

Numerical Codes and Definitions 10

HOSPITALS ACCEPTED FOR LISTING (as of February 7, 1957)

- **Continental United States** 11
- **U. S. Territories** 215
- **U. S. Government Hospitals in Foreign Countries** 219
- **Canada** 220

REQUIREMENTS FOR ACCEPTING HOSPITALS FOR LISTING

The primary aim of the Program of Accepting Hospitals for Listing is to provide a census of hospitals. Listing is not intended to be a measure of quality of care.

Any institution which can be classified as a hospital, according to the requirements, may be listed if it so desires. Membership in the American Hospital Association is not a prerequisite.

1. The hospital shall have at least six beds for the care of patients who are nonrelated, who are sick and who stay on the average in excess of 24 hours per admission.
2. The hospital shall be licensed in those states and provinces having licensing laws.
3. Only doctors of medicine shall practice in hospitals listed by the American Hospital Association.*
4. Duly authorized bylaws for the medical staff shall be adopted by the hospital.
5. The hospital shall submit evidence of regular medical supervision of patients.
6. Records of clinical work shall be maintained by the hospital on all patients and shall be available for reference.
7. Registered nurse supervision and such other nursing service as is necessary to provide patient care around the clock shall be available at the hospital.
8. The hospital shall offer services more intensive than those required merely for room, board, personal services and general nursing care.
9. Minimal surgical or obstetrical facilities, including operating or delivery room, or relatively complete diagnostic facilities and treatment facilities for medical patients, shall be available at the hospital.
10. Diagnostic x-ray services shall be regularly and conveniently available.
11. Clinical laboratory services shall be regularly and conveniently available.

The American Hospital may, at the sole discretion of its Board of Trustees, grant, deny or withdraw the listing of any hospital.

*This requirement is not intended to eliminate dental and similar services from the hospital. Patients admitted for such services, however, must have an admission history and a physical examination done by a physician on the medical staff of the hospital, and a physician on the medical staff of the hospital shall be responsible for the patient's medical care throughout his stay.

APPROVALS

(A-1 through A-11)

As of Sept. 1956 unless otherwise stated

1—Accreditation by Joint Commission on Accreditation of Hospitals (Dec. 1956).

2—Cancer program approved by American College of Surgeons.

3—Residency approved by American Medical Association.

4—Internship approved by American Medical Association.

5—Medical school affiliation reported by American Medical Association.

6—Professional nursing school approved by state, territorial or provincial regulatory agencies. Reported for U.S. by National League for Nursing; for Canada, by Canadian Hospital Association.

7—Membership in state, territorial or provincial hospital association.

8—Blue Cross contracting or participating hospital (Dec. 1956).

9—Hospital auxiliary membership in American Hospital Association (Dec. 1956).

10—Internship approved by Canadian Medical Association.

11—Practical nursing school accredited by National Association for Practical Nurse Education and/or state and territorial approving authorities (U.S.); or by provincial approving authorities (Canada). Reported for U. S. by National League for Nursing; for Canada, by Canadian Hospital Association.

FACILITIES AND SERVICES

(F-1 through F-22)

Actually available in the hospital

1—Basal metabolism apparatus
2—Blood bank
3—Central sterile supply room
4—Clinical laboratory
5—Dental department
6—Electrocardiograph
7—Electroencephalograph
8—Hospital auxiliary
9—Medical records department
10—Medical staff library
11—Obstetrical delivery room(s)
12—Occupational therapy department
13—Operating room(s), major
14—Pharmacy
15—Physical therapy department
16—Post-operative recovery room
17—Premature nursery
18—Radioactive isotope therapy department
19—Social service department
20—X-ray, diagnostic
21—X-ray, routine chest on admission
22—X-ray, therapeutic

Data for United States hospitals, obtained by the American Hospital Association, were requested for the twelve-month period ending Sept. 30, 1956.

Data for Canadian hospitals were supplied by the Canadian Hospital Association.

OWNERSHIP

Type of organization operating hospital. Terms apply to both U. S. and Canada unless otherwise stated

Governmental, nonfederal

12—State or territorial (U. S.); provincial (Canada)
13—County (U. S.)
14—City (U. S.); municipal (Canada)
15—City-county (U.S.)
16—Hospital district (U. S.)

Nonprofit

20—Industrial
21—Church-operated or related
23—Other nonprofit

Proprietary

30—All proprietary (Canada)
31—Individual (U. S.)
32—Partnership (U. S.)
33—Corporation for profit (U. S.)

Governmental, federal

41—Air force
51—Army
61—Navy
71—Public Health Service (U. S.); Department of National Health and Welfare (Canada)
81—Veterans
91—Other federal

LENGTH OF STAY

1—Short-term—average stay 30 days or less
2—Long-term—average stay over 30 days

TYPE OF SERVICE*

1—General
2—Psychiatric
3—Tuberculosis
4—Maternity
6—Eye, ear, nose and throat
7—Children's
8—Orthopedic
9—Contagious disease
10—Chronic disease and convalescent
11—Hospital department of an institution (prison hospital, college infirmary, etc.)
12—Other

*When a hospital restricts its service to a specialty not included in this coding, the specialty is indicated in parentheses following the name of the hospital. For example, "(Alcoh.)" indicates a hospital classified as "psychiatric" but restricting service to treatment of alcoholics.

DEFINITIONS

INPATIENT DATA: Beds—Bed complement; number of beds, cribs and pediatric bassinets normally available for inpatients; does not include bassinets for newborn infants. **Admissions**—Number of patients accepted for inpatient service during a twelve-month period; does not include births. **Average Daily Census**—Average number of inpatients receiving care each day during a twelve-month period; excludes newborn.

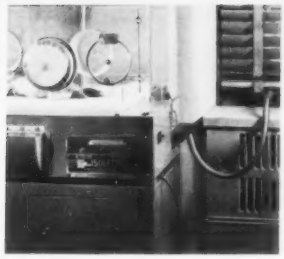
NEWBORN DATA: Bassinets—Bassinet complement; number of bassinets normally available for newborn infants. **Births**—Number of infants born in the hospital, and accepted for service in a newborn infant bassinet, during a twelve-month period; excludes stillbirths. **Newborn Census**—Average number of newborn infants receiving care each day during a twelve-month period.

EXPENSES: Expenses, in thousands of dollars, for a twelve-month period. United States data include both total expenses and payroll component; Canadian data are for approximate total expenses only.

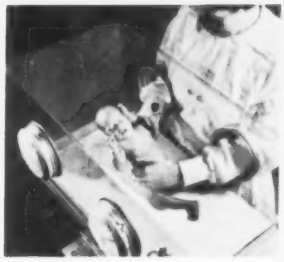
PERSONNEL: For United States hospitals, "Paid Personnel" excludes interns, residents and students, but includes full-time equivalents for part-time personnel. For Canadian hospitals, "Total Personnel" includes interns, residents and students but does not include full-time equivalents for part-time personnel.

Definitions are based on the American Hospital Association *"Handbook on Accounting, Statistics and Business Office Procedures for Hospitals. Section 1. Uniform Hospital Statistics and Classification of Accounts."*

When you choose an infant incubator, consider



1. True Isolation: Only the ISOLETTE® continuously draws in fresh, pathogen-free air from outside the nursery, forces out used air, protects the infant from air-borne or droplet infection. The ISOLETTE completely replaces incubator air every 15 minutes, approximately.



2. Constant Circulation of Fresh, Warm Air: The ISOLETTE alone provides a continuous supply of clean, fresh air, with precise control of warmth, humidity, and extra oxygen (when needed)—features impossible to achieve without controlled, mechanical air circulation.

4 facts of life

3. Precise Temperature Control: Within a tolerance of 1°F., plus an automatic alarm should external factors cause overheating, is another unique advantage of the ISOLETTE, which may also be cooled to 85°F. in very hot weather.

In incubator care of **the small premature infant . . .**

. . . the ill premature infant . . . the infant requiring isolation

The ISOLETTE, only "completely air-conditioned" infant incubator described and illustrated in the new 2nd edition of "*Premature Infants*," may serve also as "an isolation unit in addition to maintaining optimal environmental conditions, and is particularly useful in caring for the smallest infants."*

Many infant incubators now look like the ISOLETTE, but sell for less. Therefore, we recently engaged a well-known, independent laboratory to compare control of temperature, humidity, and oxygen in every infant incubator on the market. We'll be glad to mail you the 22-page report of this objective comparison study. Or you can make your own tests of ISOLETTE performance with any other incubators. If you're not satisfied in 30 days, return the ISOLETTE to us, express collect, and discard your invoice.

For value, choose the ISOLETTE. It is designed to perform, built to last. We have never had to replace a worn-out ISOLETTE. Phone us collect (OSborne 5-5200, Hatboro, Pa.) and order an ISOLETTE with our 30-day return privilege. Test it. Pay only if satisfied. But don't let appearance or initial cost mislead you: let *performance* guide your choice.

4. Accurate Humidity Regulation: An additional, exclusive distinction of the ISOLETTE, maintains even, optimal humidity levels (85% to 100%) by means of a simple, calibrated valve, and quite independent of temperature.

*Dunham, E.C.: *Premature Infants*, 2nd Ed., Hoeber-Harper, New York, 1955

Nursery

The Isolette® infant incubator

By AIR-SHIELDS, INC. *Hatboro, Pa.*

first in its field . . . widely copied . . . never equalled

Construction—Rust-proof, non-corrosive metals throughout; transparent Plexiglas hood; tilting Trendelenburg deck; 2-door storage cabinet.

Isolette (110-volt, 60 cycle, A.C. only) is equipped with enclosed 2-door cabinet stand, foam rubber mattress with plastic cover, four pairs of plastic sleeves for Iris Entry Ports, 12 feet of ⅜" I.D. rubber hose and clamp for connection to outside source of air, thermometer calibrated for both °F and °C, drill-cloth weighing slings.

Accessory Equipment (sold separately)—the VAPOJETTE®, specially designed to produce a super saturated atmosphere within the ISOLETTE—with or without added oxygen. Spring Dial Scale (metric avoirdupois). Send for complete specification folder.

Approved by the Underwriters' Laboratories and the Canadian Standards Association.

Pediatrics

The **Croupette**®

COOL-VAPOR AND OXYGEN TENT

More than 3,000 hospitals and 96% of all U. S. medical schools have 1 to 36 CROUPETTE tents to provide cool-vapor therapy—with or without oxygen.

Only the CROUPETTE provides real cooling by circulating, recirculating, and refreshing the moistened air. Pressure gauge eliminates problem of flowmeter inaccuracy.

Easy to operate . . . all controls are outside of tent . . . all instructions now printed on CROUPETTE itself.

Safe for the patient . . . nothing inside the tent for a child to bump into or tamper with.

Low pressure operation . . . no cumbersome, high-pressure connections. Operates on oxygen or compressed air.

The CROUPETTE is equipped with aerosol nebulizer, and an extra-heavy-duty, transport canopy with 4 zipper openings (2 on each side).

FOR USE WITH THE CROUPETTE®

The **Dia-Pump** NEW, PORTABLE COMPRESSOR-ASPIRATOR

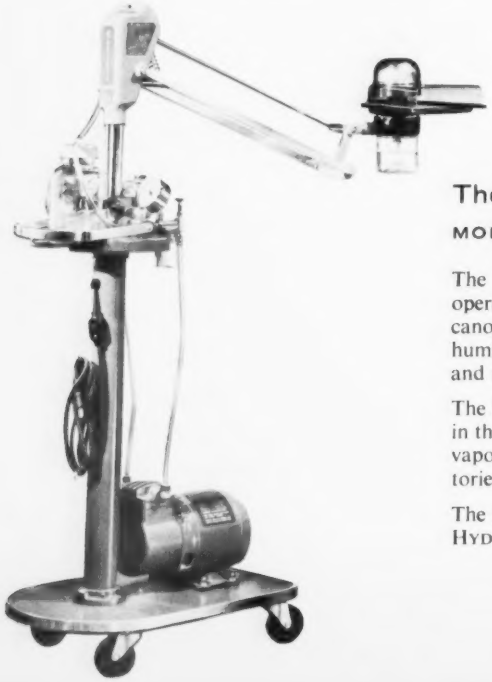
TRADEMARK

The new AIR-SHIELDS DIA-PUMP compressor-aspirator is designed for continuous heavy-duty wherever regulated suction or compressed air is required. A tough, neoprene-nylon diaphragm provides filtered, *oil-free* air at controlled *positive* pressure up to 30 pounds, or controlled *suction* up to 23 inches of mercury. 1/6 HP motor built for continuous operation. Large easy-to-read gauges. Needle valve controls. Air filter protects patient and pump. Approved by the Underwriters' Laboratories and the Canadian Standard Association.

UNCONDITIONALLY GUARANTEED FOR ONE YEAR

Standard model: *115 volt, 60 cycle, A.C. with ground wire and adapter plug for 2 or 3 pronged outlets. Special models for use with other currents.*

Inhalation Therapy (BEDSIDE)



The **Hydrojette**®

MOBILE HUMIDIFIER-ASPIRATOR

The HYDROJETTE is ideal for recovery room use to prevent post-operative respiratory complications. Mobile, simple, quiet, without canopy, claustrophobia-free, the HYDROJETTE provides cool-vapor humidity to relieve intubation irritation, dehydration of the air-ways and sinuses. Also helpful in croup, asthma, poliomyelitis, bronchitis.

The HYDROJETTE may be rolled quietly and easily to any ward or room in the hospital. No need to move the patient. No expensive permanent vapor installations necessary. Approved by the Underwriters' Laboratories and the Canadian Standards Association.

The mobile (deluxe) Bedside DIA-PUMP compressor-aspirator (without HYDROJETTE arm) may be purchased separately.

The **Rockette**™

EXPLOSION-PROOF
ROCKING
RESUSCITATOR

The first and only commercially-available, fully-automatic rocking bassinet for use in neonatal asphyxia.

Variable speed control permits selection of any number of rocks per minute between 12 and 30.

Arc of rocking is adjustable for any angle from 20° to 30° above and below the horizontal (total arcs of 40° to 60°).

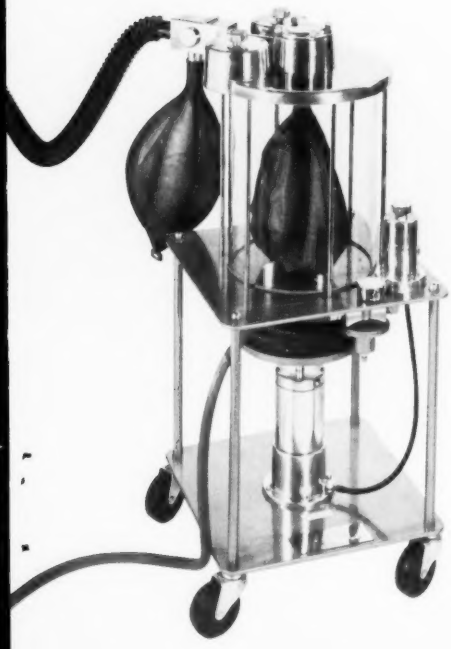
Therapeutic concentrations of oxygen are rapidly achieved and readily maintained within the bassinet . . . vaporizer moistens oxygen.

Safe—explosion-proof . . . the ROCKETTE is accepted by the Underwriters' Laboratories, Inc. for use in hazardous locations (Class I, Group C).

Delivery Room

The ROCKETTE includes stainless steel bassinet, shatter-proof, piano-hinged glass lid, mattress with 2 covers, suction and super saturation device, variable speed control and rock-angle adjustment.

The **Jefferson Ventilator**
TRADEMARK



A fully automatic device to insure proper ventilation during general anesthesia.

For the prevention of respiratory acidosis particularly during open-chest surgery and to avoid profound circulatory depression. Provides controlled ventilation with alternating positive-negative pressure during anesthesia.

Surgery

Adaptable—can be used with any closed or semi-closed circuit anesthesia apparatus.

Convertible—can be switched at any time from automatic to manual control of the rebreathing bag.

Operates on 6-8 liters per minute of oxygen or compressed air . . . no electrical hazards.

Adjustable — separate, independent controls for positive pressures up to 25 cm. of water and negative pressures up to 15 cm. of water.

Rate of respiration adjustable from 15 to 30 per minute.

Automatic overflow valve prevents overdistention of rebreathing bag, when using high gas flows.

Automatically maintains proper inflation of rebreathing bag at high or low flows without constant attention or repeated adjustment, permitting more time for other vital tasks.

Accommodates automatically to patients with different respiratory volumes. Delivered pressures and timing are not altered by variations in volume or by momentary resistance offered by the patient.

Delivers required negative and positive pressures at desired rate and phase, permitting accurate maintenance of optimal mean airway pressure.

All equipment manufactured, sold and serviced by

AIR-SHIELDS, INC.

NEW! Non-traumatic treatment of Postnatal Apnea

with the

Isolette® Rocker

by **AIR-SHIELDS, INC.**

Makers of the **Isolette**® infant incubator, the **Croupette**® cool vapor tent, the **Hydrojette**® mobile humidifier-aspirator, and the **Jefferson Ventilator.***

*Trademark

A mechanical application of the Eve method for assisting circulation and respiration by means of:

1. Gravitational stimulation of the circulation, assisting cardiac output and cerebral circulation.

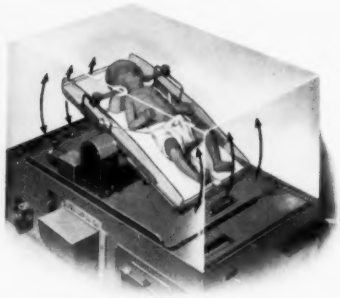
2. Gentle, passive, diaphragmatic excursion for maintenance of ventilation, with controlled environment inside the ISOLETTE® incubator, and

. . . without resort to high oxygen concentration.

The ISOLETTE ROCKER is intended for use in the nursery, to help restore and maintain circulation and breathing in asphyxiated premature, or full-term babies.

To help the newborn infant "in difficulty"

The ISOLETTE ROCKER fits neatly inside the ISOLETTE infant incubator without alterations or adjustments. It is pneumatically operated. There are no electrical hazards. The apneic infant can now be gently rocked while surrounded by optimal conditions of temperature, humidity and isolation. *Angle of rock* adjustable up to 20° above and below horizontal. *Rate of rocking* adjustable up to 20 rpm. *Foam rubber shoulder supports* and unique diaper arrangement permit either prone or supine position and prevent movement of baby. *Positioning rod* holds rocker at rest and permits horizontal or Trendelenburg position of bed. Order the ISOLETTE ROCKER now, with 30-day return privilege. Phone us collect: Osborne 5-5200. Air-Shields, Inc., Hatboro, Pa.



The apneic infant can now be gently rocked under optimal conditions of temperature, humidity and isolation.

PERFORMANCE—PROVED HOSPITAL EQUIPMENT

GOMCO EQUIPMENT

Explosion-Proof CABINET SUCTION-ETHER AND SUCTION UNITS

GOMCO No. 927 SUCTION-ETHER UNIT

For surgeries where the finest possible facilities for suction and anesthesia are desired, the choice is the beautiful No. 927, shown here. Its precision Gomco double pump provides the large reserve of capacity so desirable in busy hospitals. Suction and ether pressure are easily regulated to an exact degree. Gleaming chrome-plated brass fittings and all-steel baked enamel cabinet make for easy cleaning and long life. Large, noiseless rubber-tired casters and projecting rubber bumper. A unit quality-built through and through for a lifetime of absolute dependability and time-saving convenience.

GOMCO No. 928 SUCTION-ETHER UNIT

This unit has the same superb features as the 927 described above, with the exception of single pump construction. Near-silent performance, freedom from troubles, attractive appearance and ease of operation make these units among the most appreciated in hospitals throughout the world.

AEROVENT OVERFLOW PROTECTION,

an exclusive Gomco-developed valve, automatically prevents overfilling a suction bottle and damaging a pump of any unit described on this page.

All units on this page listed by Underwriters' Laboratories, Inc. and Canadian Standards Association for use in hazardous locations, Class 1, Group C.

GOMCO No. 929 SUCTION UNIT

Here is maximum-capacity, precision-regulated suction for the heaviest year-in, year-out demands in surgery and treatment room ! The 929 double-pump Suction Unit, you will note, has the same exterior beauty and convenience features as the 927 illustrated above. It also gives you the same sure overflow protection and explosion safety.

GOMCO No. 930 SUCTION UNIT

The 930 is another extremely valuable unit for any part of the hospital where suction treatment is required. Its single pump is typical of Gomco quality workmanship—assuring you permanently satisfying service. Its handsome cabinet and long-life fixtures are identical to those of the popular 929, illustrated.

GOMCO®

PERFORMANCE—PROVED HOSPITAL EQUIPMENT

GOMCO EQUIPMENT

A NEW GOMCO UNIT TO AID THE CHEST SURGEON

No. 766
THERMOTIC THORACIC PUMP
overall height 34"

No. 766 THERMOTIC THORACIC PUMP

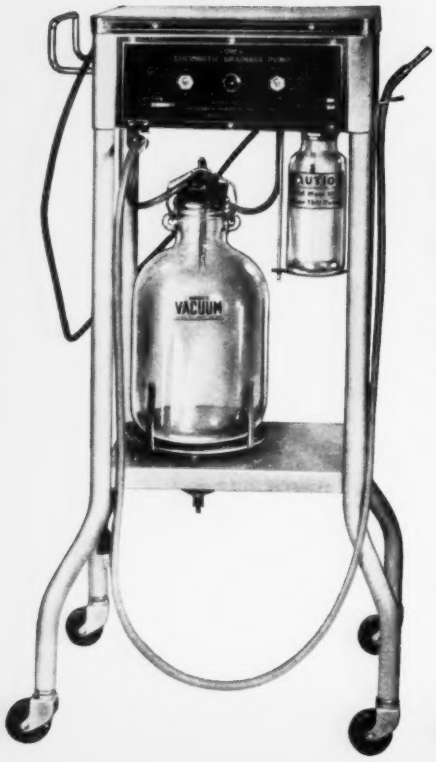
A valuable aid to post-operative treatment in cases of chest surgery, the No. 766 was designed to meet rigid requirements of chest surgeons. This silent and attention-free pump provides constant, very gentle suction for the chest cavity, which not only aids in the immediate re-compression of the lung components, but insures inflation as long as may be necessary. Suction is regulated between the safe limits of 0 to 25 cm. of water, yet volume of suction is high enough to handle most cases of leakage.

The 766 operates on the same principle as the long-accepted Gomco Thermotic Drainage Pumps, except for a timing device to smooth out the suction for this specialized application. Here is a unit you can use with complete confidence !

No. 855
TIDAL IRRIGATOR
(Approx. 72" high)

No. 855 TIDAL IRRIGATOR FOR THE CYSTOSCOPIC ROOM

A completely automatic cycle of irrigation and drainage. Provides a simpler, more exact technique of bladder irrigation and cystometry. Easy to set up, operate and clean.



FOR MILD AUTOMATIC POST-OPERATIVE SUCTION

Suction is pre-set at 90 or 120 mm. of mercury, and will continue at that degree indefinitely. Pump is noiseless, non-mechanical and needs no attention. The gentle suction is ideal where delicate tissues must be protected.

No. 765-A THERMOTIC DRAINAGE PUMP, with all tubing, gallon suction bottle, overflow trap and Aerovent Overflow Valve providing automatic protection against overflow, as illustrated at left.

No. 765 THERMOTIC DRAINAGE PUMP, similar to No. 765-A but without Aerovent Valve.

THERMOTIC DRAINAGE PUMPS

Intermittent suction for:

- duodenal drainage
- gastric lavage
- fistula drainage
- abdominal decompression
- drainage following prostatectomy
- all continuous, mild drainage

GOMCO®

PERFORMANCE—PROVED HOSPITAL EQUIPMENT

STRONG, CONTROLLED SUCTION

For Polio, For Urological Cases, For Throat Suction

No. 799

GOMCO No. 789 Portable ELECTRIC ASPIRATOR

Weighing only 16 pounds, this sturdy little aspirator gives instant, controlled suction from 0" to 20" of mercury whenever and wherever needed. Takes less than a square foot of table space.

No. 790 **MOBILE ELECTRIC ASPIRATOR,**
Providing controlled suction from 0" to 20" of mercury. Formica top stand in enamel and chrome trim.

GOMCO No. 799 Mobile HEAVY-DUTY ASPIRATOR

For heavy-duty floor use, this readily mobile unit provides 0" to 25" of suction. Its large gallon suction bottle, with Aerovent Valve to prevent pump flooding means repair costs are practically eliminated. Beautiful baked enamel finish and Formica top are part of the fine quality built into this supremely dependable unit.

No. 798 **MOBILE ASPIRATOR,**
Heavy-duty unit for post-operative suction. Gallon suction bottle on top, motor and pump on shelf.

Ask your dealer, or write:

GOMCO SURGICAL MANUFACTURING CORP. • 848-H E. Ferry St., Buffalo 11, N. Y.

GOMCO®

PERFORMANCE—PROVED HOSPITAL EQUIPMENT

GOMCO EQUIPMENT

Explosion-Proof

SUCTION and SUCTION-ETHER UNITS

For The Hospital, Office or Clinic

GOMCO No. 910
Explosion-Proof Portable Suction and Ether Unit

Here are complete anesthesia and suction facilities in a "package" taking little more than a square foot of table space ! Widely used as an auxiliary floor unit in large hospitals for treatment such as spraying merthiolate and in conjunction with surgery; very popular with smaller hospitals as an all-around anesthesia and treatment unit.

Listed by Underwriters' Laboratories, Inc. and Canadian Standards Association for use in hazardous locations, Class 1, Group C.

GOMCO No. 900 Stand-Mounted Suction and Ether Unit

This provides all the smoothly controlled suction and anesthesia facilities of more expensive cabinet models, and has the same powerful, whisper-quiet Gomco motor-and-pump unit. Explosion-proof and protected against suction overflow by the Gomco Aerovent Valve, the 900 is both safe and trouble-free for operating and treatment room use, year after year.

GOMCO No. 901 Stand-Mounted Suction Unit (not shown)

Identical to the 900 above, but with suction facilities only.

GOMCO No. 911 Explosion-Proof Portable Suction Unit

An ideally safe, compact unit for floor use wherever suction is required. Its powerful rotary pump can be counted on for instant service at any time. Operator has pinpoint control of suction, from 0" to 25" of mercury, by means of the convenient Gomco Regulator Valve and Precision Gauge. A sturdy, carefully built unit for many, many years of the heaviest duty.

KEY TO DIRECTORY (cont.): Introduction, Approving Bodies

This Directory has been compiled to provide a reference source for the hospital field. This year the lists have been considerably expanded, and every effort has been made to obtain accurate and up-to-date information. Except where noted, all information was gathered directly from the groups and institutions listed. For the first time, telephone numbers have been supplied for organizations and agencies. However, as a result of the current reorganization of telephone services throughout the country, some of these telephone numbers may be subject to change.

ORGANIZATIONS

The lists of voluntary organizations include names of the president and director or secretary, address, and telephone number. For organizations which maintain permanent offices, office addresses and telephone numbers are given. For organizations not maintaining offices, the addresses and telephone numbers given are those of the corresponding secretary.

The international, national and regional list includes many types of voluntary groups which are concerned with matters of interest to the hospital field.

The list of state, territorial, provincial and local organizations includes principally: hospital associations, medical associations, nurses' associations, Blue Cross and Blue Shield plans.

GOVERNMENT AGENCIES

Government agencies concerned with hospital-related matters are listed, insofar as is possible, by the major department of government under which the different functions fall. Address, telephone numbers, and names of staff executives are given. Information on selected Canadian federal agencies was furnished by the Canadian Hospital Association.

The list of selected state, territorial, and provincial agencies includes health departments, agencies for hospital facilities, hospital licensure, crippled children's services, maternal and child health, mental health, tuberculosis control, vocational rehabilitation, medical licensure, and nursing licensure.

PROFESSIONAL SCHOOLS

Organizations which grant approvals or accreditation to the listed professional schools in the hospital and health fields are as follows:

DIETETICS

United States: Programs listed are approved by the American Dietetic Association, 620 N. Michigan Ave., Chicago 11.

Canada: Programs listed are approved by the Canadian Dietetic Association, 415 Bloor St. W., Toronto 4, Ont.*

HOSPITAL ADMINISTRATION

United States and Canada: Programs listed are members of the Association of University Programs in Hospital Administration, 339 E. Chicago Ave., Chicago 11.

LIBRARIANSHIP

United States: Schools listed offer special courses in both hospital and medical library service, and are approved by the American Library Association, 50 E. Huron St., Chicago 11.

MEDICAL RECORDS

United States: Programs listed are approved by the Council on Medical Education and Hospitals of the American Medical Association, 535 N. Dearborn St., Chicago 10, in collaboration with the Committee on Education and Registration of the American Association of Medical Record Librarians.

Note: Member hospitals (Type I and Type II members) are included in the *Listing of Hospitals* beginning on page 11.

Type III: Clinics 297

Type IV: Blue Cross Plans 297

Type V: Hospital Auxiliaries 298

Type VI: Hospitals Under Construction 306

Related Organizations 306

Foreign Hospitals and Health Organizations 308

Personal Members 309

MEMBERSHIP CATEGORIES

INSTITUTIONAL MEMBERSHIP

TYPE I: General and special hospitals which care primarily for patients with conditions normally requiring a comparatively short stay. Dues are computed at the rate of 12 mills per patient day ranging from an annual minimum of $90 to a maximum of $1,200.*

TYPE II: All other institutions that provide inpatient care. Dues are computed at six mills per patient day and range annually from $90 to $240.*

TYPE III: Dispensaries, clinics and similar organizations independent of a hospital, but providing only outpatient diagnosis and treatment of the sick. Dues are $90 per year.*

TYPE IV: Hospital Service Plans (Blue Cross Plans) which are formally approved by the American Hospital Association's Board of Trustees in accordance with the bylaws of the Association. Dues are $90 per year.*

*A temporary dues increase of 50 per cent to help finance construction of the new Association headquarters building will be in effect for Type I, II, III and IV members from 1957 to 1960.

TYPE V: Hospital auxiliaries organized in connection with a Type I, II, or III institutional member, or a Type VI institutional member which is a hospital in the planning or construction stages.

Dues for auxiliaries connected with Types I or II institutional members are as follows: auxiliaries connected with hospitals of 100 beds or less, $30 per year; 101 to 300 beds, $50; 301 or more beds, $100. Dues for auxiliaries connected with Type III or Type VI members are $30.

TYPE VI: There are three kinds of Type VI members.

(1) hospitals in the planning or construction stages not yet offering patient services;

(2) allied organizations in the health or hospital fields, such as governmental health departments, voluntary health agencies, schools of hospital administration, and foundations. Dues are $90 annually for nonprofit Type VI members, and $180 per year for those operated for profit;

(3) hospitals and health organizations located outside of the United States or Canada.

Group Membership

Groups of governmental hospitals operating under the same unit of government may obtain institutional membership under a group plan in which the main unit hospital pays full dues and each of the others in the same group pays $90 annually. A similar arrangement is available for auxiliaries of these hospitals, in which the first member auxiliary pays the usual dues and the others pay the minimum of $50 per year.

Where laws prohibit purchase of membership with public funds, government hospitals may purchase the services given institutional members for an annual sum equal to what their dues would be.

PERSONAL MEMBERSHIP

TYPE A: Persons associated with institutional members Type I and II, and persons associated with those Type VI institutional members which are hospitals in the planning and construction stages. Dues are $15 per year. Students in recognized programs of hospital administration pay dues of $7.50 annually.

TYPE B: Persons associated with Types III, IV and V institutional members, with Type VI institutional members which are not hospitals in the planning and construction stages, and persons associated with governmental or nonprofit agencies actively concerned with hospitals. Dues are $15.

TYPE C: Persons not associated with an organization eligible for institutional membership, Types I, II, III, IV and V. Dues are $90.

LIFE MEMBERS: Personal members who have completed thirty years of dues payments, either annually or on a prepaid basis. Life members pay no dues.

HONORARY MEMBERS: Persons of distinction who are granted Honorary membership by action of the Board of Trustees. Honorary members pay no dues.

PERSONAL MEMBERSHIP DEPARTMENTS: The bylaws of the Association provide for the establishment of Personal Membership Departments to offer opportunities for greater communication and participation of specific groups within the hospital field. The first such specialty division to be established was the Department for Hospital Engineers, inaugurated in 1956.

GUIDE TO AHA

Organization and Services

HISTORY

In almost 59 years, the American Hospital Association has developed from a group of 11 hospital superintendents to an organization of 6,975 institutions (5,420 hospitals in the United States and Canada; clinics and dispensaries; Blue Cross Plans; hospital auxiliaries; allied health organizations) and 4,500 personal members.

The organization that was to become the American Hospital Association was the result of a meeting of eight hospital superintendents in Cleveland, Ohio, in 1898. In September, 1899, the eight, with three others, formed the Association of Hospital Superintendents of the United States and Canada. The purpose of the Association was the "meeting together, at stated times, of those in immediate charge of hospitals, for the interchange of ideas, comparing and contrasting methods of management, the discussion of hospital economics, the inspection of hospitals, suggestions of better plans of operating them, and such other matters as may affect the general interests of the membership." This 1899 meeting, with an attendance of eleven, was the first annual convention of the Association.

At the 8th annual convention in 1906, the membership adopted a new constitution and bylaws and changed the name of the organization to the American Hospital Association of the United States and Canada. More than 300 hospital representatives attended the convention. Total membership at this date was 234 personal members.

This same convention was also the first to include a commercial exhibit of hospital furnishings and supplies. However, some members disapproved of this convention feature, and it was not until the 18th annual convention in Philadelphia in 1916 that another commercial exhibit was held, this time to become a permanent part of the Association's conventions.

Also at the 1916 convention, several organizational changes were approved. A five-man Board of Trustees was created; a full-time executive secretary was authorized, as was the establishment of a bureau of hospital information; and it was decided to locate the permanent headquarters in Chicago. Not until 1920, however, did the Association move its offices from Washington to Chicago, and arrange for incorporation under the laws of Illinois.

Institutional membership in the Association was adopted at the 1918 convention. Personal membership at this time totaled 1,250. During the first year of institutional membership, 98 hospitals joined the Association.

In 1920 the first state hospital association, Ohio, became affiliated with the American Hospital Association. In 1921 Wisconsin followed Ohio, and Michigan requested recognition. At the 23rd convention in 1921, the membership committee reported 358 institutional members and 1,327 personal members.

To provide headquarters for the growing Association, the membership at the 1925 convention voted to purchase the building at 18 East Division Street in Chicago for the sum of $125,000.

In 1927, when the Association had equipped and was occupying its new headquarters, the official insigne was adopted. It was designed by Dr. William H. Walsh, executive secretary of the Association 1917-18 and 1925-27. The same year a quarterly publication, the *Bulletin of the American Hospital Association,* was initiated. Two years later the *Bulletin* became a monthly publication. In 1936 it was replaced by **HOSPITALS,** the official journal of the American Hospital Association, which was published monthly until 1956, when it became semi-monthly.

In 1929 the idea of prepayment for hospital care was born when a Baylor University administrator enrolled a group of Dallas (Texas) public school teachers in a local hospital prepayment plan. In 1933 the Association, through a vote of the Board of Trustees, decided to encourage the prepayment movement, and in 1934 the group hospitalization plan was formally endorsed. In 1937, associate membership was authorized for nonprofit prepayment plans meeting membership standards, and in 1938, the Association formally approved 40

PRESENT AHA headquarters at 18 East Division Street. Much of the space in the adjacent apartment buildings is also occupied by AHA staff. *(Photo taken September 1954)*

Blue Cross Plans as associate members.

The following year the Blue Cross Commission was founded. By 1955, the 25th anniversary of the prepayment idea, Blue Cross had nearly 47 million members.

In 1934, the Association established its Award of Merit to recognize noteworthy service in the realm of hospital administration. First recipient was Matthew O. Foley, editor of *Hospital Management* magazine. The award was next presented in 1939 to Malcolm T. MacEachern, M.D., pioneer in hospital accreditation. Presented annually thereafter, the name of the award was changed in 1955 to the Distinguished Service Award.

Sweeping changes in the structure of the Association went into effect in 1938. At this date, the Association had 2,025 institutional members and 2,400 personal members. One of the most significant innovations was the creation of six councils: Administrative Practice, Professional Practice, Hospital Planning and Plant Operation, Public Education, Government Relations and Association Development. The Committee on Coordination of Activities, composed of the president and council chairmen, also was authorized. Membership of the Board of Trustees was increased from five to thirteen, and rotating terms were established. Four types of institutional memberships and five classifications for personal members were set up. Institutional dues, originally based in 1918 on number of beds, were revised to depend on days of patient service.

By 1942 it had become apparent that the new councils could operate most effectively with full-time paid secretaries. The first such full-time appointment was for the Council on Government Relations. Immediate stimulus for this was the necessity for special guidance to member hospitals to help them deal with wartime controls. The Wartime Service Bureau, established in 1943 in Washington under the Council on Government Relations, later became the Washington Service Bureau of the Association. A dues increase in 1943 made it possible to provide all the councils with full-time paid secretaries and to finance new and expanded services to members.

During the years after World War II, the Association's activities expanded greatly. After the long lapse in hospital construction, due to the depression of the 1930's and the wartime scarcity of materials during the early 1940's, the shortage of hospital beds was grave. The American Hospital Association helped to initiate and has regularly and strongly supported the Hospital Survey and Construction Act of 1946 (Hill-Burton). The Act and its amendments authorized federal grants to states to pay part of the cost of constructing nonprofit hospitals and related health facilities.

The Association fostered the establishment of independent commissions, financed by foundation

DISTINGUISHED SERVICE AWARD

1934—Matthew O. Foley
1939—Malcolm T. MacEachern, M.D.
1940—Sigismund S. Goldwater, M.D.
1941—Frederic A. Washburn, M.D.
1942—Winford H. Smith, M.D.
1943—Arthur C. Bachmeyer, M.D.
1944—Rt. Rev. Msgr. Maurice F. Griffin, LL.D.
1945—Asa S. Bacon
1946—George F. Stephens, M.D.
1947—Robin C. Buerki, M.D.
1948—James A. Hamilton
1949—Claude W. Munger, M.D.
1950—Nathaniel W. Faxon, M.D.
1951—Bert W. Caldwell, M.D.
1952—Fred G. Carter, M.D.
1953—Basil C. MacLean, M.D.
1954—George Bugbee
1955—Joseph G. Norby
1956—Charles F. Wilinsky, M.D.

PAST PRESIDENTS

Listing is by year of convention at which tenure as president ended.
Asterisk (*) indicates deceased.

1899—*James S. Knowles
1900—*James S. Knowles
1901—*Charles S. Howell
1902—*J. T. Duryea
1903—*John Fehrenbach
1904—*Daniel D. Test
1905—*George H. M. Rowe, M.D.
1906—*George P. Ludlam
1907—*Renwick R. Ross, M.D.
1908—*S. S. Goldwater, M.D.
1909—*John M. Peters, M.D.
1910—*H. B. Howard, M.D.
1911—*W. L. Babcock, M.D.
1912—*Henry H. Hurd, M.D.
1913—*F. A. Washburn, M. D.
1914—*Thomas Howell, M.D.
1915—*William O. Mann, M.D.
1916—Winford H. Smith, M.D.
1917—*Robert J. Wilson, M.D.
1918—*A. B. Ancker, M. D.
1919—*A. R. Warner, M.D.
1920—Joseph B. Howland, M.D.
1921—*Louis B. Baldwin, M.D.
1922—George O'Hanlon, M.D.
1923—*Asa S. Bacon
1924—*Malcolm T. MacEachern, M.D.
1925—*E. S. Gilmore
1926—*Arthur C. Bachmeyer, M.D.
1927—*R. G. Brodrick, M.D.
1928—*Joseph C. Doane, M.D.
1929—*Louis H. Burlingham, M.D.
1930—*Christopher G. Parnall, M.D.
1931—*Lewis A. Sexton, M.D.
1932—Paul H. Fesler
1933—*George F. Stephens, M.D.
1934—N. W. Faxon, M.D
1935—*Robert Jolly
1936—Robin C. Buerki, M.D.
1937—*Claude W. Munger, M.D.
1938—Robert E. Neff
1939—Harvey Agnew, M.D.
1940—*Fred G. Carter, M.D.
1941—*B. W. Black, M.D.
1942—Basil C. MacLean, M.D.
1943—James A. Hamilton
1944—Frank J. Walter
1945—Donald C. Smelzer, M.D.
1946—Peter D. Ward, M.D.
1947—John H. Hayes
1948—Graham L. Davis
1949—Joseph G. Norby
1950—John H. Hatfield
1951—Charles F. Wilinsky, M.D.
1952—Anthony J. J. Rourke, M.D.
1953—Edwin L. Crosby, M.D.
1954—Ritz E. Heerman
1955—Frank R. Bradley, M.D.
1956—Ray E. Brown

CONVENTIONS

1—1899—Cleveland, September 12-13
2—1900—Pittsburgh, August 21-23
3—1901—New York, September 10-12
4—1902—Philadelphia, October 14-16
5—1903—Cincinnati, October 20-22
6—1904—Atlantic City, September 21-23
7—1905—Boston, September 26-29

grants, to study hospital needs and operation. These included the Commission on Hospital Care, whose report was published in 1947, and the Commission on Financing of Hospital Care, whose report was published in 1954.

The Association also sponsored jointly with other health organizations a number of additional commissions to study problems relating to hospital care. The National Joint Commission for Improvement of the Care of the Patient was organized in 1947 under the sponsorship of the American Hospital Association, the American Medical Association, the American Nurses' Association, and the National League for Nursing, Inc.

With the American Medical Association, the American Public Health Association, and the American Public Welfare Association, the American Hospital Association was one of the founders of the Commission on Chronic Illness, which in 1956 completed a seven-year study of the problems of chronic illness and disability.

In 1949, the increasing importance of the role of the auxiliary in hospital care was recognized with the formation of the Committee on Women's Hospital Auxiliaries. The word "women's" was later dropped from the title, and in 1956 this committee was elevated to the status of a council.

The Association in 1951 raised its dues to provide for the Association's participation in what was to become the Joint Commission on Accreditation of Hospitals. Accreditation, begun in 1918 by the American College of Surgeons, was transferred in 1952 to the Joint Commission, which operates under the sponsorship of the American College of Physicians, the American College of Surgeons, the American Hospital Association, the American Medical Association and the Canadian Medical Association.

Starting in 1945, the Association had published an *American Hospital Directory,* giving listings of hospitals and statistical data. The American Medical Association, which had conducted a program of registration of hospitals and had compiled hospital statistics annually since 1931, voted in 1954 to discontinue these activities. Early in 1955, the American Hospital Association took over this program and combined it with an enlarged program of hospital listing and compilation of statistics on hospital plant, utilization, finances and personnel. The *Listing of Hospitals* and statistics are published in the annual Guide Issue of **HOSPITALS,** which supplanted the *American Hospital Directory* in 1949.

CONSTRUCTION proceeds on the new AHA headquarters and Center for Hospital Affairs on Lake Shore Drive at Pearson Street. The 12-story building will be completed in the fall of 1958. *(Photo taken May 1957)*

The *Listing of Hospitals* was used by the Ford Foundation as the basis for selecting hospitals eligible to receive grants under the Foundation's $200 million hospital program announced in December, 1955. Recipients of the grants were 3,200 voluntary, nonprofit, nongovernmental hospitals in the continental United States, Alaska, Hawaii and Puerto Rico. The grants, given to hospitals in two installments, in 1956 and 1957, could be used for any program of improvement or extension of service, but not for operating expenses for services already being conducted. A particular purpose of the grants was to help hospitals achieve accreditation by the Joint Commission on Accreditation of Hospitals.

The expanded services of the American Hospital Association include a large-scale research program. In 1956 and early 1957, grants of more than $3.5 million were made to the Association for various research projects to be carried out during forthcoming years. Two studies are now under way, one on hospital planning and licensure laws and one on the future need for hospital facilities.

By 1954 the Association headquarters building had been long outgrown by the expanding Association staff. The Blue Cross Commission and allied organizations, such the American Association of Nurse Anesthetists and the American College of Hospital Administrators, had been forced to move to other quarters because of lack of space. In 1954, therefore, membership dues were raised to finance the construction of a new building to house both the Association and allied health organizations.

Rising construction costs soon made it apparent that the dues increase would not cover the cost of erecting the projected 17-story Center for Hospital Affairs. Early in 1957, the House of Delegates therefore authorized a temporary dues increase for four years to finance the building of a 12-story headquarters on Lake Shore Drive at Pearson Street, on Chicago's near north side. Construction is scheduled for completion in late 1958. Four of the 12 stories in the new headquarters will provide housing for other nonprofit, voluntary organizations in the hospital and health fields.

The Center for Hospital Affairs will provide the physical facilities, pooled resources and communication necessary for an effective and cooperative approach by all these health groups to their common goal, the improvement of hospital and health services and the provision of the best possible patient care.

STRUCTURE

The organizational structure of the Association today is designed to provide for the most complete representation of members and the most extensive study and activity in all phases of hospital work.*

The final policy-making body of the Association is the House of Delegates, composed of 100 representatives selected by members of the Association in each state, territory and Canadian province. The House of Delegates elects officers, Board of Trustees and delegates-at-large at its annual meeting.

Elective officers of the Association include the president, president-elect and treasurer. These officers, the immediate past president of the Association, and nine trustees, of whom three are elected each year for three-year terms, comprise the Board of Trustees. The Board usually meets four times a year and acts for the Association during the period between the annual meetings of the House of Delegates. The Board appoints the director, who also serves as secretary of the Association.

The councils of the Association serve as the major divisions through which the program of the Association is carried out. The chairmen and members of the councils are appointed by the president of the Association with the approval of the Board of Trustees. There are now seven councils: Administrative Practice, Association Services, Government Relations, Hospital Auxiliaries, Hospital Planning and Plant Operation, Prepayment Plans and Hospital Reimbursement, and Professional Practice. The Blue Cross Commission has quasi-council status.

The chairmen of the seven councils and the chairman of the Blue Cross Commission comprise the Committee on Coordination of Activities, which meets four times a year with the Board of Trustees. These quarterly meetings provide a forum for review of the projects of the councils.

Each of the major working divisions of the Association has its own committees to carry out specific projects or assignments. The listing of committees which follows indicates the wide scope of the Association program. Appointments to committees and councils, are made at the time of the annual convention. A complete list of the names and addresses of Association officers and council and committee members is published each year in **HOSPITALS** following the convention. Officers and council members are listed in the journal on the first of each month.

*Membership categories are given on page 280; membership lists begin on page 297.

SERVICES

As defined in its bylaws, the American Hospital Association is dedicated to promoting the public welfare through the provision of better hospital care for all the people. The Association offers its members national representation and serves as a central clearing house for developments in the health field.

Channels of communication provided by the Association to its members include the councils and committees, meetings and conferences, educational programs, publications and many other outlets. For example, during 1956 more than 950,000 pieces of material were distributed in the hospital field by the Association. This total does not include **HOSPITALS** or TRUSTEE, the Journal for Hospital Governing Boards, but does include 140,000 convention materials, 27,000 Washington Service Bureau reports, 375,000 public relations aids for National Hospital Week, 40,000 programing and publicity suggestions concerning the Ford Foundation grants to hospitals, and more than 330,000 institute announcements, programs and certificates, plus manuals, publications, and letters.

AWARDS, INSIGNIA

A variety of items bearing the seal of the American Hospital Association may be ordered through the Association. These include employee service pins and lapel buttons, auxiliary and volunteer pins, auxiliary emblems, cuts of the official insigne and of the auxiliary insigne, and a selection of jewelry and accessories. (A list of these items begins on page 287.)

CONVENTION

Largest hospital meeting in the world, the annual convention of the Association is attended by some 12,000 representatives of the hospital and health fields. Administrators, department heads, trustees, auxiliaries and many others meet at the convention to learn about the latest trends in hospital care and operation. The annual conference of hospital auxiliaries is held concurrently with the Association convention. The program of the convention includes general assemblies, round tables and panel discussion, and is supplemented by the Hospital Merchandise Mart of more than 500 commercial and technical exhibits.

EDUCATION

The educational department of the Association conducts training institutes and workshops for hospital personnel throughout the year. In 1957, a total of 87 institutes, seminars and workshops were scheduled in the United States, in Hawaii and Puerto Rico, and in Canada. Included among these are 26 financial management institutes financed by grants from the Hartford Foundation and the Blue Cross Commission. Study topics of the Association's institutes range from accounting to pharmacy, from hospital auxiliaries to disaster planning. Hospital representatives are brought together with specialists in the particular area of the institute for an exchange of ideas, information, practical operations and theory.

FILMS

The educational department is also concerned with the production and distribution of films, filmstrips and slides for use by hospitals both in training and informing personnel and in community public relations activities. The Association's Film Review Board, composed of hospital representatives, views a number of films at meetings throughout the year and selects those suitable for hospital use. After approval by the Film Review Board, many films are purchased and are available for rental or purchase from the Association. (A complete list of films available from the Association begins on page 292.

LIBRARY

The American Hospital Association library, the Asa S. Bacon Memorial, houses the most comprehensive collection of hospital literature in the world. It contains more than 12,000 books, complete sets of bound periodicals in the hospital, health and nursing fields, and an extensive file of magazine articles, classified by subject. The library also maintains collections of such materials as hospital annual reports, patient booklets, and hospital bulletins. The more than 6,000 requests for information and assistance which the library receives annually are answered with informational letters, bibliographies, and the loan for one month of package libraries. These package libraries are assembled in response to individual inquiries and contain pertinent books, magazine articles and pamphlets. The library semi-annually prepares the Hospital Periodical Literature Index as a reference tool to published material in the hospital and health field, and publishes a Cumulative Index every five years.

PUBLICATIONS

Publications of the Association include periodicals, manuals, pamphlets and brochures. The periodicals include: **HOSPITALS**, semimonthly, written for hospital administrators, department heads and others concerned with the planning, organization and administration of hospitals; TRUSTEE, monthly Journal for Hospital Governing Boards; *This Month at the American Hospital Association*, a message from the director concerning the activities of the Association; the *Hospital Engineers Newsletter*, monthly publication for members of the Personal Membership Department for Hospital Engineers; the monthly *Public Relations Newsletter*, designed to help hospitals develop sound public relations programs; and *This Month in Washington*, a report on the activities of the Association's Washington Service Bureau and on current legislation.

In addition to the periodicals, the Association issues many publications designed to provide hospitals with basic information and specific practical assistance. New publications are constantly being produced and existing publications revised and brought up to date to give the most modern, efficient aids to hospital personnel.

The manuals of the Association are guides on operational procedures to meet the needs of administrators, departmental personnel, auxiliaries and hospital associations. More than 50 manuals have been completed and distributed. These manuals, produced under the direction of hospital workers in the field, become the standard of operation in the particular area.

Other Association publications are designed to increase public understanding and encourage public support of hospitals. These include booklets on hospital costs, disaster planning, the role of the hospital in the maintenance of community health, accreditation, and aids for National Hospital Week. (A list of Association publications begins on page 288.)

Week. (A complete list of Association publications begins on page 288.)

PUBLIC RELATIONS

The public relations department of the Association operates with a three-fold objective: to assist member hospitals in developing sound public and community relations; to encourage public understanding of hospitals, and to explain the Association's services and how hospitals can utilize them to the greatest advantage.

Annually in conjunction with the anniversary of Florence Nightingale's birthday—May 12—the Association sponsors National Hospital Week, a week of community education about hospitals. Member hospitals and auxiliaries are encouraged during this Week to foster good community relations and to help members of the community to become better acquainted with their hospitals. In 1957, for example, the theme of National Hospital Week was "Careers That Count," pointing out the need for additional hospital career workers and stressing all hospital careers. A variety of public relations and informational aids are produced by the public relations department of the Association for use by hospitals during National Hospital Week.

RESEARCH

Research by the Association has become an activity of increasing importance in recent years. One function of research in the annual special survey through which the Association provides hospitals and the health field with the latest statistical information about hospitals. Each year the Association sends questionnaires to listed hospitals, compiling the data for the annual Guide Issue of **HOSPITALS.** Other statistical surveys on various aspects of hospital operation are also conducted by the research department.

During 1956 and the early part of 1957, grants of more than $3.5 million were made to the Association for various research projects, both current and future. Included in these totals are grants from the Public Health Service and the W. K. Kellogg Foundation for a study of the future needs for hospital facilities; and another grant from the Public Health Service to study the operation of hospital planning and license laws.

SERVICE FROM HEADQUARTERS

The Association's staff includes a number of specialists, part of whose function is to assist member hospitals on specific problems. Among the areas in which these specialists can provide information, advice and assistance are housekeeping, nursing, management, public relations, accounting, education, professional relations, prepayment, plant planning and operation, dietetics, pharmacy, auxiliaries, literature, maintenance, insurance, laundry, purchasing and legislation. Problems requiring further attention may then be referred to the Association's councils or committees.

The Association also offers indirect help to individual hospitals by providing services to hospital associations. One such service is the annual midyear conference of presidents and secretaries of state, regional, metropolitan, territorial and provincial hospital associations, and another is a working conference for the executive secretaries of these associations. A manual for officers and trustees of state hospital associations, and a supplement on the state association insurance committee, have been published.

The Law Department of the Association employs a legislative counsel and a staff attorney. Functions of this department include drafting legislative proposals and participating in the preparation of reports and testimony on behalf of the Association, conducting research into legal matters of concern to hospitals, studying new legislation affecting hospitals and the health field, and advising members on the legal implications of new developments in the field.

WASHINGTON SERVICE BUREAU

The Council on Government Relations, which keeps in close touch with legislation and proposed legislation affecting hospitals and the health field, conducts most of its activities out of the Association's Washington Service Bureau. Part of the function of the Bureau is the presentation to Congress and the administration of the Association's point of view on such topics as federal employees' health insurance, the Hill-Burton Act, medical school facilities, nursing studies, indigent care, recommendations of the Hoover Commission, disaster planning, veterans relations and dependents' medical care.

AWARDS, INSIGNIA

Orders for awards, insignia or jewelry should not include checks or money orders. Bills will be sent later. Delivery dates on these items vary; orders should be placed well in advance.

AUXILIARY AWARDS

These awards may be presented only to members of auxiliaries which hold Type V membership in the American Hospital Association. There are three types, shown below:

AUXILIARY PIN—Legend "Hospital Auxiliary" on white enamel circles full color Association seal. Sterling. $1.36 plus federal tax.

PAST PRESIDENT'S PIN—For recognition of work of past president. Legend "Past President H.A." on red enamel circles full color Association seal. Sterling. $1.36 plus federal tax.

AUXILIARY EMBLEM—To be worn on auxiliary uniform. Stitched reproduction of the Association seal, with legend "Hospital Auxiliary Member" in gold on blue. 3½-in. diameter. 50¢.

EMPLOYEE AWARDS

Service awards for employees are available as pins or as lapel buttons. Both bear the Association seal, the shield enameled in red, white and blue. May be inscribed either with the number of years of service or with a jewel for special achievement. In two types, shown below:

TYPE I—The name of the hospital is inscribed on the blue enamel band circling the seal. In gold, $4; sterling, $1.50; both prices plus federal tax.

TYPE II—The legend "Service to Humanity" and a wreath motif are inscribed on the blue enamel band circling the seal. In gold, $3.50; sterling, $1.50; both prices plus federal tax.

VOLUNTEER AWARDS

To be eligible for these awards, the volunteer must have completed, within 365 consecutive days, 100 hours (for teen-age volunteers, 50 hours) of volunteer work in

organized volunteer departments, either within the hospital or for the direct benefit of the hospital. Eligibility must be certified by the administrator. Awards are of two types, shown below:

VOLUNTEER SERVICE PIN—Octagonal pin with the Association seal circled by a blue enamel band reading "Hospital Volunteer Service." $1 plus federal tax. Minimum order, 5 pins.

TEEN-AGE VOLUNTEER PIN—Round pin with the Association seal circled by a white enamel band reading "Teen-Age Hospital Volunteer." $1 plus federal tax. Minimum order, 5 pins.

INSIGNIA

AHA INSIGNE—A card, suitable for framing, bearing a reproduction of the official insigne of the Association in color, with an explanation of the heraldic symbols, is available at 50¢.

Cuts—Cuts of the insigne may be purchased for use on letterheads, envelopes and publications. They are available as line cuts or as halftones. There are two types, as follows:

For Member Hospitals—The insigne shows the designation "Member." ¾-in., $3; 1½-in., $3.50; 2-in., $4.

For State Associations—The insigne shows the designation "Affiliated with the American Hospital Association." ¾-in., $3; 1-in., $3.50; 1⅝-in., $4.

AUXILIARY INSIGNE—Cuts of the hospital auxiliary insigne are available on a loan basis only. In four sizes: ⅞-in., 1¼-in., 1½-in., and 2¼-in.

JEWELRY

Two items of a wide selection of jewelry and accessories decorated with the Association insigne are shown below. For information concerning other items, write to the Association.

PENDANT — Association seal in blue, red and white. In 10-carat gold with gold-filled case, $10; sterling, $7.50; plus federal tax.

CIRCLE CUFF LINKS — Association seal in blue, red and white. In gold, $30; sterling, $12.50; plus federal tax.

PUBLICATIONS

Publications which may be imprinted with the hospital's name are indicated with an asterisk (*). Minimum imprinting charge, $5. Quantity imprinting charges, $5 per 1,000 for each publication ordered.

All publications which do not have quantity prices listed are subject to the following discounts on orders of 10 or more: 10 to 50 copies, 15% discount; 51 to 100 copies, 20%; more than 100 copies, 25%.

Quantity prices for publications listed as "free up to 10 copies" will be supplied on request.

PERIODICALS

HOSPITALS, Journal of the American Hospital Association. Published twice monthly on the 1st and 16th. $5 annually, $9 for two years, $12 for three years. 30¢ for single copies, except for the two-part August 1 Guide Issue, $2.50.

HOSPITALS is designed for administrators, department heads and others concerned with hospital administration, operation, planning and construction. Single subscriptions to HOSPITALS are included as a membership benefit with an automatic dues deduction of $5.00 for Types I, II, III, IV and VI institutional members and personal members.

Guide Issue of HOSPITALS, published annually on August 1, is in two parts. Part I is the regular article section of HOSPITALS. Part II contains the Listing of Hospitals, an annual directory which gives detailed information about each hospital accepted for listing by the American Hospital Association; it also includes a complete statistical report on the operation and utilization of hospitals in the United States and Canada, a guide to the organization and services of the American Hospital Association and a directory of organizations, agencies and professional schools in the hospital field.

TRUSTEE, the Journal for Hospital Governing Boards. Published monthly. $2 annually to members, $3 to all others. 25¢ for single copies. One copy is available with an automatic dues deduction of $2 as a membership service to the presidents of the governing boards of member hospitals.

This Month at the American Hospital Association. Monthly newsletter from the director detailing current activities of the American Hospital Association. Distributed as a membership service to all members of the Association.

This Month in Washington. Published monthly to provide information on important developments in the field of federal legislation affecting the hospital field. Distributed as a membership service to all members of the American Hospital Association.

Hospital Auxiliary Newsletter. Published 12 times a year. $2 annually to individual members of auxiliaries which are members of the American Hospital Association, hospital administrators and personnel of hospitals with Type V member auxiliaries. Distributed with an automatic dues deduction of $2 each as a membership service to presidents and secretaries of member auxiliaries.

Gives news of the American Hospital Association activities concerning auxiliaries and describes the various programs and projects of member hospital auxiliaries.

Public Relations Newsletter. Published monthly.

Designed to assist hospitals to develop sound public relations by providing news and comments on all phases of hospital public relations programs. Distributed as a membership service to institutional members of the American Hospital Association.

Hospital Engineers' Newsletter. Published monthly.

Contains news and announcements of special interests to hospital engineers. Sent as a membership service to members of the Personal Membership Department for Hospital Engineers of the American Hospital Association.

Health News Digest for Legislators. Published 10 times a year.

Presents a digest of significant health news at state and federal levels. Sent to all members of Congress and to selected state legislators, particularly those serving on committees having jurisdiction on health problems.

Hospital Periodical Literature Index. Published semi-annually in March and September. $5 annually.

Reference index by author and subject to articles in the hospital and health fields which originally appeared in more than 400 periodicals.

Cumulative Index of Hospital Litera-

ture. Published every five years. Latest issue covers 1950-1954. $6.

Permanent reference tool to articles in the hospital and health fields which appeared during the specified five-year period.

PUBLICATIONS

ADMINISTRATIVE PROCEDURES

ADMITTING

Manual of Admitting Practices and Procedures. 1952. 72 pp. $1.50.

A practical guide for admitting office policy, organization, personnel, legal problems, and procedures.

What Hospitals Can Do About Alcoholism. 1956. 4 pp. 10¢. Reprinted from HOSPITALS, J.A.H.A.

Discusses the responsibility of the general hospital for the care of the alcoholic patient.

DISASTER PLANNING

Principles of Disaster Planning for Hospitals. 1956. 24 pp. 75¢.

Outlines a disaster preparedness plan in all its phases, including personnel, equipment and communications.

Readings in Disaster Planning for Hospitals. 1956. 90 pp. $1.50.

A collection of articles showing specifically how individual hospitals met the challenge of community disaster.

***The Hospital and Disaster.** 1956. 1 to 499 copies, $6 per 100; 500 to 999 copies, $5.10 per 100; 1,000 or more copies, $4.50 per 100.

Folder describing the hospital's vital role in the community in time of disaster.

FINANCIAL MANAGEMENT

A Guide for Hospital Rate Setting. 1956. 4 pp. Free.

Six principles for rate setting approved by the Board of Trustees of the American Hospital Associtaion.

Basic Philosophies Underlying Hospital Policies on Allowances. 1954. 4 pp. Free.

Statement developed by the Council on Prepayment Plans and Hospital Reimbursement of the American Hospital Association of the basic principles underlying the practices of granting allowances.

Bookkeeping Procedures and Business Practices for Small Hospitals. 1956. 170 pp. $4.

Especially designed for hospitals of up to 100 beds, but useful for larger hospitals. Deals with charts of accounts, accounts payable and receivable, cash receipts and banking practices, payroll, inventory control, financial reports, credit and collections, purchasing and statistics.

Cost Finding for Hospitals. 1957. 131 pp. $3.

Illustrates a complete cost finding procedure for hospitals, shows additional areas where cost studies may be prepared, and introduces budgeting techniques and procedures.

Hospital Rates. 1956. 32 pp. $1.

Survey published annually of rates, charges, and other rate-making practices in general hospitals. Data given are based on answers to the annual hospital rate questionnaire.

Manual on Insurance for Hospitals. 1955. 160 pp. $3.50.

Analyzes the policy provisions of the major types of insurance for hospitals. Includes discussions of property, theft and liability insurance, and a sample hospital insurance program.

Principles of Payment for Hospital Care. 1954. 16 pp. 30¢.

Designed to outline contract payment standards for hospital services furnished to beneficiaries of third-party agencies such as Blue Cross, government or others.

Transcript: Institute on Credit and Collections. 1951. 70 pp. $2.50.

Reviews general and legal aspects of credit and collection practices, nonprofit and commercial insurance reports, and factors determining what patients should pay. Transcript of the papers given at the Institute on Credit and Collections, May 1950. Limited supply.

Uniform Hospital Statistics and Classification of Accounts. 1950. 155 pp. $2.50.

Contains recommended uniform classification of accounts, balance sheet accounts and general fund accounts, both income and expense. Includes check lists of supplies, expense and equipment, and definitions of terms.

HOUSEKEEPING

Blankets for Hospitals. 1947. 12 pp. Free up to 10 copies.

Gives commercial standards for blankets. A guide for the purchasing and care of blankets for a hospital.

Manual of Hospital Housekeeping. 1952. 113 pp. $1.50.

Examines housekeeping in both its general and specific aspects. Includes discussions of personnel, management and supervisory problems, the role of housekeeping in the operation of the hospital, cleaning operations, methods of caring for equipment, and work practices.

LAUNDRY

Hospital Laundry, Manual of Operation. 1949. 167 pp. $1.50.

A practical guide for laundry operation, including linen control, washing formulas, stain removal, and the most efficient use of personnel and equipment.

OPERATIONAL METHODS

Coordination of Hospitals and Health Departments. 1948. 9 pp. Free up to 10 copies.

Joint statement of the American Hospital Association and the American Public Health Association defining the areas in which fuller cooperation and integration of hospitals and health departments may be achieved.

Elements of Hospital Operation. 1950. 32 pp. 25¢. Reprinted from HOSPITALS, Journal of the American Hospital Association.

Lists typical problems and situations encountered in opening and operating hospitals.

Hospital Records Administration, Manual of Procedures. 1949. 72 pp. $1.50.

A guide for the organization and coordination of filing services in the hospital. Details the planning of departmental file systems and handling of records.

Measuring the Community for a Hospital. 1945. 39 pp. 25¢.

Outlines the factors determining the community's need for a hospital, and the number of beds necessary to serve the community adequately.

Methods Improvement, Interim Report of the Committee. 1954. 45 pp. 75¢.

Provides general information on hospital methods improvement designed to reduce costs and increase efficiency, plus seven case histories about organized hospital methods improvement programs.

The Nature of Hospital Costs. 1956. 5 pp. 1 to 300 copies, 10¢ each; 300 to 599 copies, 8¢ each; 600 to 999 copies, 6¢ each; 1,000 or more, 5¢ each. Article by Ray E. Brown, past president of the American Hospital Association. Reprinted from HOSPITALS, J.A.H.A.

Discussion of the factors affecting the increase in hospital costs and the areas in which the means to control costs may be found.

PERSONNEL

Hospital Personnel Administration. Section 1. The Development of Sound Personnel Practices in Hospitals, 1948. 100 pp. $1.00.

Tells how to formulate a personnel policy and gives the details of an adequate policy.

Section 2. Conference Techniques. 1949. 141 pp. $1.50.

Tells how to establish a conference program, and how to use conferences for teaching, discussion and future planning.

Position Control Plan, a Personnel Relations Program. 1952. 16 pp. $1.

Describes a simple, practical and efficient plan for controlling the number of employees on the hospital payroll.

Suggestion Plans, a Personnel Relations Program. 1952. 16 pp. $1.

Tells how to organize a suggestion plan program to maintain personnel morale and to improve hospital efficiency.

There's a Hospital Career for You! 1954. 11 pp. 30¢ each; 100 copies, $27.00; 250 copies, $63.75; 500 copies, $112.50.

A listing of sources of information on hospital careers and of publications on careers by organizations in the health and hospital fields.

Training Hospital Employees. 1948. 256 pp. $5.50.

A guide for supervisors in training employees. The major part of the book, prepared by the Cleveland Hospital Council, is an outline of job instruction breakdowns by department.

AUXILIARIES

A Guide for Hospital Volunteer Services. 1954. 36 pp. $1.50.

Gives practical suggestions for organizing a volunteer program, including how to recruit and orient volunteers, and lists the departments in which volunteers may be placed.

A Guide, Membership and Public Relations for Women's Hospital Auxiliaries. 1952. Revised 1957. 37 pp. $1.50.

Designed to assist auxiliaries in planning membership programs which will broaden public understanding of the hospital and stimulate membership in the auxiliary.

Awards, Recognitions and Uniforms for Hospital Volunteers. 1956. 9 pp. Free.
Illustrated booklet describing auxiliary service pins, emblems and uniforms, and suggesting ways of recognizing auxiliary service.

If You Care. 1953. 4 pp. 100 copies, $4; 500 copies, $15; 1,000 copies $26.
Folders designed to recruit new auxiliary members by describing the importance of volunteer work and the satisfaction it gives the worker.

Manual of Operation, Gift Shops and Snack Bars. 1951. 38 pp. $1.50.
Tells how to organize, plan, establish and staff a gift shop or snack bar.

Manual of Operation, Thrift Shops and Rummage Sales. 1953. 49 pp. $1.50.
Tells how to operate a successful re-sale operation, either as a regular auxiliary function or as a special event.

Manual on Organization of Women's Hospital Auxiliaries With Model Constitution and By-Laws. 1950. 15 pp. $1.50.
A guide for auxiliary organization, from the initial planning to the necessary formal structure. Includes information on committees, meetings, funds, and powers of the board of directors.

Organizing a Hospital Auxiliary. 1954. 10 pp. Free.
Brief, direct and simple description of the first steps to take in organizing an auxiliary. Designed to supplement the *Manual on Organization of Hospital Auxiliaries with Model Constitution and By-Laws.*

Planning Educational Programs for Hospital Auxiliaries. 1955. 32 pp. $1.50.
Discusses program planning in all its aspects, including suggestions as to kinds of programs, types of audiences and the carrying out and evaluation of the program.

When Your Auxiliary Belongs. 1956. 4 pp. Free.
Folder describing the meaning of auxiliary membership in the American Hospital Association, the services to members, eligibility for membership, how to become a member, and dues.

CONVENTION PAPERS

1. Chicago Conference Papers. 1954. 102 pp. $1.50.
Papers presented at the 1954 Hospital Auxiliaries Conference include sections on the volunteer, new trends in patient care, and suggestions for volunteer projects.

2. Atlantic City Conference Papers. 1955. 128 pp. $1.50.
Papers presented at the 1955 Hospital Auxiliaries Conference include sections on rehabilitation, financing, hospital accreditation, and hospital-physician relationship.

3. Chicago Conference Papers. 1957. 68 pp. $2.50.
Papers presented at the 1956 Hospital Auxiliaries Conference include sections on planning, research, the changing pattern of the psychiatric hospital patient, building auxiliary-community relations and auxiliary-hospital relations, history of the organized auxiliary movement, and the future outlook.

BLUE CROSS

Responsibility for Blue Cross Policy. 1948. 11 pp. 25¢.
Discusses Blue Cross Plans from the standpoint of hospital authority, the physician, public interest, the governing board, and administrative responsibility.

The Approval Program for Hospital Service Plans of the American Hospital Association. Currently in revision. Free up to 10 copies.
Pamphlet giving the general principles and a detailed description of the ten standards constitutiong the American Hospital Association's approval program for Blue Cross Plans.

Utilization of Blue Cross Benefits by Hospital Groups. 1951. 4 pp. Free.
Statement of suggested policy on utilization of Blue Cross benefits by hospital groups. Approved by the Board of Trustees of the American Hospital Association.

HOSPITAL ASSOCIATIONS AND SERVICES

AMERICAN HOSPITAL ASSOCIATION

American Hospital Association in Action. 1955. 12 pp. Free.
A question and answer booklet about the Association, its history, functions, membership, policy and service.

Bylaws of the American Hospital Association. 1956. 21 pp. Free.
Published annually as amended.

Film Catalogue. Currently in preparation.
Lists films, filmstrips, slides and other audiovisual aids on hospitals and allied health fields available from the American Hospital Association and from other organizations.

Guide for the Establishment and Operation of Personal Membership Departments. 1956. 7 pp. Free.
Tells who is eligible for membership in a Personal Membership Department of the American Hospital Association, the functions of Personal Membership Departments, and the services of the American Hospital Association for such departments.

Membership Categories in the American Hospital Association. 1956. 4 pp. Free.
Describes the various types of membership, requirements and dues.

Personal Membership in the AHA is Your Passport. 1953. Free.
Flyer describing the advantages and services to personal members, and the requirements for personal membership.

Publications Catalogue. 1957. 24 pp. Free.
Lists the publications and periodicals of the American Hospital Association, with brief descriptions and prices.

PUBLIC RELATIONS

AHA Awards and Emblems. Free.
Folder describing employee service pins, lapel buttons, and auxiliary pins. Includes service requirements for award of pins, prices and how to order pins.

A Hospital Administrator's Prayer. 1954. 25¢. Reprinted from HOSPITALS, J.A.H.A.
Single sheet poem by John H. Hayes. Suitable for framing.

***Careers That Count.** 1957. 4 pp. 1 to 499 copies, $6.00 per 100; 500 to 999 copies, $5.10 per 100; 1,000 or more, $4.50 per 100.
Folder describing the need for hospital workers and listing the various hospital careers.

***Do You Know Your Hospital?** 1954. Revised 1957. 4 pp. 1 to 499 copies, $6.00 per 100; 500 to 999 copies, $5.10 per 100; 1,000 or more, $4.50 per 100.
Questionnaire folder which gives information on hospitals while it tests.

***Giving for Less.** 1956. 8 pp. 50 copies, $2.40; 100 copies, $4.80; 500, $18.00; 1,000, $31.20.
A leaflet on tax savings to individuals and corporations through contributions to hospitals. Includes tables and charts. Revised annually as necessary.

***In a Great Tradition.** 1955. 6 pp. 1 to 499 copies, $6.00 per 100; 500 to 999, $5.10 per 100; 1,000 or more, $4.50 per 100.
Folder describing the growth of the hospital system and the progress made in hospital care.

It's Your Hospital and Your Life! 1952. 32 pp. 25¢. Public Affairs Pamphlet No. 187.
Describes the modern hospital, its activities, organization, costs and services.

***Join Us in a Hospital Career!** 1957. 8 pp. 1 to 499, $8.00 per 100; 500 to 999, $7.00 per 100; 1,000 or over, $6.00 per 100.
Four-color cartoon book which focuses on the variety of careers to be found in a hospital while telling the story of a hospitalized high school student.

National Hospital Week Handbook. 1955. 34 pp. $1.00.
A permanent guide to hospital programing and publicity during National Hospital Week. Tells how to make use of radio, television, newspapers, and how to establish various community programs.

Today's Hospital, a Story of Progress. 1955. 44 pp. $1.25.
A brief history of the growth of hospitals in the United States and Canada, including hospital traditions and the changing role of the modern hospital in the community.

***The Most Important Building in Town.** 1952. 10 pp. 100 copies, $7.20; 500 copies, $27.00; 1,000 copies, $46.80.
Booklet showing in words and pictures the importance of the hospital to every member of the community.

***We Wish We Could X-Ray Your Opinion.** 1950. 10 pp. $5.00 per 100; $40.00 per 1,000.
Questionnaire pamphlet designed to be imprinted with the hospital's name and used to determine the opinions of patients on their hospital stay. Instruction book included with orders of 100 or more.

***Your Hospital Bill.** 1956. 10 pp. 1 to 499 copies, $8.00 per 100; 500 to 999 copies, $6.80 per 100; 1,000 or more, $6.00 per 100.
Simple, easy-to-understand factual discussion and explanation of hospital costs and charges to patients. Illustrated.

STATE ASSOCIATIONS

Manual for State Hospital Associa-

tion Officers and Trustees. 1955. 90 pp. $4.00.

Discusses the functions of state associations, including the responsibilities of officers, trustees, councils and committees, program development, auxiliaries, business and financial management, and relations with other hospital groups.

The State Association Insurance Committee. Supplement 1. Manual for State Hospital Association Officers and Trustees. 1956. 24 pp. $1.00.

Describes the activities and responsibilities of state hospital association insurance committees, how insurance firms operate and how to work with them, and lists hospital jobs with classification for workmen's compensation.

PLANT OPERATION

ENGINEERING AND MAINTENANCE

Elements of the Hospital Maintenance Shop. 1951. 4 pp. 10¢. Reprinted from HOSPITALS, J.A.H.A.

Discusses the planning of maintenance shops for hospitals of different sizes, and includes detailed diagrams of suggested shops.

Fuel Conservation in Hospitals, Manual for Power Plants. 1945. 62 pp. $1.50.

A guide for the achievement of a more economical power plant operation. Discusses how to select, purchase and store fuel, methods of combustion, steam production and consumption, and instrument control methods.

Manual of Hospital Maintenance. 1952. 116 pp. $1.50.

Discusses maintenance generally and in specific detail, including organization, purchasing, supplies and storage, sanitation and asepsis, heat, light, power and water, equipment maintenance, and interior and exterior building maintenance.

Transcript: Institute for Hospital Engineers. 1951. 98 pp. $3.50.

Reviews basic hospital engineering areas, and explores new ideas for more efficient operation. A transcript of the papers and discussions of a 1950 institute.

PLANNING

Elements of the General Hospital. 1952. 54 pp. 25¢. Reprinted from HOSPITALS, J.A.H.A.

Diagrammatic plans and equipment layouts of the different hospital departments to serve as a reference guide in new hospital planning.

Establishing a New Hospital. 1952. 244 pp. $3.50.

Discusses problems of opening a new hospital with suggested solutions. Covers budgets, sources of income, governing board's responsibility, integration of the hospital with the community, organization of the medical staff, rate schedules, admitting and discharge procedures, insurance, auxiliaries, service departments, purchasing and stores control, personnel, nursing service, safety and clinical service. A transcript of a 1951 institute.

The Thinking Behind Today's Small Hospital. 1954. 15 pp. 10¢. Reprinted from HOSPITALS, J.A.H.A.

Presents a discussion and detailed scale architectural plans of a series of newly constructed small hospitals throughout the United States.

SAFETY

A Manual, Development of Fire Emergency Programs. 1951. 63 pp. $1.50.

Gives the pattern for a fire emergency program, including how it should be organized, developed and carried out, plus specific safety suggestions.

Bedside Manner. 1952. 4 pp. Free up to 10 copies.

Folder designed for the hospital patient, explaining the various details of his room, such as the bed, side rails, call bell, and heating appliances, and suggesting safety practices. Published by the National Safety Council and the American Hospital Association.

Emergency Removal of Patients and First-Aid Fire Fighting in Hospitals. 1956. 59 pp. $1.45 each, 2 to 9 copies, $1.15; 10 to 99 copies, 92¢; 100 or more, 86¢.

Illustrates through text and photographs how to move patients with various types of injuries, how to fight different kinds of fires, the location and kind of fire prevention equipment, and how to develop training programs for emergencies. By Lt. Robert McGrath, Chicago Fire Prevention Bureau. A joint publication of the American Hospital Association and the National Safety Council.

Hospital Accident Prevention and Fire Prevention Services. Free.

Folder describing the Hospital Safety Service, an accident and fire prevention subscription service conducted jointly by the American Hospital Association and the National Safety Council.

Hospital Safety Manual. 1954. 116 pp. $2.00.

Gives specific information on accident control, fire prevention, emergency control, safety training, employee health, patient safety, and how to use safety programs. A joint publication of the American Hospital Association and the National Safety Council.

Organizing for Safety in the Hospital. 1951. 15 pp. Free.

Pamphlet on the need for accident prevention programs and the method of organizing an effective safety program.

Safe Practice for Hospital Operating Rooms. 1956. 48 pp. 25¢.

A specific explanation of operating room hazards, with recommendations for planned safety measures from initial construction to location of equipment, and administrative procedures for safe operation. Published by the National Fire Protection Association.

Standards for Nonflammable Medical Gas Systems. 1956. 16 pp. 35¢.

A specific explanation of how medical gas piping systems should be constructed and what safety measures are essential. Published by the National Fire Protection Association.

PROFESSIONAL SERVICE

ACCREDITATION

***On Guard for You.** 1954. 12 pp. 1 to 499 copies, $8.00 per 100; 500 to 999 copies, $6.80 per 100; 1,000 or more, $6.00 per 100.

Booklet explaining what accreditation is and what it means to the patient.

DIETARY SERVICE

Food Cost Accounting. 1948. 25 pp. $1.00.

Describes in detail a system of food cost accounting, close control of day-to-day food costs, a food stock index list, and samples of the necessary forms.

Food Purchasing Guide. 1953. 44 pp. $1.75.

Detailed guide for buying food. Includes description of the unit of purchase, weight, size of serving portion, the number of servings to be expected from purchase units, portion costs, and quantity buying.

Hospital Food Service Manual. 1954. 306 pp. $6.00.

Comprehensive food service guide adaptable to hospitals of all sizes. Includes details of menu planning, preparation of food orders, purchasing, storage and service, care of equipment, sanitation, personnel and accounting.

How About Your Food? 1954. 15 pp. 10¢ each; 100 copies, $9.00; 250 copies, $21.25; 500 copies, $37.80.

Food questionnaire designed to be filled out by patients. Serves as a guide toward improvement of food service.

Manual of Specifications for Canned Fruit and Vegetables. 1947. 140 pp. $2.50.

A purchasing guide giving specific standards for types, grades and quantities of foods, plus the number of servings to be expected from each unit. Includes buying charts, number of servings per unit and cost charts.

Master Menu Diet Manual. 1951. 45 pp. $1.50.

Describes 23 diets in detail, including a basic food pattern for each.

Readings in Hospital Dietary Administration. 1952. 427 pp. $3.00.

A collection of articles from 1935 to 1951 on hospital dietary service, covering such subjects as organization, planning and equipment, kitchens, personnel, food service and diets, purchasing, sanitation and accounting.

HOSPITAL ORGANIZATION AND BYLAWS

Model Constitution and Bylaws for a Voluntary Hospital. 1944. Revised 1957. 22 pp. 75¢.

Designed to assist both new hospitals and established hospitals in achieving an organization in conformity with both legal rulings and good practice.

Medical Staff Membership in Voluntary Non-Profit Hospitals: Right or Privilege? 1956. 14 pp. 15¢. Reprinted from HOSPITALS, J.A.H.A.

A discussion of the legal aspects of medical staff membership by Emanuel Hayt, legal counsel to the New York State Hospital Association.

Organization of the Medical Staff of the Hospital. 1945. 47 pp. 25¢.

Discussion of the organization of the medical staff, covering such areas as qualifications, appointments and promotions.

Principles for Establishing Medical Staff Bylaws, Rules and Regulations. 1955. 15 pp. 25¢.

Suggested principles, model bylaws and

rules and regulations for medical staff organization. To be used in conjunction with the *Model Constitution and Bylaws for a Voluntary Hospital*. Published by the Joint Commission on Accreditation of Hospitals.

The Board's Control of Hospital Medical Care. Currently in revision.
Discusses the responsibility of the board of trustees for appointment of the medical staff and for appraisal of the quality of medical care within the hospital.

MEDICAL RECORDS

Copy of Resolution on Preservation of Medical Records. 1947. Single sheet. Free.
Resolution of the House of Delegates of the American Hospital Association regarding the length of time medical records should be kept.

Essential Medical Record Forms. 1952. 16 pp. Free up to 10 copies.
Presents a collection of sample medical record forms as a guide to standardization and to the preservation of essential records.

MEDICAL STAFF

A New Statement on Hospital-Physician Relationships. 1953. 4 pp. Free up to 10 copies. Reprinted from HOSPITALS, J.A.H.A.
Principles of relationships between hospitals and physicians, as adopted by the House of Delegates of the American Hospital Association and the House of Delegates of the American Medical Association.

NEWBORN CARE

Principles and Recommended Procedure as a Guide for the Identification of the Newborn in Hospitals. 1949. Revised 1957. 4 pp. Free up to 10 copies.
Folder giving the statement of the Board of Trustees of the American Hospital Association on standards of infant identification.

Procedures and Layout for the Infant Formula Room. 1949. 52 pp. $1.50.
A guide to hospitals in planning, installing, equipping and administering a formula room in a hospital.

Standards and Recommendations for Hospital Care of Newborn Infants. 1954 with revisions as of 1957. 144 pp. $1.25. Publication of the American Academy of Pediatrics.
Describes in detail the care of both full-term and premature infants, and includes an outline for self-rating of newborn nurseries.

NURSING SERVICE

Handbook for Nursing Aides in Hospitals. 1954. 196 pp. $2.00 each; 10 to 49 copies, $1.80 each; 50 to 99 copies, $1.70 each; 100 to 499 copies, $1.60 each; 500 or more copies, $1.50 each.
Illustrated loose-leaf manual describing details for a training program for nursing aides.

Nursing Aide Instructor's Guide. 1953. 24 pp. 25¢. One copy sent without charge with orders of 10 or more copies of *Handbook for Nursing Aides in Hospitals*. Designed to be used with the Handbook.

Hospital Nursing Service Manual. 1950. 99 pp. $1.50. Prepared by a committee of the American Hospital Association and the National League for Nursing Education.
Gives basic principles of the administration of nursing departments, including organization, personnel, budget and cost accounting, facilities and equipment. Not available from the American Hospital Association. Order from the National League for Nursing, Inc., 2 Park Avenue, New York 16, N. Y.

The Training of Auxiliary Workers for Nursing Service. 1952. 15 pp. 25¢.
Outlines a training program designed to utilize auxiliary workers in nursing service.

SPECIAL DEPARTMENTS

Physical Therapy, Essentials of a Hospital Department. 1949. 36 pp. $1.50. New edition currently in preparation.
Gives specific details for a physical therapy department, including equipment, personnel, administration and finance.

Medical Social Service—Necessity or Luxury? 1956. 3 pp. 10¢.
Reprint from HOSPITALS, J.A.H.A. Discusses the need for medical social service, giving specific case histories.

SURGICAL SERVICE

Post-Anesthesia—Post-Surgery Recovery Room Services. 1952. 13 pp. 25¢. Reprinted from HOSPITALS, J.A.H.A.
Discusses recovery room services from the standpoint of advantages, planning, management, staffing, and physical facilities.

Surgical Technical Aide Instructor's Manual. 1954. 96 pp. $2.00.
A guide designed for the use of nurses in developing training programs for surgical technical aides. Gives a specific breakdown for such a training course.

The Operating Room Supervisor at Work. 1955. 112 pp. $1.50.
Detailed analysis of the functions of the operating room supervisor, including relationships of the operating room personnel to other departments, administrative policy, inventories, records and reports, and responsibilities. Published by the National League for Nursing and co-sponsored by the American Hospital Association. Not available from the American Hospital Association. Order from the National League for Nursing, Inc., 2 Park Avenue, New York 16, N. Y.

Transcript, Institute on Operating Room Administration. 1952. 184 pp. $3.00.
The papers included deal with such subjects as the role of the operating room supervisor from the viewpoint of the nurse, the administrator and the surgeon; sterilization methods, program planning, job analysis, safety, equipment, work simplification and interpersonal relations. A transcript of an institute.

VETERANS RELATIONS

Hospital and Medical Care of Veterans. 1957. 6 pp. Free up to 10 copies.
Gives the history and background of federal aid to veterans through the Veterans Administration hospitals, and includes the 1956 report and recommendations of the American Hospital Association Committee on Veterans Relations concerning the future of Veterans Administration hospitals.

FILMS

Films listed below may be rented and/or purchased from the American Hospital Association. A more extensive catalogue listing films on hospital and health subjects available from other sources will shortly be published by the Association.

AUXILIARIES AND VOLUNTEER SERVICE

In-Service—(35 mm, filmstrip, or 2" x 2" slides, color, accompanied by script). Produced by the American Hospital Association, 1956. Rental: American Hospital Association, $2 for three days, $1 for each additional day.
The filmstrip and/or slides outline the principles of a good volunteer service program and show the many types of volunteer services in the hospital. This is a training aid for use in establishing a new volunteer service program, and for improving and evaluating established auxiliary programs.

The Story of Dorothy Sprague—(16 mm, color, sound, 29 min.). Produced in 1953 by the Alfred P. Sloan Foundation, Inc. Rental: American Hospital Association, $4 for three days. Cleared for television.
This film tells the story of a middle-aged woman and her teen-age daughter who becomes interested in volunteer work in a hospital. While the emphasis is on volunteer services performed by members of the hospital auxiliary, the importance of all volunteer projects and the personal satisfaction volunteers enjoy are stressed.
The Women's Board of Abington Memorial Hospital, Abington, Pennsylvania, cooperated in the production of this film.

CIVIL DEFENSE

Improvised Hospital—(16 mm, color, sound, 20 min.). Produced in 1954 by the Federal Civil Defense Administration, Battle Creek, Mich., from which it is available on free loan. Rental: American Hospital Association. $4 for three days. Purchase: Byron Motion Picture Laboratory, Inc., 1226 Wisconsin Ave., N.W., Washington, D.C., $37.34.
The locale of the picture is "Hometown USA." The film begins with a review of the hospital bed situation after an all-out attack across the nation. The need for

additional hospital beds is then visualized. The answer to the problem is the improvised hospital, whose establishment and operation are outlined; depicted are the operating room, reception of injured, sterilizing facilities, central supply, radiology, pharmacy and laboratory.

Recommended for lay or professional audiences to advise them of the content and purpose of the improvised hospital.

COMMUNITY RELATIONS

Ambulance Doctor—(16 mm, black and white, sound, 18 min.). Produced by RKO Radio Pictures, 1951. Rental: American Hospital Association, $4 for three days. Three-year lease: American Hospital Association, $65.

This documentary film portrays the experiences of a doctor as he rides the ambulance through the city's streets in answer to emergency calls. Good for personnel as well as community groups, since it explains the vital role of hospitals in the community. "Ambulance Doctor" was filmed at Roosevelt Hospital in New York City, and can be used most effectively by the larger hospital.

House of Mercy—(16 mm, black and white, sound, 17 min.). Produced by RKO-Pathe, 1270 Avenue of the Americas, New York 20, N. Y., 1950. Rental: American Hospital Association, $4 for three days.

This film shows the valuable community role of the hospital and gives an extremely fine presentation of hospital life. This is one of the "This Is America," series. Recommended for employee training, public education, fund raising, auxiliary meetings. An excellent public relations tool.

Why Wait for a Million—(16 mm, color, sound, 20 min.). Produced by the Alfred P. Sloan Foundation, Inc., 1952. Rental: American Hospital Association, $4 for three days. Cleared for television.

The story of Thayer Hospital in Waterville, Maine, is told effectively here. Detailed hospital operation is not illustrated; a major emphasis is on the work of Dr. Fredrick Hill. The film can be shown to community groups to inspire them to similar action in obtaining modern hospital facilities. The title is self explanatory —a million dollars is not necessary to provide modern hospital service.

You're the Doctor—(16 mm or 35 mm, black and white, sound, 18 min.). Produced by Audio Productions, Inc., New York, N. Y. through a grant by Will, Folsom, and Smith, 1946. Rental: American Hospital Association, $4 for three days. Cleared for television.

Stresses the important role played by the hospital in community life and emphasizes the various professional services available to patients in the hospital.

Recommended for use in fund-raising campaigns and to help interpret the hospital to the community. Could be shown to any community group, such as service clubs, church organizations, schools, and also women's auxiliaries.

CONDUCTING MEETINGS

How Not to Conduct a Meeting—(16 mm, black and white, sound, 10 min.). 1953. Free loan to borrowers who pay transportation costs to and from Department of Public Relations—Film Section, General Motors Corporation, General Motors Bldg., Detroit 2, Mich. Rental: American Hospital Association, $4 for three days. Purchase: General Motors Corp.

Lemuel Q. Stoopnagel, the word-twisting and thought-twisting comedian of stage, screen, and radio, burlesques the common errors and omissions so frequently encountered in poorly-planned meetings.

This picture is a comedy treatment of certain types of informal luncheon gatherings.

Typical faults included are: poor acoustics, poor ventilation, interruptions, and inadequate planning.

Especially good for local, state, and individual hospital meetings.

DIETETICS AND FOOD SERVICE

Feeding the Patient—(16 mm, black and white, sound, 15 min.). 1944. Rental: American Hospital Association, $4 for three days. Purchase: United World Films, Inc., 1445 Park Ave., New York 29, N. Y. $33.12.

Explains the factors that affect appetite and digestion; preparation of the environment and the patient for the meal; proper balance of food and arrangement of the tray; individualized feeding care; and the factors to be considered in after-care of the patient. Shows feeding of both recumbent and ambulatory patient. For inservice training of dietetics aides.

Hospital Food Service Personnel Training—(16 mm, sound. Parts 1-3, black and white, approx. 15 min. each; Part 4, color, approx. 40 min.). Produced by the U. S. Army, 1949 and 1950. Free loan from nearest Army Headquarters film library. Rental: American Hospital Association, $10 for three days for complete set of four films; individual titles not available singly. Purchase: United World Films, 1445 Park Ave., New York 29, N. Y.: Part 1, $22.83; Part 2, $17.57; Part 3, $15.86; Part 4, $68.11.

This series consists of four parts; introduction, the individual, equipment, and serving food. All are excellent training films for food handlers. With interesting narration and good photography, ideas of sanitation are presented. Recommended for inclusion in orientation and training program of every kitchen employee.

HOSPITAL AND HEALTH CAREERS

Deed to Happiness—(16 mm, black and white, sound, 15 min.). Produced by the Cincinnati Sanitarium, 1949. Rental: American Hospital Association, $4 for three days. Purchase: E. Elliott Otte, the Cincinnati Sanitarium, College Hill, Cincinnati, Ohio, $97.50.

A nurse recruitment film produced by amateur actors with professional assistance and direction. Describes the experience of a student nurse, starting when she decides to go into training. The educational aspects of the training period are emphasized. Recommended for Junior High School and High School students.

Girls in White—(16 mm, black and white, sound, 25 min.). Produced by RKO-Pathe, 1270 Avenue of the Americas, New York 20, N. Y., 1949. Rental: American Hospital Association, $4 for three days. Three-year lease: American Hospital Association, $65.

This picture portrays the life of the student nurse and opportunities open to the graduate nurse.

Recommended for showing to Junior High School and High School students, and to women's auxiliaries.

Health Careers—(16 mm, sound, black and white, 14 min.). Produced by Wilding Productions, Inc., for the National Health Council, 1956. Rental: American Hospital Association, $4 for three days.

This film presents a discussion of careers in the health field through the medium of vocational suggestions to high school stu-

Mercury Dietary System

Make Most Effective Use of ALL Personnel

It's here—the simple, natural, efficient system that assures the specified menu for every patient . . . and can be operated by any employee of the hospital. The Mercury Dietary System releases nursing personnel from time spent as waitresses and kitchen help . . . enables them to devote their full time to nursing duties. What's more, it's so efficient and time-saving that many personnel heretofore necessary can be re-assigned—resulting in significant payroll economies.

Tremendous Saving in Food Requirements

The Mercury Dietary System serves food hot and palatable . . . and really FAST! Patients are elated with the service and the condition of the food. Actual reports from hospitals indicate that patient satisfaction with food served the Mercury way results in less waste and consequent economy in food purchases.

Mercury HEATED Tray Cart

Now! Available in 2 sizes and optional refrigeration

Gives dietician complete control over makeup of patient trays . . . enables LOWEST-PAY help to deliver food hot in the fastest time . . . and to do it ACCURATELY. Two models—"Junior 22" (illustrated) serves 22 patients; "Senior 30" serves 30. Hot food compartment is electrically heated; refrigeration unit for other compartments optional. Light in weight—easy to pull on large rubber tire wheels into any standard elevator . . . through any standard door.

FREE DEMONSTRATION

It's easy to arrange a free demonstration in your own hospital . . . and there's no obligation to buy. WRITE TODAY FOR LITERATURE AND COMPLETE INFORMATION.

STEELE-HARRISON MFG. CO.

914 W. Main St., Peoria, Illinois

dents. Recommended for high school students and community groups.

Keepers of the Lamp—(16 mm, black and white, sound, 20 min.). Produced by the Committee on Careers in Nursing and the Theater Arts Institute, 1952. Rental: American Hospital Association, $4 for three days. Purchase: Motion Picture Associates, 86 George St., Mt. Ephraim, N. J., $45. Cleared for television.

This shows the experiences of four student nurses and the employment offered them upon completion of their training. Both the student nurses' work and recreation are portrayed. Recommended for junior and senior high school girls.

My Cap Is My Crown—(16 mm, color, sound, 27 min.). Produced in 1953 by the Mount Sinai Hospital Women's Auxiliary, Cleveland, Ohio. Rental: American Hospital Association. $4 for three days. Purchase: Mount Sinai Hospital Women's Auxiliary, $150. Cleared for television.

This film relates a high school girl's hospitalization experience and its impact on her future. While a patient, she observes the student nurses and their activities both in and out of the hospital. This film was financed by proceeds from the Mount Sinai Hospital Auxiliary's gift shop and features some of its activities. The sincere presentation, excellent photography, and fine script make this an outstanding nurse recruitment film. It depicts an unusually good nursing school program with university affiliation; with a few introductory remarks it could be adapted for use in any nursing school situation.

This Way to Nursing—(16 mm, black and white, sound, 20 min.). Produced by Emerson Yorke Studio, New York, N. Y., 1950. Rental: American Hospital Association, $4 for three days. Purchase: Young America Films, 18 East 41st St., New York 17, N. Y., $75.

Narrated by Milton Cross with a special music score by Solita Palmer. Factual presentation showing the activities of a student nurse in an accredited school of nursing. Scripted and produced under the supervision of experts in the nursing, health and medical fields, it is officially endorsed and approved by the U.S. Public Health Service, the American Hospital Association's Student Nurse Recruitment Committee, the National Committee on Careers in Nursing, and the American College of Surgeons.

HOSPITAL AND HEALTH FACILITIES AND SERVICES

Routine Admission Chest X-ray in General Hospitals—(16 mm, black and white, sound, 21 min.). Produced by the Public Health Service, 1946. On loan from local or state health departments. Rental: American Hospital Association, $4 for three days.

Shows how photofluorographic equipment can be installed in the admissions offices of general hospitals so that all incoming patients can be given chest x-rays as part of regular admission procedure. Operation of the equipment and methods of keeping patient's records are shown. This film stresses the significant percentage of otherwise undetected cases of tuberculosis found by routine chest x-rays.

Rx—(16 mm, black and white, sound, 20 min.). Produced by Louis de Rochemont for E. R. Squibb & Sons, 1949. Rental: American Hospital Association, $4 for three days.

This documentary picture, designed for lay audiences of all age levels, describes briefly how drugs are made and points to greater medical achievements in the future through research.

It could be shown to department heads to improve interdepartmental relations and to student and graduate nurses.

The Winged Bequest—(16 mm, color, sound, 22 min.). Produced in 1955 by Edward Feil Productions and sponsored by the Cleveland Public Library and the Cleveland Foundation. Free loan from American Library Association, 50 E. Huron St., Chicago, Ill., and/or International Society for the Welfare of Cripples, 701 First Ave., New York 17, N. Y. Rental from American Hospital Association; $4 for three days. Purchase from the Cleveland Public Library, 325 Superior Ave., Cleveland, Ohio, $125.

This film shows Cleveland's comprehensive program for bringing library service to home-bound and hospitalized patients and to disabled people who cannnot come to the library. Service in many different situations is illustrated by scenes from chronic, tuberculosis and mental hospitals, homes for the aged and individual homes. Shows the use of memorial gifts in extending the tax-supported services of the public library and the library's role in rehabilitation. The influence of books on shut-ins is forcefully presented. Recommended for the general public, for social and rehabilitation workers, auxiliaries and volunteers and hospital and library governing boards.

You Can Be Safe from X-Rays—(16 mm, black and white, sound, 10 min.). Prepared by the Division of Chronic Disease and Tuberculosis, Public Health Service, 1952. Loan: Medical Directors of Public Health Service Offices; Department of Health, Education and Welfare, Washington, D.C., or Communicable Disease Center, Public Health Service, P.O. Box 185, Chamblee, Ga. Rental: American Hospital Association, $4 for three days. Purchase: United World Films, Inc., 1445 Park Ave., New York 29, N. Y., $19.11.

This training aid for x-ray technicians and other personnel stresses the hazards of secondary radiation in x-ray installations and outlines protective measures against overexposure to radiation. In cartoon style, it depicts an x-ray technician who takes excellent care of his equipment but does not use the same care in protecting himself.

For training personnel concerned with operating x-ray equipment.

MATERNAL, INFANT AND CHILD CARE

Concept of Maternal and Neonatal Care (Rooming-In)—(16 mm, black and white, sound, 26 min.). Produced by George Washington University School of Medicine, Washington, D.C., and the Medical Film Institute of the Association of American Medical Colleges, 1951. Rental: American Hospital Association, $4 for three days. Purchase: Medical Audio-Visual Institute, 185 N. Wabash Ave., Chicago, Ill., $50.

Designed for professional audiences, this film shows how to approach and care for the pregnant woman and newborn infant. Emphasis is placed upon a balance of scientific facilities, educational experiences, and home-like accommodations of rooming-in. The discussion of rearrangement of conventionally designed hospitals is of interest to both administrators and architects. A fact sheet, an outline, and a bibliography are also available for use in showing this film.

First as a Child—(16 mm, black and white, sound, 20 min.). Produced by the Virginia State Health Department in cooperation with the Children's Bureau, Federal Security Agency, 1955. Rental: American Hospital Association, $4 for three days.

This film affords a quick glance at some of the children who receive aid at one of Virginia's clinics for crippled children. The story of one child is then depicted. Core idea is treating the whole child, not just the disability. Shows the importance of team work between the doctor, social service worker and public health nurse. Directed to parents, women's groups and community organizations.

Scare Story—A True Story About Hospitals—(16 mm, color, sound, Scare Story, 3 min.; A True Story, 13 min.). Produced in 1955 by Grant D. Harris for the Children's Hospital, Los Angeles, Calif. Rental: From American Hospital Association, $4 for three days. Purchase: Children's Hospital, 4614 Sunset Blvd., Los Angeles 27, Calif., $90. Cleared for television.

Scare Story, the prologue, is designed to be shown to hospital personnel only. It dramatizes the fears a child might have if not properly prepared for hospital admission.

A True Story About Hospitals follows a little boy and a little girl from the time they first meet the admitting clerk through their entire hospitalization. Through the child's eyes, the audience meets the x-ray camera, intravenous feeding, an oxygen tent, blood tests, anesthesia and the operating room. The children learn that all kinds and ages of children go to a hospital to get well. By the time they are ready to go home, they have witnessed almost all the ordinary hospital procedures. These films fill a real need in educating parents, children and hospital personnel. A True Story About Hospitals should be shown to grade-

school children as part of their educational experience. PTA groups might well promote this film.

Starting Line—(16 mm, black and white, sound, 20 min.). Produced by the Virginia State Health Department in cooperation with the Children's Bureau, Federal Security Agency, 1947. Rental: American Hospital Association, $4 for three days.

This film shows how the Virginia State Health Department is providing specialized care for some of its premature babies from birth until they can be cared for by their mothers.

Factual; very instructive. Directed to parents, women's groups, and citizen organizations.

We See Them Through—(16 mm, black and white, sound, 20 min.). Produced by the Virginia State Department of Health in cooperation with the Children's Bureau, Federal Security Agency, 1948. Rental: American Hospital Association, $4 for three days.

This film shows how the health department of the State of Rhode Island carries out its program for treatment of children with rheumatic fever, not only through the acute stage but also through the long convalescence. Directed to parents, women's groups, lay citizen organizations.

NURSING PROCEDURES

Chain of Asepsis—(16 mm, black and white, sound, 29 min.). Produced by the U.S. Navy, 1944. Rental: American Hospital Association, $4 for three days. Purchase: United World Films, Inc., 1445 Park Ave., New York 29, N. Y., $51.38.

Emphasizes importance of sterile linens, preoperative preparation of the patient, scrub technique, preparation of the operating room, and maintenance of chain of asepsis during an operation.

Excellent, not only for training operating room personnel, but also for laundry and housekeeping personnel and auxiliary groups.

Handling and Care of the Patient (in Anesthesia)—(16 mm, black and white, sound, 26 min.). Produced by the British Ministry of Information, 1944. Loan from International Film Bureau, Inc., 47 E. Jackson Blvd., Chicago 4, Ill. Rental: American Hospital Association, $4 for three days.

One of a series on the "Techniques of Anesthesia," this film shows the right and wrong ways of preparing the patient for surgery. Mental aspects, as well as the physical preparation, are emphasized. Film includes both preoperative and postoperative care pointers.

Excellent for training surgical nurses and operating room teams.

Hypodermic Syringes and Needles, Their Care and Function—(16 mm, color, sound, Part 1—20 min., Part 2—25 min.). Free loan: Becton, Dickinson & Company, Rutherford, N. J., 1949. Rental: American Hospital Association, $4 for three days.

Brief history of development of syringes, basic standards, demonstration of types, cleansing and sterilization, preparation, inspection; intradermal, subcutaneous, intramuscular, venipuncture, and intravenous injections.

Part 1 especially helpful for purchasing agents. Shows factors to be considered in making a durable syringe and needle. Part 2, for nursing staff, outlines explicit instructions for cleansing and sterilizing. Helpful in training of nursing aides.

Isolation Technique—(16 mm, black and white, sound, 18 min.). Produced by the U.S. Navy, 1944. Rental: American Hospital Association, $4 for three days.

Describes isolation technique that must be employed in communicable disease cases. Includes terminal disinfection.

Excellent training film not only for nursing staff but also for laundry and housekeeping employees.

Pre-operative Care—(16 mm, black and white, sound, 12 min.). 1944. Rental: American Hospital Association, $4 for three days. Purchase: United World Films, Inc., 1445 Park Ave., New York 29, N. Y., $21.51.

This film shows how the hospital corpsman prepares the patient both mentally and physically for surgery. Emphasizes methods of allaying patient's apprehension.

Excellent for nursing staff and also nurses aides who may assist in certain of the procedures.

PERSONNEL: TRAINING AND SUPERVISION

All I Need Is a Conference—(16 mm, black and white, sound, 28 min.). Produced by Henry Strauss and Co., Inc., 1954. Rental: American Hospital Association, $4 for three days. Purchase: Henry Strauss and Co., Inc., 31 W. 53rd St., New York 19, N. Y., $165; $2 for trainers manual.

This film is intended primarily as a means of training conference leaders but is also a valuable tool for employee-relations training. Though based on industry, this clever presentation can easily be adapted to a hospital employee audience.

As Others See Us—(16 mm, black and white, sound, 15 min.). Produced by Stanley Neal Productions, New York, N. Y., through a grant from Becton, Dickinson Foundation for the Extension of Scientific Knowledge, 1945. Rental: American Hospital Association, $4 for two weeks.

The vital role played by all hospital personnel in influencing patient opinion, as well as the attitude of the community as a whole toward the hospital, is portrayed in this picture by contrasting the hospital experience of two women.

This film is old, styles of dress are outmoded, and in some prints the sound is poorly synchronized. Despite these disadvantages this film still enjoys wide popularity as an effective public relations tool.

Every Employee a Salesman—(35 mm sound slide, 5-color, sound, 15 min.). Produced by Frederick House for the American Hotel Association, 1948. Rental: American Hospital Association, $4 for three days. Purchase: American Hotel Association, 221 W. 57th St., New York 19, N. Y. These strips require a 35 mm projector with a 16-inch turntable for records.

Impresses hotel employees in all departments with the value of giving proper attention and service to guests as a sales device. Excellent for employee orientation and training.

Hospital Applies Better Methods—(16 mm, color, sound, 25 min.). Produced by Cleveland Clinic Hospital, Cleveland, Ohio, 1950. Rental: American Hospital Association, $4 for three days.

Projects undertaken by the methods department of the Cleveland Clinic Hospital to streamline operations and eliminate unnecessary paper work are presented in this film. Most of the examples are from the dietary and laundry departments. This film can be shown to all hospital employees to make them aware of hospital costs and to stimulate suggestions for economies.

Maintenance of Office Machines—(16 mm, black and white, sound, 37 min.). Produced by the U.S. Navy, 1943. Rental: American Hospital Association, $4 for three days.

Care and maintenance of typewriters, transcribing machines, dictating machines, adding machines, and calculators. Shows all different makes of machines and how to fight dust, dirt, and carelessness.

Excellent training film for office employees.

Supervisory Training Service—(35 mm, black and white, 6 short filmstrips with accompanying records). Produced by Rutgers University, 1942. Rental: American Hospital Association, $4 for three days.

Six case histories in personnel administration are presented. Supervisory problems are related factually and all factors of the problems outlined. The personnel problems shown involve a storekeeper, a private duty nurse, a head nurse, and nursing-maintenance department interrelationships. These strips are not problem-solvers but rather introductions for group discussion. The ability of the discussion leader would determine the effectiveness of the films. Recommended for inservice supervisory training programs.

The Inner Man Steps Out—(16 mm, black and white, sound, 28 min.). Produced by Pathescope Productions, 1951. Rental: American Hospital Association, $4 for three days. Purchase: Henry Strauss and Co., Inc., 31 W. 53rd St., New York 19, N. Y., $79.

The problems of supervision are presented in this film. It tells in dramatic fashion and with forceful dialogue the story of a plant supervisor who goes to a doctor for help. His physical troubles, however, are caused by the tensions and unpleasant experience he encounters as a supervisor. The principles of good supervision are enumerated and film ends at a point that leads naturally into a discussion period with audience participation.

Good for training all supervisors of personnel.

The Patients Is a Person—(16 mm, color, sound, 20 min.). Produced in 1956 by the Smart Family Foundation in cooperation with the American Medical Association and the American Hospital Association. Rental: American Hospital Association, $4 for three days. Purchase: Coronet Instructional Films, 65 E. South Water St., Chicago, Ill., $50 color, $10 black and white.

The attitudes which many patients exhibit on entering the hospital are the focal point of this film. Techniques of nonmedical care which may aid in dispelling anxieties and thus contribute to the patient's rapid recovery are suggested. The ways in which physicians, the admitting clerk, nurses, administrative help, housekeepers and volunteers can maintain the patient's confidence are stressed.

The Time Is Now—(16 mm, black and white, sound, 31 min.). Produced in 1955 by Henry Strauss and Co., Inc., for the Mutual Benefit Life Insurance Company of Newark, 300 Broadway, Newark, N. J. Available on free loan or purchase from Mutual Benefit Life. Purchase: $98; $65 filmstrips, $15 for training manual. Rental: American Hospital Association, $4 for three days.

Excellent film for those who are department heads responsible for training supervisors. The film presents the basic philosophy that true security results from developing inner qualities, and that developing such qualities will help the leader meet his responsibilities to himself, his company, and his men.

REHABILITATION

Rodney—(16 mm, color, sound 10 min.). Produced by Film Graphics, Inc., 1951. Rental: American Hospital Association, $4 for three days. Purchase: National Tuberculosis Association, 1790 Broadway, New York 19, N. Y., $55.

This animated cartoon is cleverly prefaced by roadside signs listing producer, director, etc., and leading to the center of the town where Rodney lives. Rodney is a young man whose life is disrupted by the discovery that he has tuberculosis. Sanitarium life and care are well portrayed; the main message of the film is that tuberculosis is curable.

Can be used to arouse community interest in mobile chest x-ray units and regular check-ups.

Three to Make Ready—(16 mm, black and white or color, sound, 43 min.). Produced in 1953 by Campus Films for the Institute for the Crippled and Disabled. Available from the Institute, 400 First Ave., New York 10, N. Y. Rental: black and white, $6 a week; color, $10 a week. Purchase: black and white, $125; color $295. Rental: American Hospital Association, $4 for three days. Cleared for television.

This is the story of three disabled persons—Joe, paralyzed by tuberculosis of the spine; Barbara, a victim of cerebral palsy, and Mike, struck down by an industrial accident. Dramatically portrayed are the courage of the disabled and the careful, painstaking, inspired work of the rehabilitation team.

Recommended for any lay and professional adult group. Would be especially effective as a fund-raising tool in hospitals trying to establish or expand their rehabilitation units.

SAFETY AND FIRE PREVENTION

Accidents Don't Happen: Handling—(16 mm, black and white, sound, 10 min.). Produced in 1946 by National Film Board of Canada, 400 W. Madison St., Chicago, Ill. Rental: American Hospital Association, $4 for three days. National Film Board of Canada, $1.50 a day. Purchase: National Film Board of Canada, $21.

In almost any job, occasions arise for lifting or moving large objects. This film shows the right and wrong ways of handling heavy materials. It would be useful in hospital safety programs.

Diagnosis Danger—(16 mm, black and white, sound, 27 min.). Produced by Chicago Film Studios, 1947. Loan: St. Paul Fire and Marine Insurance Co., 111 W. Fifth St., St. Paul 2, Minn. Rental: American Hospital Association, $4 for three days.

Designed to eliminate accidents within the hospital. Shows the dangers of slipping on wax floors, using worn-out electric cords, serving food on chipped dishes, hot water bottle burns, dispensing and administration of incorrect drugs, and other hazards that may result in harm to patients, visitors and personnel.

For training employees in every department to watch for accident hazards and report them. Emphasizes waste of time and equipment caused by needless accidents.

Fire—and Your Hospital—(16 mm, black and white, sound, 25 min.). Produced in 1952 by Audio Productions, Inc., Film Center Building, 630 Ninth Ave., New York 36, N. Y. Rental: American Hospital Association, $4 for three days. Purchase: Audio Productions, Inc., $65.

This training film shows how a fire safety plan should be organized, how each department of a hospital should behave during a fire alarm, how patients can be evacuated and fire spread reduced. Its chief purpose is to train all hospital employees; it can also be used to acquaint civic groups with the many fire safety problems in a hospital. Filmed in an actual hospital, this movie is timely, and its message is urgent. Strongly recommended.

We Who Work in Hospitals—(35 mm, filmstrips, black and white, sound, 22 min.). Produced in 1954 by Liberty Mutual Insurance Co., 6th and Chestnut Sts., Philadelphia, Pa. Free loan from Liberty Mutual Insurance Company. Rental: American Hospital Association, $4 for three days.

This filmstrip illustrates measures that will prevent accidents in hospitals, defining essential organization and assignment of responsibilities for hospital safety programs, and discussing the most common kinds of accidents, their causes and cures. Emphasis is on faulty work methods and specific safe practices. Several causes of falls are depicted and controls, such as the correct use of stepladders and floor maintenance, are explained.

Recommended for safety training of all hospital employees, and especially for orienting new employees.

Membership Lists

A listing of the institutional and personal members of the American Hospital Association, arranged by type of membership, is presented in the succeeding pages of this section. (For a description of the various membership categories, turn to page 280.)

HOSPITALS

The member hospitals of the Association are included in the *Listing of Hospitals* beginning on page 11. Membership in the Association is indicated by a star preceding the name of the hospital. Both Type I (short-term hospitals) and Type II (long-term hospitals) members are included.

X-RAY INSTALLATION PLANNING

a General Electric service in step with your progress

Insuring x-ray department efficiency

PLANNING a new hospital? Enlarging or modernizing existing facilities? The logical starting point for any construction project involving x-ray facilities is to plan with your General Electric x-ray representative. Preliminary "shirt sleeve" sessions with administrator, architect, radiologist and others involved, first determine your specific needs. The planning can then be expertly handled by our Installation Planning Service.

With your requirements in mind, this full-time staff of specialists considers every possible operating advantage and convenience: How to arrange equipment and make space work more profitably . . . power, wiring and protective requirements . . . plumbing and other arrangements are carefully analyzed. The layout offered the architect is based on your receiving the ultimate in service from your x-ray equipment.

Hospital architects have relied on this General Electric service for years because this vast experience provides hundreds of practical application advantages. Ask your General Electric x-ray representative for complete details while you're still in the planning stage.

In the meantime, you'll want a copy of this fact-packed booklet

With x-ray diagnostic and therapy loads increasing, it will pay you to investigate the many new developments in the General Electric line. This 20-page guide to the completely modern x-ray department contains diagrams showing traffic flow through administrative, diagnostic and therapy areas as well as film processing and special departments. You'll also find informative suggestions on related facilities — even locations of windows. For your copy, see your General Electric x-ray representative. Or write X-Ray Department, General Electric Company, Milwaukee 1, Wis., for Pub. [illegible]-87.

Progress Is Our Most Important Product

KEY TO STATISTICS (cont): Classifications, Definitions

The statistics compiled by the American Hospital Association are based on questionnaires sent to all hospitals accepted for listing in the continental United States and U. S. territories. U. S. government hospitals in foreign countries are included in the *Listing of Hospitals* but not in the statistics.

Data were requested for the year ending September 30, 1956, or for the fiscal year closest to that date.

Selected data for individual hospitals are given in the *Listing of Hospitals*, beginning on page 11.

The statistics on Canadian hospitals presented in Tables 26 and 27 were compiled from the reports of the Canadian Dominion Bureau of Statistics, and include both listed and unlisted hospitals. Data on individual Canadian hospitals presented in the *Listing of Hospitals* were obtained from the annual questionnaires of the Canadian Hospital Association.

CLASSIFICATIONS OF HOSPITALS

NONFEDERAL HOSPITALS

By Type of Service
- Short-term[1] general[2] and special[3]
- Long-term[1] general[2] and special[3]
- Psychiatric
- Tuberculosis

By Ownership (type of organization operating the hospital)
- Nonprofit (church, other)
- Proprietary (individual, partnership, corporation operating for profit)
- Governmental (state, county, city, city-county, hospital district)

FEDERAL HOSPITALS

By Type of Service
- Psychiatric
- Tuberculosis
- General[2] and other special[3]

[1]*Short-term*—average stay 30 days or less; *long-term*—average stay over 30 days.

[2]*General*—includes hospital departments of institutions.

[3]*Other special*—includes the following categories:
- Maternity
- Eye, ear, nose and throat
- Children's
- Orthopedic
- Contagious disease
- Chronic and convalescent
- All other

DEFINITIONS

ADMISSIONS: Number of patients accepted for inpatient service during twelve-month period; excludes births.

ASSETS, TOTAL: Plant assets (including all funds invested in, or available for additions to, land, buildings and equipment, less any plant fund liabilities) and all other assets (including general fund balance, temporary fund balance and endowment fund principal).

AVERAGE DAILY CENSUS: Average number of inpatients receiving care each day during twelve-month period; excludes newborn.

BASSINETS: Bassinet complement.

BEDS: Bed complement; number of beds, cribs and pediatric bassinets normally available for inpatients. Excludes newborn infant bassinets.

EXPENSE, TOTAL: Expenses for twelve-month period, both total and payroll component. Excludes cost of new construction or expansion.

INCOME, TOTAL: Patient income (including payments received from, or on behalf of, individual patients) and all other income (including contributions, investment income and revenues from services not directly related to patient care).

NEWBORN CENSUS: Average number of newborn infants receiving care each day during twelve-month period.

OCCUPANCY: Ratio of average daily census to beds.

PERSONNEL, TOTAL: Includes full-time equivalents of part-time personnel, but excludes interns, residents and students. Full-time equivalents were calculated on the basis of total manhours per workweek.

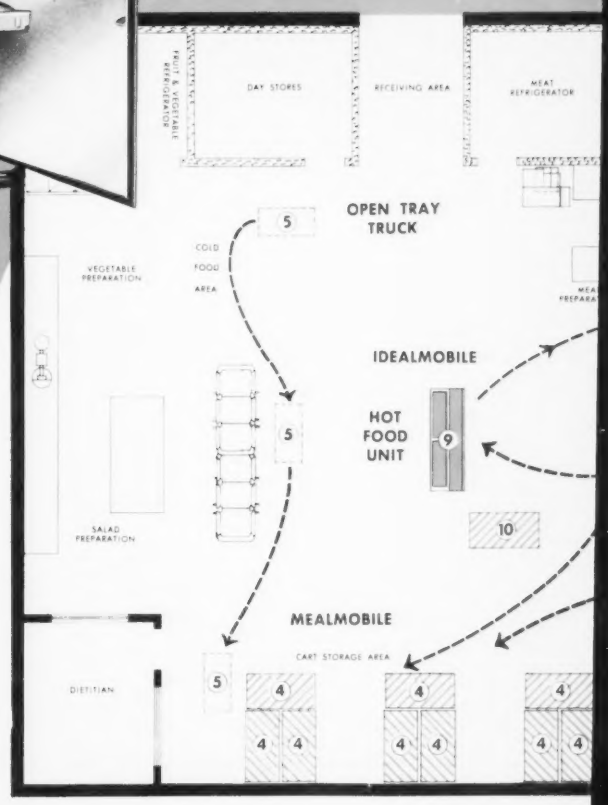
NEW

Ideal

...elimina

IDEAL Mealmobile, Model 9020-BCT, with built-in beverage dispenser and mechanical refrigeration.

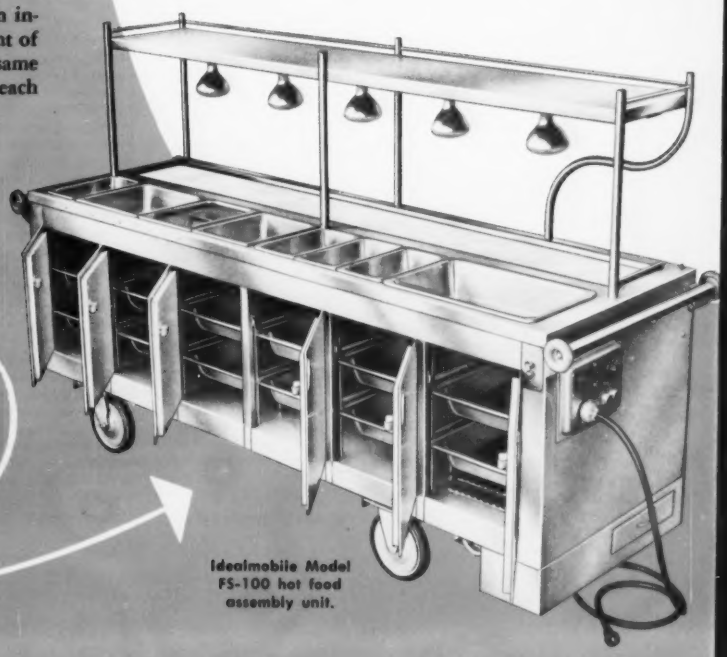


The new IDEAL Mealmobile with mechanical refrigeration and built-in beverage dispenser, together with the new Idealmobile, Model FS-100, hot food assembly unit, now make it possible for you to have a complete food service system that is thorough, fast and efficient.

The Mealmobile with its mechanical refrigeration, can now be used as a cold food storage unit. This permits the loading of salads and other cold items well in advance of food serving time and eliminates peaks and valleys in the work load in the kitchen. The new IDEAL Mealmobile in combination with the new Idealmobile hot food assembly unit, enables you to move foods directly from the hot food preparation area to the most convenient assembly area—thus speeding up food service

The complete IDEAL meal service system introduces a cyclical operation in the movement of food from kitchen to patient . . . done the same way every time. And efficiency increases each time!

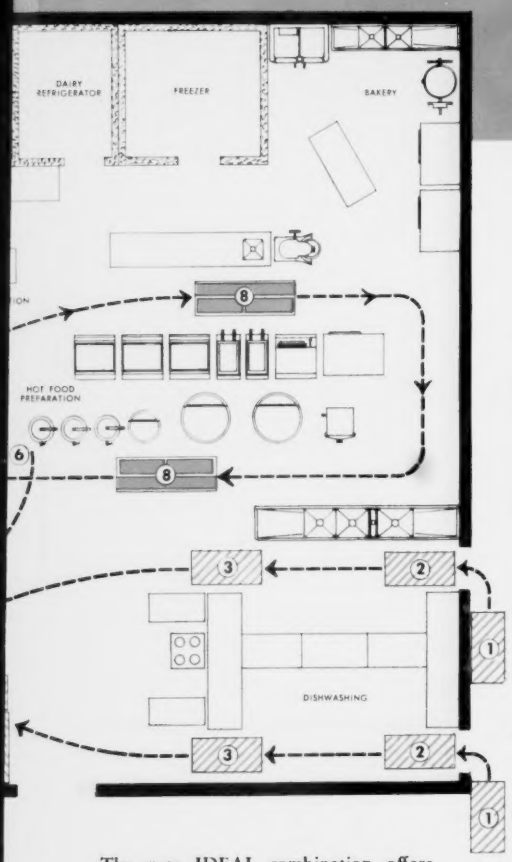
The IDEAL food service system gives you a new ease and efficiency in handling food. Step-by-step operations are illustrated in the kitchen diagram and explained on opposite page.



Idealmobile Model FS-100 hot food assembly unit.

COMBINATION

ates loose ends in CENTRAL FOOD SERVICE



The new IDEAL combination offers efficient centralized food service for all hospitals—regardless of size. The Idealmobile is designed to serve approximately 160 hot meals in one-half hour. For example, where the hospital has 300 patients two Idealmobiles would be used to insure food service to the floor within one-half hour from the time hot food loading is started. Thus, additional units may be added to meet your needs—present and future.

1 Carts return from floors after picking up soiled trays and dishes.

2 Carts go to dishwashing and cart cleaning area where soiled trays and dishes are placed in dishwasher. Carts are cleaned.

3 Carts move to end of dishwasher, are reloaded with trays, silver, coffee saucers, tray doilies if used, glasses and any other items that normally are set up on the cold tray. Cold food menus are placed on trays at this station. Note: Heated mobile lowerators are used to store dishes normally used in hot section of the Mealmobile. Salad dishes move directly to vegetable preparation area.

4 Carts return to storage area where they are plugged in. Mechanical refrigeration starts cooling cold compartments.

5 Salads, condiments, breads, butter, cream, and desserts are loaded on open tray trucks, moved from preparation areas and loaded into Mealmobiles. All "cold side" loading is done in that period of time when most kitchen help are caught up.

6 Hot and cold beverages are loaded at the same time cold section of Mealmobile is loaded, or immediately following.

7 Mealmobiles are left in storage area after cold section and beverage section loading, until hot foods are ready for loading at patient feeding time.

8 Idealmobile hot food assembly unit moves to hot food preparation area and is loaded.

9 Idealmobile hot food assembly unit moves to area most convenient for loading hot foods on Mealmobiles.

10 Hot foods are loaded from hot food assembly unit into Mealmobiles. Mealmobiles are moved to patient serving area.

11 Repeat cycle.

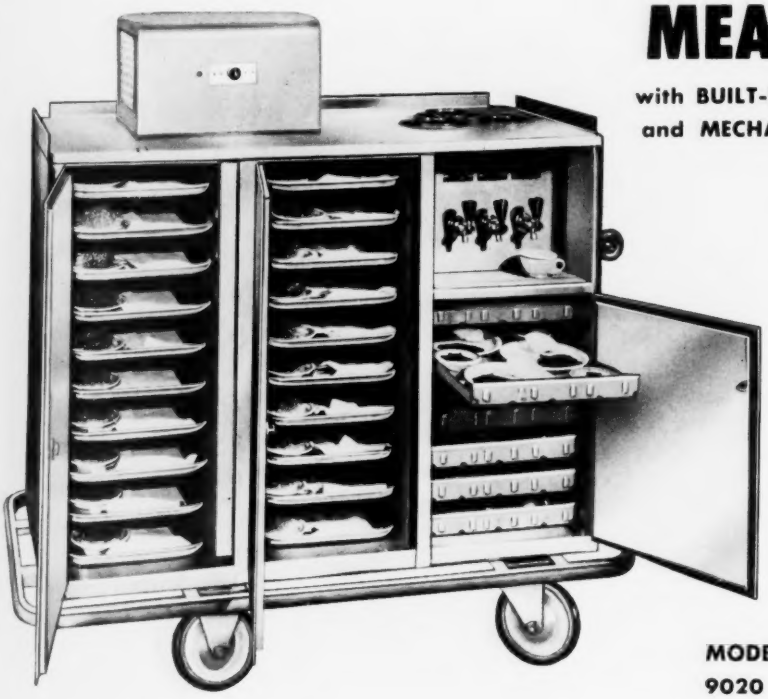
Ideal

MEALMOBILE

with BUILT-IN BEVERAGE DISPENSER and MECHANICAL REFRIGERATION



MODEL 9020 BCT

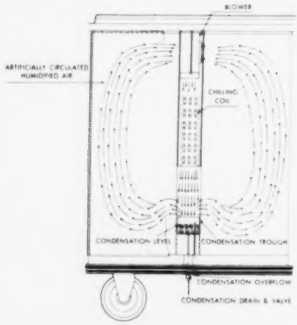
SPECIFICATIONS

MATERIALS: Type 302 stainless steel throughout with exception of tray and drawer guides, compartment liners and bumper frame. Compartment liners and door liners fabricated of special high conductive non-corrosive metal. Bumper frame 1½" extruded aluminum alloy.

TOP DECK: One piece 20 ga. construction. Reinforced to carry heavy loads without damage. 1½" guard rail on three sides is extension of top deck and is crevice free with open corners for ease of cleaning.

BEVERAGE CONTAINERS: Three 5½ quart wells are attached to the top deck by means of a watertight interlocking die seam. Wells are supported by unit channels which by means of unit hooks transfer the weight in wells to the body of the conveyor giving the beverage section bridge-type construction. Snap-lock; chrome plated brass faucets are easily dismantled without use of tools. Wells are provided with standard IDEAL splash-proof plug-type covers, heavily reinforced, insulated with Fiberglas. Shelf under faucets provided with a removable drip trough for ease in cleaning.

BODY: Single piece of smoothly polished 20 ga. stainless steel with rounded 1¼" radius corners. Overlapping doors have ¾" glass fiber insulation and swing on stainless steel piano type hinges which are welded to body and doors. Bottom platform 16 ga. stainless steel, 2" high. Left and center compartments are cold sections, hold ten trays each, maximum tray size in standard carts is 15¼" x 20½", carts for 16½" x 22" trays are available. Tray guides removable, with 4 sections in each cold compartment. Right section is composed of beverage dispenser above and heated compartment below. Lower compartment contains seven drawers approximately 16" x 22". Drawer guides are removable in two sections. Inner liners of all compartments and door fabricated of special high conductive non-corrosive metal. All doors provided with roller latch and semi-recessed handles. Mechanical refrigeration is provided by ¼ horse power hermetically sealed refrigerant compressor equipped with thermal overload cut-off and expansion tank. Fin type cooling coils are located between the two cold sections and covered with removable non-corrosive covers. A 105 cubic ft. per minute squirrel cage blower is mounted above cooling coils for air circulation. Compressor unit housing is fabricated of 20 ga. stainless steel and is removable for access to compressor unit. Cold control switch and fan control switch are mounted on front of unit housing.



CIRCULATION DIAGRAM

Circulation of air over condensate trough provides proper humidification, prevents drying of foods and assures evenly balanced temperature throughout compartment.

TRAY AND DRAWER GUIDES: Heavy aluminum construction. Adjustable tab provides safety stop to prevent accidental dropping of the drawers. Lower leg of channel is 1½" wide web 1 3/16" and upper leg ½" wide. Designed to support trays and drawers without tilting when pulled out.

BUMPERS AND CHASSIS: Bumper fabricated of extruded aluminum alloy welded to aluminum chassis. Non-marking rubber (1" wide x 11/16" thick) fits tightly into clincher type aluminum channel without use of screws or bolts. May be replaced in whole or in part without use of tools. Clearance is engineered to protect cart from all hazards.

CASTERS: 8" rubber tired ball-bearing casters, two rigid and two swivel. Tires replaceable. Pneumatic tires available at slight additional cost.

ELECTRICAL: Heated compartment has 500 watt sheathed element with no exposed wiring. Each beverage well has one 112 watt porcelain element. Conveyor may be wired for 110 volt AC or 220 volt AC to customer specifications. Robertshaw D-10 thermostat automatically maintains temperature chosen on setting. Three Robertshaw B-10 thermostats provide individual temperature control for each beverage dispenser. Pilot light bulbs indicate when compartment is being heated and when desired temperature has been reached. Rubber cord assembly FC 826, 3 wire, 14 ga. type with FC 827 twistlock connector and FC 828 polarized cap.

INSULATION: The cart is insulated on all six sides with glass fiber insulation minimum thickness of 1". Partition between hot and cold sections has 1½" of glass fiber with a non-metallic thermal breaker. Beverage section packed with glass fiber to 4 lb. density without voids.

DIMENSIONS:

Body Length	57"	Beverage Well Cap	5½ qt. each
Body Width	24⅛"	Tray Clearance	3⅝"
Top Deck Height	51"	Guide Clearance	3¾"
Overall Length	63¼"	Drawer Size	16⅛" x 21¾"
Overall Width	29"	Drawer Clearance	3 7/16"
Overall Height	62½"		
Weight (Approx.)	490 lbs.		
Beverage Wells	6½" x 10" deep		

WATTAGE: Approximate basic wattage of the conveyor is 1150 watts.

IDEALMOBILE

HOT FOOD ASSEMBLY UNIT

MODEL FS 100

SPECIFICATIONS

This Model FS-100 IDEAL Hot Food Assembly Unit is a portable serving unit with built-in continuous belt conveyor, infra-red warmers and extra carrying capacity in lower compartments. This unit has been designed to speed up the assembly of hot food portions onto plates. It facilitates the loading of hot food portions into the carrying section of the IDEAL Mealmobile thus increasing the efficiency of centralized food service.

DIMENSIONS: Approximately 8' long x 29" wide x 56" high overall. Top deck height 35".

SUPERSTRUCTURE: 16 ga. stainless steel shelf 12" wide, formed down 1½" and hemfolded on each side, running the full length of the top deck at height of 18". Supported by 1" diameter .065" wall thickness stainless steel tubes welded on the underside of shelf flange and extending 2" above shelf. Right rear support Zee shaped to allow easy access to serving end of conveyor belt. The six shelf supports are mounted to the top deck by means of bosses making entire superstructure removable. Guard rail of ⅜" stainless steel rod on ends and rear of superstructure, 1½" above shelf.

INFRA-RED WARMERS: The under side of the superstructure shelf is equipped with five 250 watt infra-red heat lamps controlled by on-off toggle switch on control panel. Lamps are wired so that they will not light unless conveyor belt is moving.

TOP DECK: 16 ga. stainless steel, seamless one-piece construction with built in recess for 10" wide continuous belt and with openings to accommodate four full size steam table pans or any equivalent combination of fractional pans.

BODY: End panels 16 ga., back and front panels 20 ga. 20 ga. stainless steel inner liner encases 1" minimum glass fiber insulation on all panels. Lower compartment divided into six sections each with insulated overlapping type doors, with roller latches and semi-flush handles, swinging on full length vertical stainless steel piano-type hinges. Each section has capacity of three full size 4" deep pans or equivalent number of fractional pans.

PLATFORM: 16 ga. stainless steel channeled 3" down and 1¼" in on the long sides. Two .109" thick stainless steel lateral channel bolsters are welded to the platform to provide support and attachment for two rigid and two swivel 8" ball-bearing casters, which are each affixed with four ⅜-16, MC-2 Hex-Head cap bolts and nuts with shake-proof lock washers.

CONTINUOUS BELT CONVEYOR: Belt is ⅛" thick, 10" wide canvas, white neoprene treated for smooth, easy cleaning surface. Belt is designed to run left to right with 3 speed drive powered by ¼ h.p. capacitor type heavy duty electrical appliance motor equipped with thermal overload protection. Gear box is equipped with bronze gearing which is totally enclosed in gear lubricant. Speed of belt may be changed easily without the use of tools. Belt is controlled by switch mounted on the loading end of the unit.

ELECTRICAL SYSTEM: Lower compartment of the unit is heated with enclosed copper sheathed heating element controlled by capillary tube type thermostat with 10 settings with variations from room temperature to 250° F. Electrical system designed for use on 220 volt, 3 wire, single phase, 60 cycle current supply.

Pilot lights on the control panel indicate when unit is heating and when desired temperature has been achieved. Electrical system is junctioned at the control panel in a 20 amp, 250 volt motor plug base. Unit is supplied with 8', 14 ga. rubber insulated cord with 3 wire fitting on both ends.

HOSPITAL STATISTICS

Discussion

For the eleventh successive year, the American Hospital Association presents a picture of the nation's hospitals—statistics gathered from the annual questionnaire sent to all hospitals accepted for listing by the Association in the continental United States and its territories and possessions. The data were requested for the fiscal year ending September 30, 1956.

These 1956 statistics include 6,966 hospitals in the continental United States, and 137 in United States territories and possessions—a total of 7,103 institutions. Most of the tabulations are for the continental United States only; territorial data will be found, however, in Tables 4, 9, 12 and 13.

The statistics closely approximate the hospitals included in the *Listing of Hospitals* (see page 9), although there were slight variances in certain states due to late revisions of the listing. The variance for the entire listing for the continental United States was only 3 — 6,963 hospitals listed as compared with 6,966 included in the statistics.

The basic data for the nation's hospitals are presented in Tables 1 to 13, arranged in various classifications by service, ownership, size, region and state. The first group of tables (Tables 1-9) presents data on the number of hospitals and their numbers of beds in terms of their utilization: average daily census, admissions, occupancy, and, for short-term hospitals, length of stay. Newborn census, births and bassinets are also reported.

The next group of tables (Tables 10-12) provides statistics for finances and total personnel. The financial data include statistics for assets, total income and income from patients, and total and payroll expense. Table 13 provides a summary of basic data for individual states and territories.

Data for special aspects of hospital service and operation are presented in the next group of tables (Tables 14-19), which provides information on allocation of beds; psychiatric facilities in general hospitals; facilities and services; accredited hospitals; outpatient services, and death and autopsy rates.

The last group of tables (Tables 20-24) gives information on nursing and technical personnel employed in hospitals.

HOSPITALS REPORTING

The basic data on hospital utilization, finances and personnel include certain estimates for nonreporting hospitals. The generally high level of reporting on which these estimates were based is demonstrated by the fact that 91 per cent of all hospitals in the continental United States, representing 94 per cent of all hospital beds, supplied both average daily census and admissions data. Of the nonprofit hospitals, 94 per cent reported these items, representing 96 per cent of nonprofit hospital beds. Response from federal hospitals was also high—95 per cent of the hospitals, with 97 per cent of all federal beds. The lowest percentages were in the proprietary group, but even here 83 per cent of the hospitals, with 86 per cent of the beds, reported. Tables 7 and 8 show breakdowns both for total hospitals and for hospitals re-

Automation doubles laundry capacity at The Springfield Hospital

No increase in floor space—280 man hours saved per week

Automation—Key to high production, labor-saving laundry department at The Springfield Hospital, Springfield, Mass. American-equipped Automatic Washroom and Mechanized Flatwork Finishing Department have doubled the laundry's capacity, cut supply costs 20% and *reduced the labor force by 7 operators!*

See how automation will increase the efficiency and productivity of *your* laundry department. Your nearby American Man from the Factory has all the information. Call him today, or write for Catalog AI 321-002.

Automatic Washroom

Sixteen tons of work are processed every week in The Springfield Hospital's high-production Automatic Washroom. Now, Cascade Unloading Washers with Full-Automatic Controls perform all phases of washing cycle *without operator attention!* Pushbutton unloading automatically empties washed work directly into Notrux Extractor containers. Electric hoist and overhead trolley quickly convey containers to and from high-speed Notrux Extractors. Back-breaking manual chores have been completely eliminated in this up-to-the-minute laundry operation.

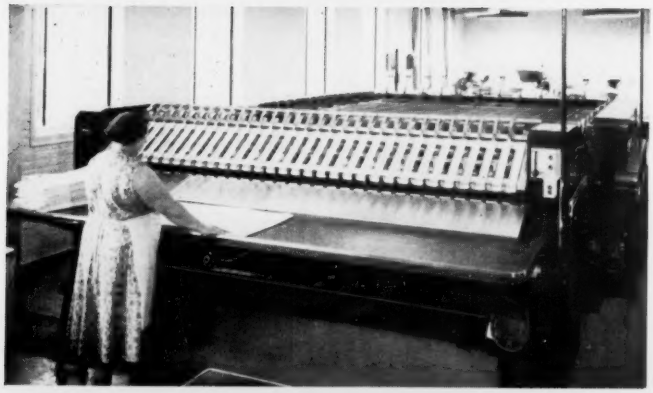
The American Laundry Machinery Company, Cincinnati 12, Ohio

Single-Ironer Mechanized Flatwork Department

Single-ironer flatwork finishing department at The Springfield Hospital is completely mechanized for top-speed production, fast return of linens to service. Work is conditioned, conveyed, ironed and folded *automatically!* American automatic equipment saves labor and handling, reduces operator fatigue and greatly improves employee morale.

Extracted work is conveyed automatically into and from Rotaire Conditioning Tumbler! Manual shakeout is eliminated, both large and small pieces flow to ironer continuously, perfectly heat-and-moisture-conditioned for fine quality finishing at high speeds.

Sheets and other large pieces from Rotaire Tumbler are delivered to ironer feeders at rates of more than 700 per hour by high-speed Sager Spreader. All large linens are opened and smoothed for fast, easy feeding, travel in full view of operator for thorough inspection. Conditioned small pieces are conveyed directly to ironer feeders.



Both large and small pieces are automatically folded directly from ironer by Trumatic Folder. Automatic measuring device guarantees a neat, even edge on every folded piece. Transfer back and forth from single lane (for large pieces) to two lane (for small pieces) is automatic.

You can expect more from American

porting average daily census and admissions.

STATISTICS FROM OTHER SOURCES

Nursing Schools (Table 25)—Data for schools of professional and practical nursing in the United States were specially compiled for presentation in the Guide Issue by the National League for Nursing.

Canadian Hospitals (Tables 26-27)—The statistics presented for Canadian hospitals are for all Canadian institutions rather than hospitals listed by the American Hospital Association. These summary tables were prepared with the collaboration of the Canadian Dominion Bureau of Statistics from the extensive reports published by that Bureau. Canadian statistics are for the year 1954, and are for reporting hospitals only. Nonreporting in the Canadian "private hospital" classification were 94 hospitals with 2,131 beds. In the "public hospital" category, 53 hospitals, with 5,039 beds, did not report.

The data on individual Canadian hospitals presented in the *Listing of Hospitals* were this year, for the first time, obtained with the cooperation of the Canadian Hospital Association. The Canadian annual questionnaire was specially revised to include all the items needed for the *Listing of Hospitals,* and completed questionnaires were forwarded to the American Hospital Association for direct compilation of information on listed Canadian hospitals.

THE NATION'S HOSPITALS, 1956

The tables presented in this section provide a rich field for study, and offer many opportunities for detailed analysis of hospital care in the United States. In this brief discussion it will be possible only to summarize certain broad aspects of the basic statistics for 1956; point out some of the trends over the last eleven years, and call attention to the various data on hospital service, operation and personnel. The introductory charts and text tables indicate only a few possibilities for arrangement and comparison of the basic information.

The 6,966 hospitals listed by the American Hospital Association for the continental United States in 1956 contained 1,607,692 beds, an average of 9.6 beds per thousand population. The estimated number of persons in hospitals each day averaged 1,355,792, an average occupancy of 84.3 per cent. In the nonfederal hospitals providing predominantly short-term care for acute illness, the average patient stay was 7.7 days.

There were 22,089,719 hospital admissions in 1956. The exact number of persons receiving hospital care during the year is unknown, since total admissions include persons entering the hospital more than once during the year.

The number of hospitals reporting births was 4,784. The number of births reported was 3,491,141.

The total assets of all hospitals amounted to more than $13 billion. Total expense for 1956 exceeded $6 billion, of which nearly $4 billion was for payroll. The total number of personnel employed, including equivalents for part-time personnel, was 1,374,704. There were an average of 101 personnel per 100 patients in all hospitals. This average included a range from 213 personnel per 100 patients in short-term nonprofit hospitals to 31 per 100 in nonfederal psychiatric hospitals.

Total expense per patient day averaged $12.16 for all hospitals. This average includes a range from $3.63 per patient day in nonfederal psychiatric hospitals to $24.99 in nonprofit short-term hospitals.

Sixty per cent of all hospitals had less than 100 beds; these smaller hospitals reported 26 per cent of all admissions.

The East North Central region led in number of hospitals; the Middle Atlantic, in number of beds. The Mountain region had the fewest hospitals and beds.

SERVICE AND OWNERSHIP

The standard American Hospital Association classification of hospitals, such as is used for the presentation of 1956 basic data in Tables 2 and 11, goes into considerable detail as to type of service, ownership and size of hospital. To simplify these data for purposes of discussion the tabulation below (text table A) was prepared. The percentage distributions have been illustrated in Charts 1 and 2 on previous pages.

Type of Service (Chart 1)—While the psychiatric and tuberculosis hospitals provided care for the majority (58 per cent) of persons in hospital beds each day, the

INCERT®

new... unique one-step additive vial saves time, labor and money in your hospital

NO AMPULES . . . NO NEEDLES . . . NO SYRINGES

Simply remove tamperproof cover of INCERT and push sterile plug-in through large hole in stopper of solution bottle. It's that easy... and a completely closed, sterile system.

EXCLUSIVE HOSPITAL-USE FEATURES

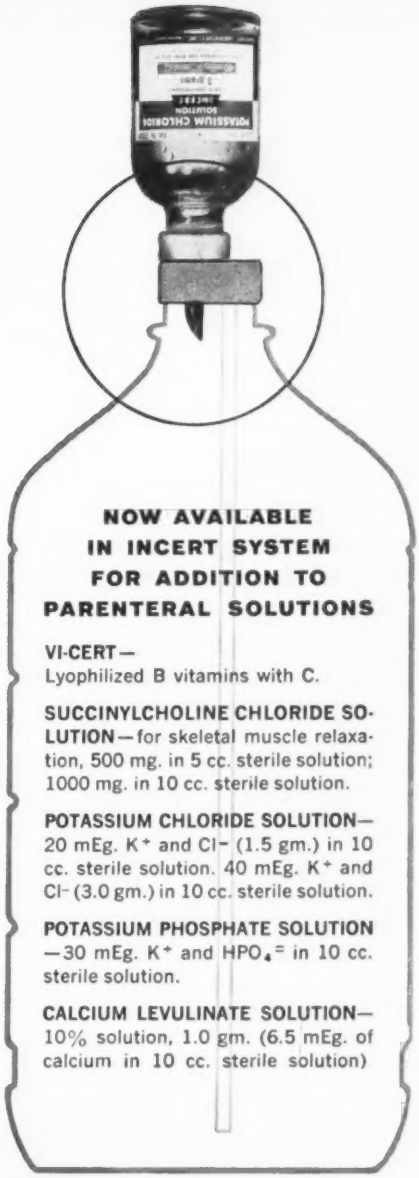
CONSERVES TIME — Instantaneous automatic supplementation of bulk parenteral solutions.

COMPLETELY STERILE—Closed system, from preparation to administration.

ECONOMICAL—Cuts labor and expense by eliminating ampules, needles and syringes.

SIMPLE TO USE—A foolproof system that eases the hospital care load.

***INCERT SYSTEM** is an original development of Travenol Laboratories, Inc. Complete literature and samples on request.*



NOW AVAILABLE IN INCERT SYSTEM FOR ADDITION TO PARENTERAL SOLUTIONS

VI-CERT—
Lyophilized B vitamins with C.

SUCCINYLCHOLINE CHLORIDE SOLUTION—for skeletal muscle relaxation, 500 mg. in 5 cc. sterile solution; 1000 mg. in 10 cc. sterile solution.

POTASSIUM CHLORIDE SOLUTION—20 mEg. K^+ and Cl^- (1.5 gm.) in 10 cc. sterile solution. 40 mEg. K^+ and Cl^- (3.0 gm.) in 10 cc. sterile solution.

POTASSIUM PHOSPHATE SOLUTION—30 mEg. K^+ and $HPO_4^=$ in 10 cc. sterile solution.

CALCIUM LEVULINATE SOLUTION—10% solution, 1.0 gm. (6.5 mEg. of calcium in 10 cc. sterile solution)

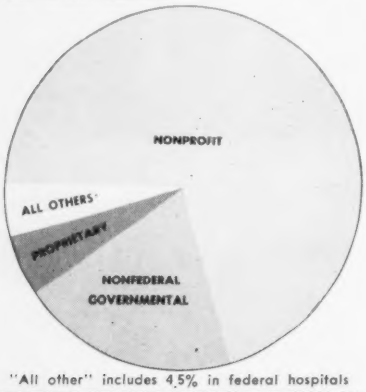
Chart 3—Hospital Births, 1956

See text table D, page 350.

95% of the more than 3 million Hospital births were in the three groups of short-term general and special hospitals.



"All other" includes 4.5% in federal hospitals

general and other special hospitals dominated the hospital picture with respect to the number of hospitals (87 per cent) and the number of persons cared for during the year (98 per cent of all admissions). These predominantly short-term hospitals also dominated the financial and personnel aspects. Three-fourths of all hospital assets were in the "general and other special" hospitals, and they accounted for more than three-fourths of expense and personnel.

Ownership (Chart 2)—Since the majority of the group of "general and other special" hospitals are voluntary hospitals in the nonprofit category, the nonprofit hospitals were the major group, among hospitals classified by ownership, with respect to hospitals, admissions, finances and personnel. Over 50 per cent of all hospitals and 67 per cent of all admissions were in this group, and nearly half of the finances and personnel totals. The state and local governmental hospitals predominated in average daily census (62 per cent) reflecting the large numbers of patients in the psychiatric and tuberculosis hospitals of this group.

Of all hospital births reported, 95 per cent were in the short-term general and special hospitals, and 72 per cent were in the nonprofit hospitals of the group (Chart 3).

TRENDS

Comparisons of hospital data for any one year with data for the previous year always show much variation, which may be due to real changes in hospital utilization or services or may be due to changes in classification, reporting or statistical method. The signifi-

cance of variations can be determined only by comparison with long-term trends. For such long-term comparisons, the 11-year percentage changes in hospital utilization, finances and personnel have been tabulated in text table C. The percentage distributions of the totals are compared for 1946 and 1956 in text table D.

Hospitals—The increase in number of hospitals—14 per cent from 1946 to 1956—has slowed in recent years. The net increase of 10 hospitals from 1955-56 represented gains of 68 nonprofit and 33 governmental short-term hospitals and 4 federal hospitals; and reductions of 39 for short-term proprietary, 7 for long-term general and special, 17 for psychiatric and 32 for tuberculosis. The gains in nonprofit and governmental short-term hospitals, and the declines in proprietary and tuberculosis hospitals, followed established trends. The decline in psychiatric hospitals was due in part to deletions from listing and in part to reclassifications from "psychiatric" to "hospital departments of institutions," in the short-term general category.

Beds—In eleven years, there has been a 12 per cent increase in total beds, chiefly in the short-term nonprofit and the psychiatric categories. Although the increase in nonprofit short-term beds continued from 1955 to 1956, the total number of beds increased only 0.2 per cent, chiefly because of the drop in psychiatric beds resulting from the reclassification mentioned above.

The ratio of total beds to population, fluctuating over the 11-year period, declined slightly in the last year (text table B).

Average Daily Census—The average daily census increased 19 per cent from 1946 to 1956. This average included increases of 30 per cent for the nonprofit short-term hospitals, 20 per cent for nonfederal governmental short-term hospitals, 27 per cent for nonfederal psychiatric hospitals, and 1 per cent for the long-term general and special group; and declines for all other groups.

The slight decline in the over-all average daily census from 1955 to 1956 was accounted for by the decline in the psychiatric category due to the reclassification previously discussed. The census in the short-term hospitals increased 4 per cent, and in the nonprofit hos-

E & J CARDIAC MONITOR SHORTAGE SOLVED

The response to this new low-price product that gives continuous indication of cardiac rate and rhythm during surgery, overwhelmed us. Now, we have expanded production to meet demand, and current orders are being shipped without delay.

The E & J Cardiac Monitor is fast becoming basic equipment for every operating room. Its $135.00 price makes feasible a unit for every surgery.

Write for descriptive data, or a demonstration, to—

E & J MANUFACTURING COMPANY 100 E. Graham Place, Burbank, Calif.

pitals of this group, nearly 6 per cent.

Length of Stay—In the short-term general and special hospitals, length of stay dropped from 9.1 to 7.7 days from 1946 to 1956, and from 7.8 to 7.7 days from 1955 to 1956. The over-all reduction in the last year was due to a decrease from 9.7 to 9.4 days in the nonfederal governmental group; length of stay in the nonprofit and proprietary hospitals was unchanged.

RISE IN UTILIZATION

Admissions—In 11 years, the number of admissions to all hospitals increased 41 per cent, and from 1955 to 1956 there was an increase of more than a million—nearly 5 per cent.

Most of this increase was in the nonprofit short-term hospitals. Admissions to these hospitals increased 54 per cent in the 11-year period, and 5 per cent the last year. They represented nearly 67 per cent of all admissions as compared with 61 per cent in 1946.

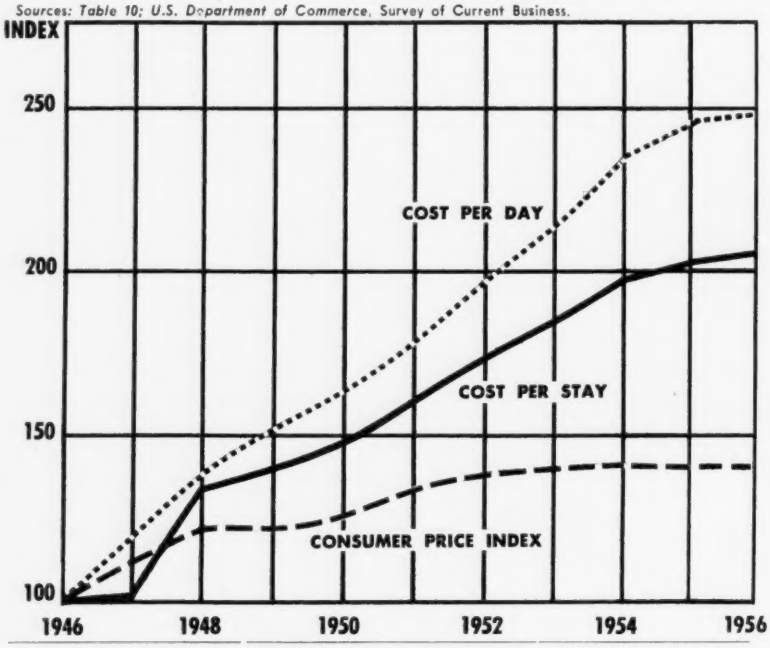
The real increase in hospital utilization is indicated by the increased ratio of admissions to population. In 1946, there were 112 admissions to all hospitals per thousand population; in 1956 there were 132 admissions per thousand (see text table B).

Had the rate per thousand population remained at the 1946 level, there would have been less than 19 million admissions in 1956, rather than the more than 22 million actual admissions.

Births—Since 1946 the number of births reported has increased 64 per cent. The sharpest percentage gains were in the short-term nonfederal governmental hospitals—126 per cent—and the federal hospitals—321 per cent; the increase for the short-term nonprofit hospitals was 57 per cent. The increase from 1955 to 1956, however, was less than 1 per cent.

Chart 4—Relative Costs per Day and per Stay in Nonprofit Short-term General and Special Hospitals, and Consumer Price Index, 1946-1956

Sources: Table 10; U.S. Department of Commerce, Survey of Current Business.



FINANCES

Assets—Total assets were first reported in 1947, when the total was less than $6 billion for all hospitals. The ten-year increase to the 1956 total of over $13 billion was 122 per cent. From 1955 to 1956, the increase for all hospitals was 9 per cent.

Total Expense—The 11-year increase in total expense for all hospitals was 207 per cent; for the last year the increase was nearly 8 per cent.

Payroll Expense—The payroll component of total expense rose 258 per cent for all hospitals from 1946 to 1956. In 1946, 56 per cent of total expense was for payroll; in 1955, 64 per cent; and in 1956, 65.6 per cent.

Nonprofit Short-term General and Special Hospitals—Total expense in the short-term nonprofit hospitals rose 223 per cent from 1946 to 1956, and 9 per cent from 1955 to 1956. The rise in expense per patient day was 149 per cent for the 11-year period, from $10.04 to $24.99. The increase from the 1955 level of $24.15 was, however, only a little over 3 per cent.

The average cost per patient stay did not increase in so great a proportion as the cost per day during the 11-year period, because while costs rose there was a reduction in length of stay. From 1946 to 1956 the average cost per stay rose from $88.35 to $187.43, an increase of 112 per cent, as compared with the 149 per cent increase in cost per day.

From 1955 to 1956, however, length of stay in the short-term nonprofit hospitals remained unchanged, and the "per stay" increase, like the "per day" increase,

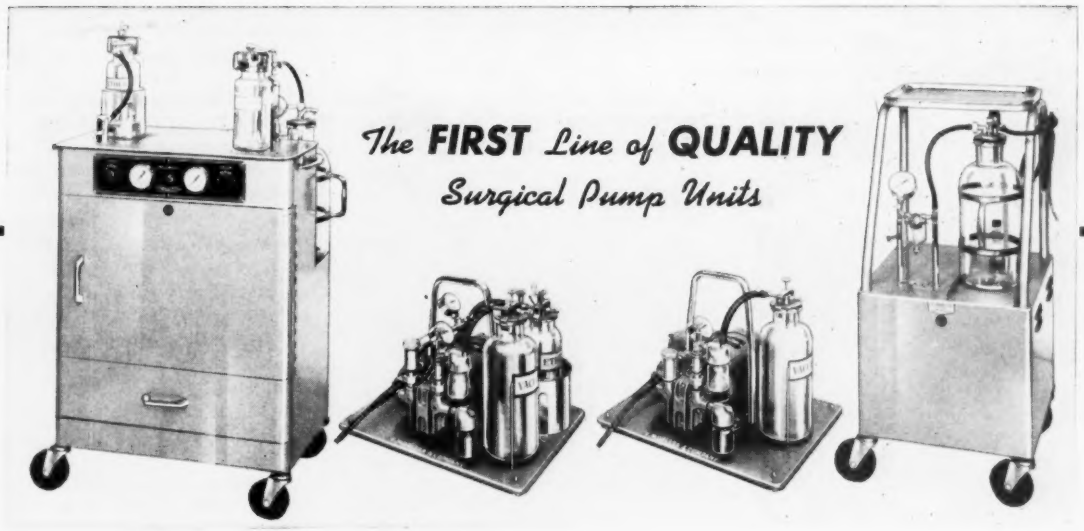
*1947 Total Assets $5,881,156; data not available for 1946.



The **FIRST** Complete Line of **EXPLOSION-PROOF** Surgical Aspirators

From careful assembly to final bench testing, each Mueller unit is individually built by a single skilled mechanic. This personal craftsmanship and painstaking "custom building" is your assurance of careful integration of component parts. The result is the most efficient equipment available—the ultimate in dependability.

HERB-MUELLER EXPLOSION-PROOF ETHER-VACUUM APPARATUS. The *preferred* heavy duty equipment for combined ether anesthesia and surgical suction. Special slow-speed motor . . . powerful, vibration-free, silent. Exclusive Mueller Re-Circulating Oil System eliminates maintenance cares. Single eye-level control panel delivering controlled ether-vapor and constant vacuum (up to 25 inches Hg.). Both quart and gallon bottles in full sight . . . quick change bottle caps; practically tip-proof cabinet, ether-proof, stain-resistant. 4″ conductive casters. 110-120 volts, 50-60 cycles, AC.

AS-17 PORTABLE SURGICAL VACUUM UNIT. The lightest weight explosion-proof portable available . . . weighs only 34 lbs. Develops up to 25″ Hg. vacuum. The long-life motor has thermal overload protection. 115-volt, 60 cycle, AC. Quart bottle, 11″ x 15″ base, vacuum gauge, explosion-proof switch, 3-wire cord.

AS-18 PORTABLE ETHER-VACUUM UNIT. The ideal auxiliary unit for any hospital. Weighs only 36 lbs. 25″ Hg. vacuum, pressure to 15 lbs. Long-life motor with thermal overload protection, quart vacuum bottle, pint ether jar, vacuum and pressure gauges, 11″ x 15″ base, explosion-proof switch, 3-wire cord.

AS-29 EXPLOSION-PROOF SURGICAL SUCTION UNIT. This gallon-bottle unit gives you sufficient capacity for any surgical case. Controlled vacuum from 0 to 25″ Hg. Controls conveniently located. Positive springlock closure permits replacement of bottle *in seconds!* Safety trap prevents aspirated matter from fouling pump. 1/6 hp GE motor, slow-speed, cool-running. Mueller Re-Circulating Oil System. Pump and motor are silent and vibration-free . . . fully enclosed. 4″ conductive casters. 115-volts, 60-cycles, AC.

FIRST in dependability—still FIRST in the field.

Onan
ELECTRIC PLANTS
ELECTRIC PLANT
NEWS

Power outages can do no harm in this hospital

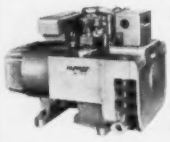
Onan Electric Plant supplies emergency power for lighting and all vital electrical equipment

An Onan Emergency Power System protects patients and personnel. Supplies current for lighting corridors, operating rooms, delivery rooms, stairways; provides power for heating system, ventilators, elevators, X-Ray machines, and other vital equipment.

Your hospital is assured of electric power at all times with Onan Emergency Electricity. *Operation is completely automatic.* When highline power is interrupted, the plant starts automatically; stops when power is restored.

Models for any size hospital—1,000 to 75,000 watts A.C.

Complete standby systems at lower cost



Onan Vacu-Flo cooling permits using *air-cooled* models in many installations at a considerable saving. Check Onan before you specify.

See your architect or engineer

(Continued from page 350)

was about 3 per cent for the year.

Cost per day and per stay from 1946 to 1956 are illustrated in Chart 4, which also charts the Consumer Price Index.

Payroll expense in the nonprofit short-term hospitals was 51 per cent of total expense in 1946, and about 61 per cent of the total in both 1955 and 1956.

From 1946 to 1956 total income increased 225 per cent in the nonprofit short-term hospitals, and patient income increased 256 per cent. In 1956, total patient income was 96 per cent of total expense, compared with 87 per cent in 1946.

TOTAL PERSONNEL

The increase in full-time personnel for all hospitals was 66 per cent in 11 years, nearly 6 per cent in the last year of the period. In the short-term nonprofit hospitals the 11-year increase was 77 per cent; the one-year increase, 7 per cent. In the nonfederal psychiatric hospitals the increase in 11 years was 103 per cent; in the last year, 7 per cent.

For all hospitals there were an average of 28 more personnel per 100 patients in 1956 than in 1946, and an average of 6 more in 1956 than in 1955. In the nonfederal psychiatric hospitals, with the lowest personnel:patient ratios, the percentage increase in ratio during the 11-year period, from 19 to 31 personnel per 100 patients, was 63 per cent. In the nonprofit short-term hospitals, with the highest personnel:patient ratios, the increase was from 156 to 213 per 100 patients, or 37 per cent, during the same period.

SERVICE AND OPERATING DATA

Beds Allocated to Special Services (Table 14)—Allocations to contagious disease, psychiatry, obstetrics, pediatrics and tuberculosis are difficult to appraise because of variations in reporting.

Psychiatric Facilities in General Hospitals (Table 15)—Of all general hospitals reporting, 976 reported admitting psychiatric patients for treatment. These patients were admitted to a clinical service without separate facility in 56 per cent of the hospitals; to a separate ward or unit in 34 per cent; to a separate building in 6 per cent.

Similar data for 1954, reported in the 1955 Guide Issue, showed only 614 hospitals admitting psychiatric patients, and more predominantly specialized facilities for their treatment.

Specified Facilities and Services (Table 16)—Ninety-two per cent of all hospitals reported on the 22 facilities and services. The general average for all hospitals includes a good deal of variation among hospitals of various types. Thus while occupational therapy departments were reported by only 23 per cent of all hospitals, the range was from 100 per cent in federal psychiatric and tuberculosis hospitals to 9 per cent in the short-term group.

The distribution of the 22 facilities and services among the short-term general and special hospitals is shown in Chart 5.

Accredited Hospitals (Table 17)—Nearly half (49 per cent) of all hospitals were accredited in 1956. In hospitals with less than 50 beds, 11 per cent were accredited; in hospitals with 50 or more beds,

Chart 5—Per cent of Short-term General and Special Hospitals with Specified Facilities and Services, Continental U.S., 1956

Source: Table 16.

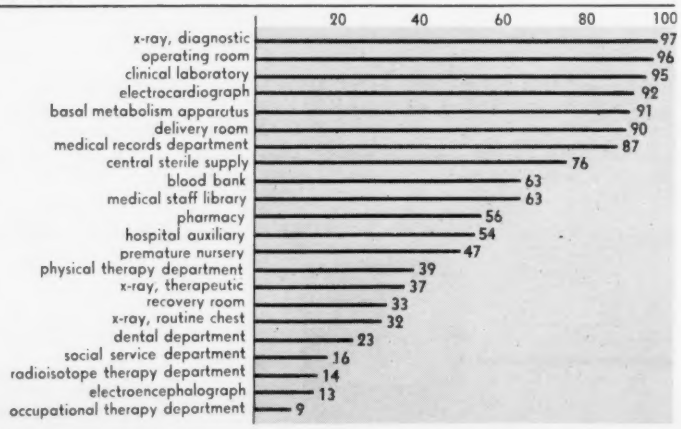

Chart 6—Percentage Distribution of Accredited Hospitals, by Type of Ownership; Continental U.S., 1956
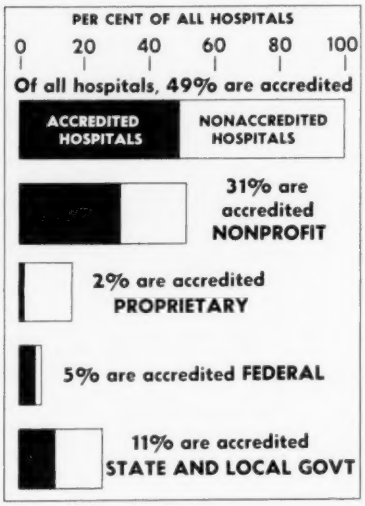
Source: Table 17



71 per cent were accredited.

The distribution of accredited and unaccredited hospitals in the various ownership categories is shown in Chart 6. Of nonprofit hospitals, 62 per cent were accredited; of federal hospitals, 73 per cent; of nonfederal governmental hospitals, 41 per cent; of proprietary hospitals, 12 per cent.

Outpatient Visits (Table 18)—In 1956, 4,986 hospitals reported nearly 80 million outpatient visits.

Deaths and Autopsies (Table 19)—The death rate for short-term hospitals was 3.2 per cent of admissions. The over-all autopsy rate was 36.9 per cent.

NURSING AND TECHNICAL PERSONNEL

Graduate Professional Nurses (Table 20)—While the number of hospitals reporting was slightly lower (6,266 compared with 6,415 in 1955), the number of graduate nurses reported employed increased to 261,444, compared with 260,909 in 1955.

In the reporting hospitals the over-all ratio of nurses (excluding private duty nurses) to patients was 20.7 per 100 patients. The range was from 54.2 in the short-term general and special hospitals to 1.7 in the nonfederal psychiatric hospitals.

Practical Nurses and Auxiliary Nursing Personnel (Table 21)—The total number of practical nurses reported was 70,758; the total number of auxiliary nursing personnel, 307,762.

Technical Personnel (Tables 22-24)—The large numbers of part-time workers reported in some categories are notable. Of 9,738 dietitians, 8 per cent were part-time. Of 22,449 total medical record personnel, 13 per cent were part-time; 2,322 were registered medical librarians, of whom 11 per cent were part-time (Table 22).

Of 31,924 medical technologists, 15 per cent were part-time; 11,329 were registered (12 per cent part-time). Of 15,839 x-ray technologists, 12 per cent were part-time; 7,635 were registered (10 per cent part-time). There were 5,672 pharmacists, of whom 17 per cent were part-time, the largest proportion of part-time workers in any of these technical personnel categories (Table 23).

Of 5,600 medical social workers, 7 per cent were part-time, the smallest proportion among the technical personnel. Of 5,002 occupational therapists, 14 per cent were part-time. Ten per cent of the 5,746 physical therapists were part-time; 3,538 were registered, and of these 11 per cent were part-time (Table 24).

Cost of synthetic for 12 months (8-roll ironer) $878.00

Cost of cotton for 12 months (8-roll ironer) $930.10

Cost of **REVOLITE** for 12 months (8-roll ironer) **$528.00**

No matter how you figure it, you're way ahead with

R/M REVOLITE® LAUNDRY PADS AND COVERS

More than 5000 cost-conscious laundry managers are saving up to 43% by using R/M Flatwork Ironer Covers exclusively. Here's why they like them:

BETTER FINISH . . . REVOLITE Laundry Pads and Covers are made of fine-woven cloth that puts a smooth, better looking finish on all ironed goods.

HIGHER PRODUCTION . . . REVOLITE Laundry Pads and Covers can take higher temperatures—permit faster machine speeds; their long life eliminates stoppages for roll changing.

LONGER LIFE—LOWER COST . . . REVOLITE Laundry Pads and Covers outlast other covers several times over — and save power and labor through increased efficiency.

Ask your R/M REVOLITE representative to tell you the true and exciting story of John Glad—it's an eye-opener!

THEY'RE PLANNING A HOSPITAL

NEW COLOR FILMSTRIP SHOWS HOW ALOE EQUIPMENT PLANNING SERVICE CAN SIMPLIFY YOUR EQUIPMENT PLANNING

Whether you are building, remodeling or refurnishing, in just 20 minutes this new Aloe filmstrip will simplify your task. In full color, it quickly explains how other leading hospitals have taken advantage of the *complete* Aloe Equipment Planning Service to insure the most in efficiency, utility and colorful beauty, at lower cost.

The filmstrip describes in detail the systematic, coordinated plan of assistance that Aloe offers from the beginning of your program, with sustained service following completion. Backed by experience in equipping over 400 new hospitals, Aloe can relieve you of many of the details of planning your equipment requirements.

Mail the convenient coupon today to reserve a showing date, without cost or obligation, of course. Available to administrators, architects, hospital boards, and consultants.

†Includes hospital departments of institutions.

J. T. POSEY COMPANY

Manufacturers and Distributors of Hospital Specialties

Since 1937 we have manufactured and distributed quality hospital equipment designed to aid modern institutions. Every Posey product is guaranteed 100% satisfactory, or it may be returned for refund. We also manufacture the Posey Fracture Equipment and a number of other products which are used and favorably known throughout the hospital world.

POSEY PATIENT SUPPORT

Patent Pending

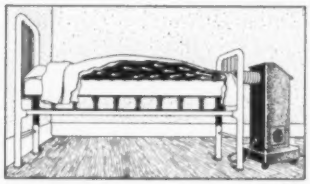
The Posey Patient Support was designed to fill a long-felt need. It is used on wheelchairs or conventional chairs. It is possible to get a bed-patient up into a chair with safety and with no fear of danger. Generously designed to accommodate practically all size patients and all types of chairs. Available in small, medium and large sizes in two models. Standard Model, Cat. No. PP-753, $5.85 each. Adjustable shoulder strap model, Cat. No. PP-154, $7.50 each.

THE POSEY SAFETY BELT

Prevents patients falling out of bed. Cat. No. S-141, $6.00. (Extra heavy construction with key-lock buckles, Cat. No. P-453, $18.50 each. Send for illustrated literature regarding various types of restraints, body-leg cradles and other quality hospital equipment.

POSEY PATIENT AID

A rehabilitation product which encourages self-exercise and is a positive aid to the geriatric. No. B-654 (For open-end beds) No. B-654-A (For beds with solid foot ends) $5.95 ea.



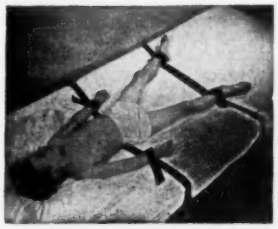
The SWEETLAND BED WARMER and CAST DRIER

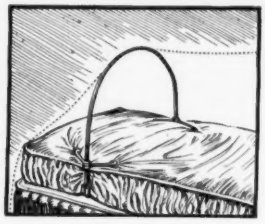
U. S. Patent No. 2,122,964

For treating patients by continuous flow of thermostatically controlled warm air. Warms bed for post-operative care in from 7 to 10 minutes. Warmer, when used with cast drying mats, will dry plaster casts in less than one-half time usually required. Ideal in treatment of burn cases. Bed Warmer price $295.00. Accessories: Adult Body Cast Drying Mat $37.50; Adult Leg Cast Drying Mat $27.50; Child Body Cast Drying Mat $35.00; Child Leg Cast Drying Mat $25.00.

POSEY WRIST OR ANKLE RESTRAINT

A friendly restraint available in Infant, Small, Medium and Large sizes. Widely used. No. P-450. $5.25 per pair. $10.50 per set; with sponge rubber padding $6.25 per pair, $12.50 per set.





POSEY BED CRADLE

Full width of bed. Simple, self-locking clamp to mattress holds Cradle in place. Leaves patient accessible. Light hooks on body size Cradle. Available in body or leg sizes. Price $6.75 each.

McDONALD RESTRAINT

A strong friendly restraint designed to prevent patients from getting or falling out of bed. Sizes: Small, Medium, Large. Cat. No. P-4147, Price $5.75 each. Available extra heavy riveted construction with key-lock buckles, Cat. No. P-353, Price $18.75 each.

Prices and specifications subject to change without notice. F.O.B. California.

Conductive Floor Cleaner

REDUCES

EXPLOSION DANGER

approved

"relating to HAZARDOUS LOCATIONS"

FIELD TESTING PROVES HIGH EFFECTIVENESS

Hillyard Conductive Floor Cleaner is especially formulated for the cleaning of Conductive Floors as specified and described in the booklet, "Safe practices for Hospital Operating Rooms" NFPA No. 56 dated May 1954–Conductive Floors complying with these requirements must have a resistance of 25,000 to 1,000,000 Ohms as measured between two electrodes placed 3 feet apart at any points on the floor.

All field tests were made with strict observance to these requirements. Safe readings were maintained by simple, proper treatment and maintenance procedures using Hillyard Conductive Floor Cleaner exclusively.

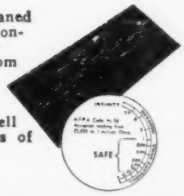
The panels to the right show the great variance in Ohmeter readings between conductive floors cleaned with ordinary soap type cleaners as contrasted with the same floors cleaned with Hillyard Conductive Floor Cleaner.

AN INSULATING FILM ON YOUR FLOOR DESTROYS CONDUCTIVITY

Any cleaning materials that will leave a soap scum or thin insulating film, will by frequent use soon cause complete insulating. With Hillyard Conductive Floor Cleaner there is NO harmful film left from this material to build onto the floor to retard or destroy conductivity.

The panel shows how destructive insulating film can easily be built up to destroy conductivity with Ohmeter readings well above the accepted standards.

The panel—cleaned with Hillyard Conductive Floor Cleaner, free from any insulating film, delivers safe readings well within standards of safe practices.



MEETS HIGH STANDARDS OF HOSPITAL CLEANING NEEDS

The fact that Hillyard Conductive Floor Cleaner is commonly used in a one to forty dilution, illustrates its amazing cleaning properties. No other cleaner should be used when using Hillyard Conductive Floor Cleaner. Used basically as a cleaner to fill hospital needs, it works quickly and thoroughly to give you that "hospital clean" atmosphere.

SAFE FOR ALL CONDUCTIVE FLOORS!

The Hillyard Maintaineer® is "On Your Staff, Not Your Payroll." Ask him for expert advice on your floor problems.

A NEW HIGH IN THE EFFICIENT USE OF OXYGEN

Actual clinical tests have indicated an oxygen concentration of 68% at 10 lpm with the Model Twenty-Five Oxygen Tent. Complete separation of blower from the motor permits sealing blower shaft against oxygen loss. There is no intervening ductwork to cause oxygen or temperature loss between cooling chamber and hood.

New, non-cycling refrigeration unit holds temperature inside the hood to within one degree at all times. Humidity is equally stable. The refrigerating unit runs continuously, eliminating "on-off" switching that disturbs the patient and causes temperature variation. Larger, slow-speed blower provides ample circulation at a lower noise level.

Model Twenty-Five is available in three frame heights to accommodate all commercial bed rails. This compact, lightweight unit is mounted on a SterilBrite® frame with 4" ball-bearing conductive casters for greater mobility.

For full details on the Model Twenty-Five, write for Form 2180-OT. If you prefer, ask an Ohio representative to actually show you a Model Twenty-Five Tent — he usually carries one in his station wagon.

OHIO

marginal notes

RE-USABLE HOODS

for Model Twenty-Five Oxygen Tent are extra long (60")—allowing for proper tucking. Durable, transparent .003 Vinylite hood is easily cleaned and disinfected. Hoods are reinforced at top and bottom edges, and have zippers at all four corners. *For more details, please request Catalog 2180-OT.*

★

MIRA OXYGEN ANALYZER

is designed for simple yet accurate, easy-to-read measurement of oxygen concentration in air-oxygen mixtures. Accuracy of measurement is 2% of full scale. Sturdy, portable, ready for instant use—no special adjustments or calibrations required. *For more details, please request Catalog 2180-OT.*

★

DISPOSABLE HOODS

for oxygen tents eliminate danger of cross-infection, and save the time-consuming task of cleaning and disinfecting. Lightweight, clear .001 plastic hoods have two convenient zipper openings, elastic hanger tabs and nylon draw cord. *For more details, please request Catalog 2190-OT.*

"Service Is Ohio Chemical's Most Important Commodity"

Troy

SERVICES FOR HOSPITALS

- Survey of Linen Requirements
- Equipment Recommendations
- Blueprint Layout of Equipment on Your Floor Plan
- Supervised Installation
- Prompt Service
- Complete Laundry Planning
- Survey Service
- Architects and Consultants Data Book

FREE SURVEY SERVICE — If your present laundry is equipped with older machinery, you may be wondering whether an investment in new labor-saving machinery would pay off. Ask about Troy's free Survey Service. A trained Troy man will be glad to check your present equipment, methods, volume and other pertinent factors. He'll also compute comparative figures on processing the work with new labor-saving machinery. Troy's complete laundry *planning* service is also available for *new* laundries, without cost.

100-PAGE DATA BOOK — 100-page Architects and Consultants Data Book contains machine dimensions, steam and electrical requirements, suggested floor plans for both large and small laundries, and other helpful information. Ask your Troy representative or write our factory for a copy, without obligation.

TROY LAUNDRY MACHINERY

Division of American Machine and Metals, Inc.

EAST MOLINE, ILLINOIS

World's Oldest Builder of Power Laundry Equipment

your most complete and reliable source

Only American provides you with all four of these important purchasing advantages:

1. **Complete Selection.** You can choose exactly what you need to fill your specific requirements from American's unequaled variety of equipment and supplies.
2. **Superior Quality Through Research.** Continuous research and testing is your assurance that you can buy the very best from American. You know that American's equipment and supplies incorporate the most up-to-date advances of modern science.
3. **Unexcelled Distribution Facilities.** American's unique nation-wide network of branches and offices provide immediate attention to your needs. Huge inventories, strategically located, save both valuable time and shipping costs.
4. **The Finest In Service.** Your American Hospital Supply representative calls often and regularly. As you know, his assignment is to service your best interests in any and every possible way.

Tomac

Serving the men and women dedicated to the care of human life

Facts you should know about UNITED HOSPITALS APPEAL

WHAT IT IS

United Hospitals Appeal is a proved method of capital fund-raising for as few as two hospitals to groups of ten or more in a community. Past appeals have raised sums ranging from $350,000 to $17,500,000.

Everyone likes the United Hospitals Appeal idea—local industry, the town's citizens, hospital administrators, and physicians. All are quick to see that with ONE impartial appeal, the hospital facilities of the entire community can be improved.

WHAT IT COSTS

The cost of conducting a United Hospitals Appeal is remarkably low in relation to the amount which can be raised. Of course, each appeal is different—varying with the community's needs and the potential area of donation. But in general, Bureau experience shows it costs from one percent to five percent of the total money raised. This includes *all* costs; the Bureau's fee, clerical expense, printing, postage, meetings and all other items necessary to the success of a fund-raising campaign. The Bureau's fee is always a flat amount depending on the length of time, and size of staff required. The total cost of a campaign is shared proportionately by the participating hospitals.

WHAT THE BUREAU DOES

American City Bureau takes the entire fund-raising problem off your shoulders. An experienced Bureau staff moves in to evaluate the community's problem. They contact all hospitals concerned, establish goals, organize volunteers, supervise clerical work, conduct meetings, direct publicity, account for and distribute all monies received.

HOW TO START THE BALL ROLLING

All it takes is a call, letter or personal visit to American City Bureau. One of our executives will talk to you or call at your convenience.

For further information, write for our new booklet, "United Hospitals Appeal." Ask for enough to supply interested members of your staff and those of neighboring hospitals.

in drawing **blood...**

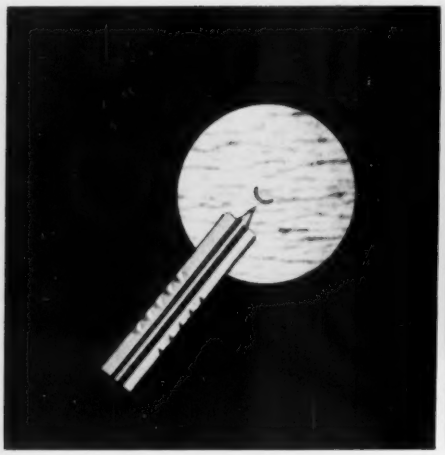
new
half-round point
makes unique
"gape-incision"

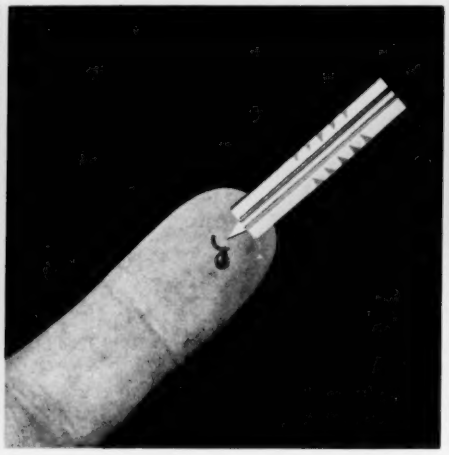
B-D

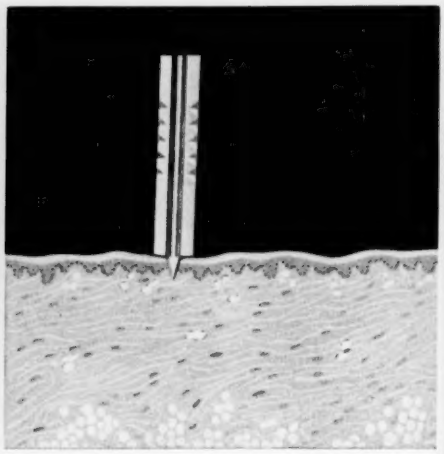
new

B-D sterile disposable blood lancet

unique "gape-incision" gives you...







adequate blood flow

The new B-D LANCET produces a half-round incision that tends to pout or "gape"—avoids premature closure—clotting delayed.

Result—an easier and immediate yield of an adequate flow of blood.

minimal dilution

The "gape-incision" of the B-D LANCET makes "milking" of the finger tip unnecessary—just gentle pressure.

Result—a minimal dilution of the blood by tissue fluids—a truer specimen of the patient's blood.

controlled penetration

Side flanges of the B-D LANCET automatically control depth of penetration. The angle and length of the point ensures that incision is in region of densest capillary supply.

Result—easy penetration—fewer tactile corpuscles traumatized—minimal pain.

- **stainless steel—very thin, yet rigid**
- **sterile—ready for immediate use**
- **hermetically sealed in pre-formed foil**
- **translucent top for positive point location**

#P433 "100" PACKAGE—Consists of 5 aluminum canisters each having 20 individually sealed LANCETS and the B-D Tallquist Hemoglobin Scale.

#433 "250" PACKAGE—Consists of 50 strips of 5 LANCETS each, individually perforated.

Surgical Tubing You Can Depend On—

You can depend on RLP Pure Latex Surgical Tubing because:

It's Safe—

RLP Tubing is formed by a patented process in which no acids or minerals are used to coagulate the latex. Hence any ill effects which might result from such processes are eliminated.

It's Dependable—

This translucent, amber colored tubing is absolutely smooth both inside and out. This feature precludes the possibility of obstructions forming on uneven surfaces. There are no seams to burst because RLP Tubing has no seams.

It Has Long Life—

The Pure Rubber Latex of which RLP Tubing is made provides maximum resistance to storage and the effects of repeated usage and sterilizations.

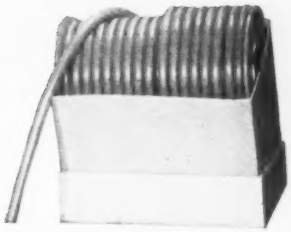
Six Standard Surgical Tubing Sizes

Inside Diam.	Wall	Inside Diam.	Wall	Inside Diam.	Wall
1/8	1/32	3/16	3/32	1/4	3/32
3/16	1/16	1/4	1/16	5/16	1/16

18 other surgical tubing sizes up to 1″ inside diameter are available in 12 foot lengths.

Order from your Hospital or Surgical dealer

Pure Latex SURGICAL TUBING



6 Standard Sizes
Comes in 50 foot Units on handy Reel-dispenser

Pure Latex LABORATORY TUBING (Black or Amber)

24 Standard Sizes
Comes in 12 foot lengths—24, 48 or 96 feet to a box depending on size.

Pure Latex Black Stethoscope Tubing

Soft, flexible and resilient, yet unusually strong and durable. Size: 3/16″ I. D. x 3/32″ wall. Longer life and dependability than ordinary tubing.

Pure Latex Black Laboratory Tubing

All the features of RLP Surgical Tubing but black in color to insure minimum light deterioration. Ideal for medical, bacteriological, food testing and general hospital usage. Twenty-four standard sizes from 1/8″ I. D. x 1/32″ wall to 1″ I. D. x 1/8″ wall.

MANUFACTURERS AND DISTRIBUTORS OF HOSPITAL AND SANATORIUM EQUIPMENT AND SUPPLIES SINCE 1914

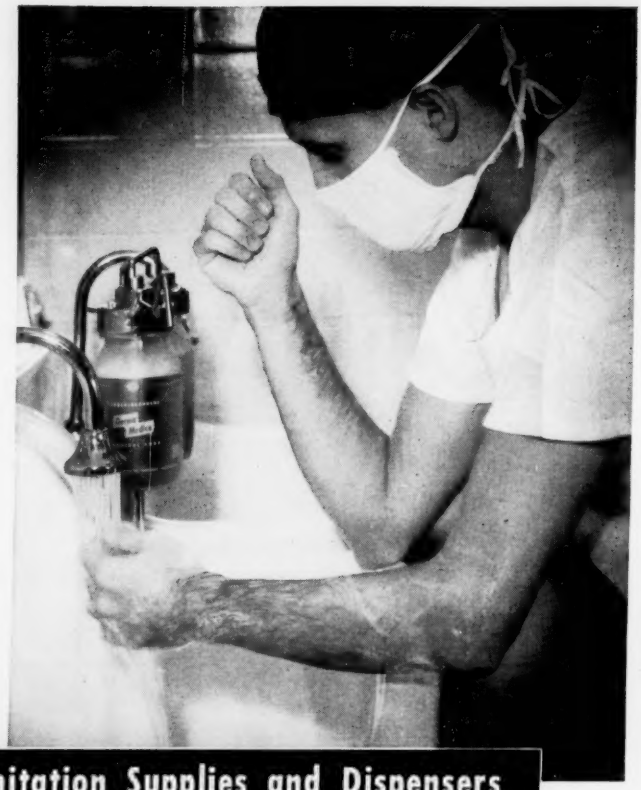
ANTISEPTIC LIQUID SURGICAL SOAP

GERMA-MEDICA®

Cuts Scrub Up Time . . . Costs Only 1/5c a Wash

Tests prove a daily 3-minute wash using Germa-Medica* with Hexachlorophene, diluted as much as 4:1, reduces bacteria in the area cleansed well below safe levels. Germa-Medica* produces a bacteriostatic condition that lasts for many hours. Yet it is economical . . . costs only 1/5 ¢ a wash. Widely used by fine hospitals in surgical preparation for both operating room personnel and patients.

Germa-Medica* with Hexachlorophene has a rich, creamy lather that is kind to the skin, will not irritate or sensitize. Equally effective when used with hard or soft water. May be diluted with 4 parts water and still retain bacteriostatic action. Contains 2.5% hexachlorophene on anhydrous soap basis, 1.0% on total weight basis.



Huntington Surgical Soaps, Sanitation Supplies and Dispensers

HEXA-GERM* ANTISEPTIC SKIN DETERGENT contains 3% Hexachlorophene and is a creamy, non-irritating liquid. Daily use materially reduces bacterial flora on the skin and produces a lasting bacteriostatic condition. For scrub up and prepping patients.

HUNTINGTON PORTABLE FOOT PEDAL DISPENSERS assure aseptic scrubbing techniques. Economical, trouble-free dispensers with positive action, they clean easily, will not clog. Non-corrosive stainless steel parts. Single and twin types in models for use with soaps or detergents. All models available for sale or lease to hospitals using our soaps.

OTHER HUNTINGTON SOAP DISPENSERS. A complete line of dispensers . . . all aseptically correct for hospital use . . . includes new plastic squeeze bottle, liquid or lather pump-type, pneumatic wall-type and gravity-feed systems.

INSTRU-SAN INSTRUMENT CLEANER saves time, simplifies instrument clean-up. 10-minute soak dissolves dried blood, plasma, serums and other incrustations. Dries film-free and bright. Safe for glass, metal, rubber and plastics. Won't corrode.

FORMA-SAN INSTRUMENT GERMICIDE with Hexachlorophene is a powerful chemical solution for thorough disinfection of instruments. Tested and proved effective against tubercle bacilli, spore formers and pathogens. Use on rubber, metal, plastics, glass. Won't dull edges. Ideal for instrument storage.

CABINET-SAN* DEODORANT in spray-type cans in a highly concentrated aromatic deodorant which quickly removes objectionable odors when sprayed in rooms, corridors, cabinets and on fabrics. Big 16-ounce can is economical, easy to use and store. Available in wick-type or plastic atomizer bottles.

HUNTINGTON SELF-POLISHING WAXES are made with the best carnauba wax, manufactured under strict laboratory control and listed by U.L. C-2C CONDUCTIVE WAX protects and beautifies all conductive floors, helps maintain needed conductivity. COSMOLITE* ANTI-SLIP contains colloidal silica that maintains hard surface while preventing slips. WEATHERALL retains luster for long periods under heavy wet traffic. NEO-SHINE* is concentrated to give longest wear.

SAN PHENO* X, powerful, non-specific hospital germicide with phenol coefficient of 10. Economical to use, effective at dilution of 1:200 for many applications. Pleasant, safe for animate and inanimate objects. Highly active against tubercle bacilli.

BABY-SAN* LIQUID SOAP with Hexachlorophene helps prevent infections. Soothes baby's skin as it keeps bacteria count low. Liquid castile made from imported olive-oil. Also available without hexachlorophene. HUNTINGTON BABY OIL is sterile, non-irritating.

H-3 SUPER CONCENTRATE DETERGENT rinses freely . . . harms nothing but dirt. For use on all surfaces, including fabrics, glass and porcelain. Can be diluted as much as 1:50 for cleaning rugs, ½ oz. per gallon of water at nursing stations and dishwashing.

SPAL CONCENTRATE is a powerful liquid detergent. Useful as an all-purpose cleaning compound . . . for walls, woodwork, floors and at nursing stations. Dissolves oily dirt, eliminates rinsing, makes cleaning easier. Suds quickly in any water.

KOREX* GERMICIDAL CLEANER is a general purpose, antiseptic cleaning compound. It contains fine soap, detergent and a new type germicide. Phenol coefficient 3. Kills communicable disease germs. Cleans, disinfects, deodorizes in one operation.

BUG-BLAST INSECTICIDE in spray-type cans is sure death to moths, flies, fleas, mosquitoes and other flying and crawling insects. Dee-Rez, Nic Odorless, Sol-U-Dee are all effective in eliminating insects. Other specialized insecticides include Huntington Roach Spray, which has great residual action.

SILENT HUNTINGTON FLOOR MACHINES are made in several types with 16- and 20-inch brushes. Specially built for quiet, smooth operation. Sands, scrubs, steel wools and buffs. Guaranteed.

Now...A Really PORTABLE Aspirator

THE JUNIOR TOMPKINS

Weighs only 16½ lbs.

$99.50

Complete with Yankauer suction tube and utility wrench

Cat. No. 100-65

COMPARE THESE FEATURES

- Totally enclosed heavy duty motor... requires no lubrication... rubber mounted to insure quiet, vibrationless operation
- 32 oz. suction bottle
- Simple filtering system... suction gauge and regulating valve
- Durable finish... Sklar two-tone baked enamel

Perfectly balanced... easy to carry

Sklar SKLAR PRODUCTS LONG ISLAND CITY, N. Y.

Sklar Equipment is available through accredited surgical supply distributors

National's De luxe adding machine . . .
*Live keyboard** with keytouch adjustable to each operator!

Saves up to 50% hand motion—and effort! Never before have so many time-and-effort-saving features been placed on an adding machine.

Every key operates the motor — so you can now forget the motor bar. No more back-and-forth hand motion from keys to motor bar.

Keys are instantly adjustable to each operator's touch! No wonder operators are so enthusiastic about it. They do their work faster with up to 50% less effort. New operating advantages, quietness, beauty!

"Live" Keyboard with Adjustable Keytouch plus 8 other time-saving features combined only on the National Adding Machine: Automatic Clear Signal . . . Subtractions in red . . . Automatic Credit Balance in red . . . Automatic space-up of tape when total prints . . . Large Answer Dials . . . Easy-touch Key Action . . . Full-Visible Keyboard with Automatic Ciphers . . . Rugged-Duty Construction.

A National Adding Machine pays for itself with the time-and-effort it saves, then continues savings as yearly profit. One hour a day saved with this new National will, in the average office, repay 100% a year on the investment. See a demonstration, today, on your own work.

ROTO-MATIC® INSTALLATION AT CHILDREN'S HOSPITAL, AKRON, OHIO

Automation for Hospital Laundries is here TODAY with the UNIPRESS® Roto-matics

Roto-Matic for sleeves, yokes, collars, pant toppings, small pieces, etc.

Roto-Matic for large parts of uniforms, pant legs, coat bodies, etc.

EACH OPERATOR, WITH LESS EFFORT...MORE THAN DOUBLES HOURLY OUTPUT!

Put automation into your laundry today with the revolutionary UNIPRESS ROTO-MATIC. This skillfully engineered, single operator unit has all the automatic features necessary to give you unsurpassed garment finishing both in quality and production in less floor space and with less labor. ROTO-MATIC consists of a revolving table mounted with multiples of the same press. As ROTO-MATIC automatically rotates at a given speed, the highly chromed heads of the presses automatically close and open in synchronized action allowing the operator to make the lays effortlessly while remaining in one position. The work is carried to her continually at a rate controlled by the machine.

ROTO-MATIC is a UNIPRESS exclusive and a time-tried success. Hospitals all over the country tell us how ROTO-MATICS help them to eliminate unnecessary handling and steps, to conserve valuable floor space and to reduce labor and operating costs. Names available on request. Investigate UNIPRESS ROTO-MATICS for your laundry today. UNIPRESS LEADERSHIP PUTS YOU YEARS AHEAD.

Be sure to see UNIPRESS ROTO-MATICS *. . . they pay for themselves out of direct savings!*

THERE'S A LOCAL UNIPRESS DISTRIBUTOR TO SERVE YOU

There are UNIPRESS Roto-Matic as well as UNIPRESS Stationary Presses to meet every hospital laundry pressing need. Take advantage of the UNIPRESS Planning Service. Mail coupon today.

Reliance

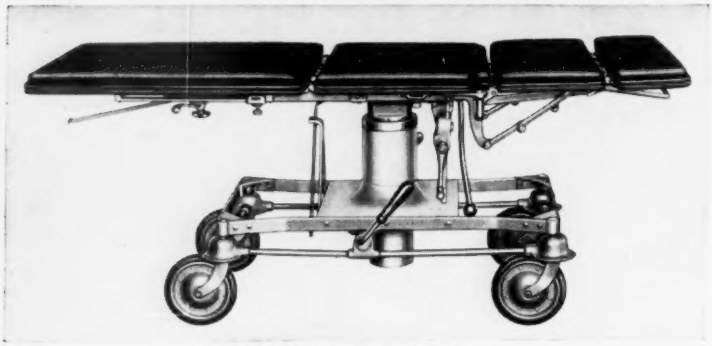
No. 25 All Purpose

HYDRAULIC WHEEL STRETCHER

No. 25-SB

for: TRANSPORTING — X-RAY TREATMENT — EXAMINATION — MINOR SURGERY

For convenience, for versatility, nothing takes the place of the RELIANCE No. 25. Its many distinctive features make it a truly invaluable asset in a busy hospital. Its precise, sturdy construction guarantees long years of useful service.



No. 25 Without Attachments

No. 25-GC

★ 11 inch height adjustment is effortlessly attained hydraulically. A single lever both raises and lowers top.

★ Positive four-wheel brakes may be applied from either side of stretcher by simple, single lever action.

★ Fully swiveling wheels permit sidewise movement of stretcher. Rubber tires are conductive.

★ Geared tilting device, similar to that employed on major operating tables, enables top to be tilted to a 30 degree head-down position. Calibrated indicator registers degree of tilt.

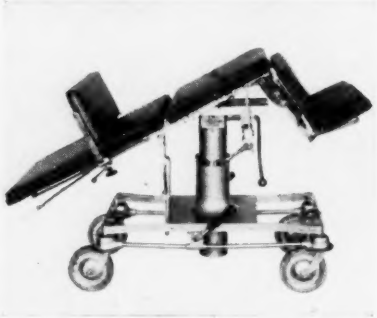
★ The two separate foot sections of the stretcher top may be lowered by tripping a conveniently located lever. When raised they engage automatically. No fastening or locking necessary.

No. 25-AR

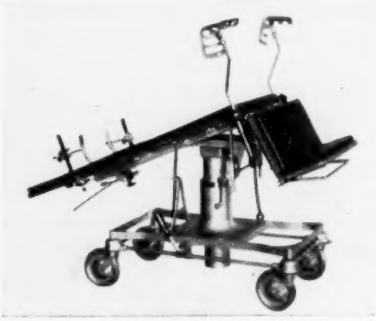
★ Head section may be raised to any position between horizontal and vertical, and will automatically remain where set.

★ Upholstered top is of high quality artificial leather over soft sponge rubber pads. Measurements of top are 24 by 74 inches.

★ Accessories, available at additional cost, include head rest for proctological examination, adjustable shoulder braces, arm rests (for use when table is in chair position) and gynecological leg supports.



No. 25-HR



No. 25 GC/SB

For further information on this and other models, write for descriptive literature and the name of your nearest Reliance dealer.

Manufacturers since 1898

Revenue and/or Reserved Hospital Parking with WESTERN PARKING GATES

1. Driver approaches gate . . . stops . . . deposits coin or token . . . or uses key . . . or electro-card.

Absolute Control

WESTERN Parking Gates are electrically operated and therefore are so flexible, so dependable, so easy to operate they assure absolute control of hospital parking lots . . . either for Reserved Parking for Doctors and Staff . . . or Revenue Parking for Visitors' use.

Keys, Electro-Cards, Coins, Tokens

Introduction of electro-card system gives hospital management a complete range of selection. Keys, electro-cards, coins, or tokens independently, or in combination, will operate the gates. Labor costs are entirely eleminated. Initial cost is low. Installation is easy. Almost no maintenance.

2. Gate arm raises, permitting car to enter. Gate automatically closes immediately after car clears, preventing entry of following car.

Features

WESTERN, builder of more than 10,000 railroad-highway crossing gates, has engineered into the gates such exclusive and special features as the "Lot Full" sign, electric opening and closing treadles, double key controls for day and night parkers, electro-cards with period changes, push button remote controls, automatic counters, and others.

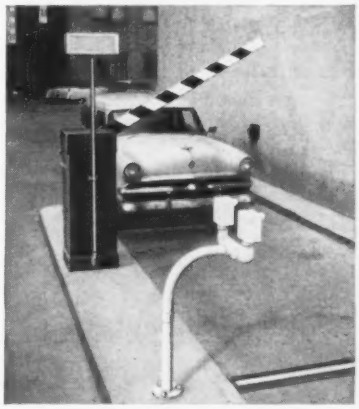
Open Account

WESTERN Parking Gates will be shipped to any hospital in the United States on Open Account, subject to complete approval of Hospital Management.

See Us At

American Hospital Association Convention

Booth No. 567



3. Outbound driver approaches gate, arm lifts to permit departure.

WRITE TODAY for descriptive folder entitled "WRRS Parking Gates for Control of Your Hospital Parking," or

SEND US a brief description of your lot including dimensions, preferred locations for entrances and exits and a general idea of how you want to control parking. You will receive, without obligation, a parking plan and cost estimate.

Fund-Raising Problems?

This firm has guided appeals for more than 350 hospitals since 1911. In that time practically every conceivable type of problem has been encountered and resolved.

In arriving at a clear understanding of the most effective methods of raising funds for your hospital, this experience can be invaluable.

Write or call for a pre-campaign consultation at no cost or obligation.

Successful "repeat" Campaigns-Of special significance to Administrators and Hospital Boards is this firm's outstanding record for being re-engaged by hospitals wholly satisfied with our services on previous appeals. In the past 46 years approximately 80% of the campaigns conducted have been for causes previously served.

Here are just a few of the hospitals that have been served for more than one campaign:

Hospital	*Date*	*Objective*	*Raised*
Bethesda Hospital,	1957	$325,000	$479,117
Hornell, N. Y.	1948*	450,000	512,000
Halifax Community Hospital Association,	1957	200,000	238,723
South Boston, Virginia	1948/49	350,000	410,000
	1951	110,223	98,750
Silver Cross Hospital,	1956	600,000	617,000
Joliet, Illinois	1947	500,000	551,323
	1944	50,000	75,000

*As part of United Hospitals Building Fund — a joint campaign for St. James Mercy and Bethesda hospitals.

HYDRAXTOR★

SELF-CONTAINED Model "J"

with AUTOMATIC OPERATION!

Higher operating pressure for better and faster extraction.

Pays for Itself . . .

- HIGH PRODUCTION
- LOWER INITIAL COST
- LOWEST OPERATING COST
- LOWEST LABOR COST
- SAVES ON LINENS

Extracts Water With Water

★ New Method of Extraction!

- No Foundation
- No Bolting
- No Vibration
- Noiseless

The HYDRAXTOR *Company*

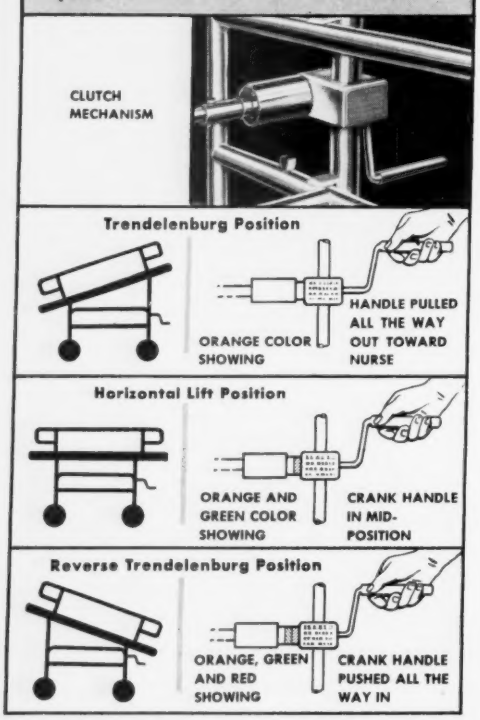
"...Makes Light Work of Adjustment"

POST-OPERATIVE STRETCHER

WITH *NEW* 3-POSITION CRANK

Crank handle adjusts in or out for desired litter position . . . handle mechanism color coded for quick identification of desired position.



Sales Representatives In Leading Cities Throughout the Country

When lives are in the balance... in the recovery room or the emergency area... J & J stretchers provide maximum protection for the patient and are less demanding in time and effort on the nurses. The 3-position crank, described at left, is a good example. It makes it possible to raise or lower the litter to the position required in a few seconds with no uncertainty or delay. Decisive instructions on the clutch explain the lift-mechanism, and this is further clarified by unique color banding on the inner sleeve of the clutch. This tells the nurse exactly what the litter position will be *before the patient is raised or lowered an inch.* Unnecessary and dangerous false starts are eliminated. Smoothly, quickly, the nurse cranks the patient to the right position. There is no delay—no wasted motion.

Reverse Trendelenburg Position

Horizontal Lift Position Showing Adjustable Back Rest

This is but one of the many reasons why J & J stretchers are preferred by leading hospitals throughout this Country and in Canada. For complete information, including prices and delivery, write:

your most complete and reliable source

Only Scientific Products provides you with all four of these important purchasing advantages:

1. **Complete Selection.** You can choose exactly what you need to fill your specific requirements from Scientific Product's unequaled variety of equipment and supplies.
2. **Superior Quality Through Research.** Continuous research and testing is your assurance that you can buy the very best from Scientific Products. You know that Scientific Product's equipment and supplies incorporate the most up-to-date advances of modern science.
3. **Unexcelled Distribution Facilities.** Scientific Product's unique nation-wide network of branches and offices provide immediate attention to your needs. Huge inventories, strategically located, save both valuable time and shipping costs.
4. **The Finest In Service.** Your Scientific Products representative calls often and regularly. As you know, his assignment is to service your best interests in any and every possible way.

*Includes both short-term and long-term hospitals.

Guard Against Static Spark Explosion!

Three proven aids to give you maximum safety at minimum cost and without inconvenience to busy operating room personnel.

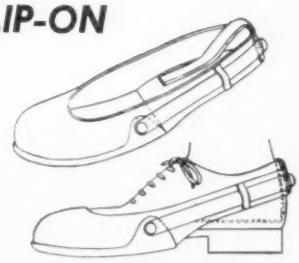
The CONDUCTOMETER®

In operating rooms, delivery rooms and emergency rooms throughout the country, Conductometers are in daily use, testing the electrical resistance of personnel, flooring and equipment. Our exclusive elbow switch permits personnel testing under aseptic conditions. The quick and easy routine of Conductometer testing is as vitally important to safety as the scrub-up! (See N. F. P. A. Booklet No. 56, regarding electrical testing of flooring, equipment and personnel.)

Write for descriptive folder today.

CHACO CONDUCTIVE RUBBER SLIP-ON

Reg. U.S. Pat. Off. PATENTED



This slip-on is worn over the wearer's regular shoes and gives perfect contact between the wearer and conductive flooring. In this manner the personnel are effectively grounded and no static charge can build up in their bodies.

Please write for price list on our Conductive Rubber Sheeting.

CONDUCTIVE HOSPITAL ACCESSORIES CORPORATION

We are an affiliate of Federal Flooring Corporation
82 WEST DEDHAM STREET, BOSTON 18. MASS.
NEW YORK 17, N. Y.
Please see our catalog in Hospital Purchasing File

FEDERAL-FLEXIBLE PORTLAND CEMENT CONDUCTIVE TERRAZZO FLOORING

For hospital operating room suites and other hazardous locations where there is danger of static spark explosion.

Applied in one continuous surface — no dividing strips to impair asepsis. Easily laid during alteration work or new construction.

Troweled-on polished terrazzo 3/8 inch thick. Gleaming cream colored marble chips set in dark Flexible Portland cement. Meets N. F. P. A. requirements.

FEDERAL FLOORING CORPORATION

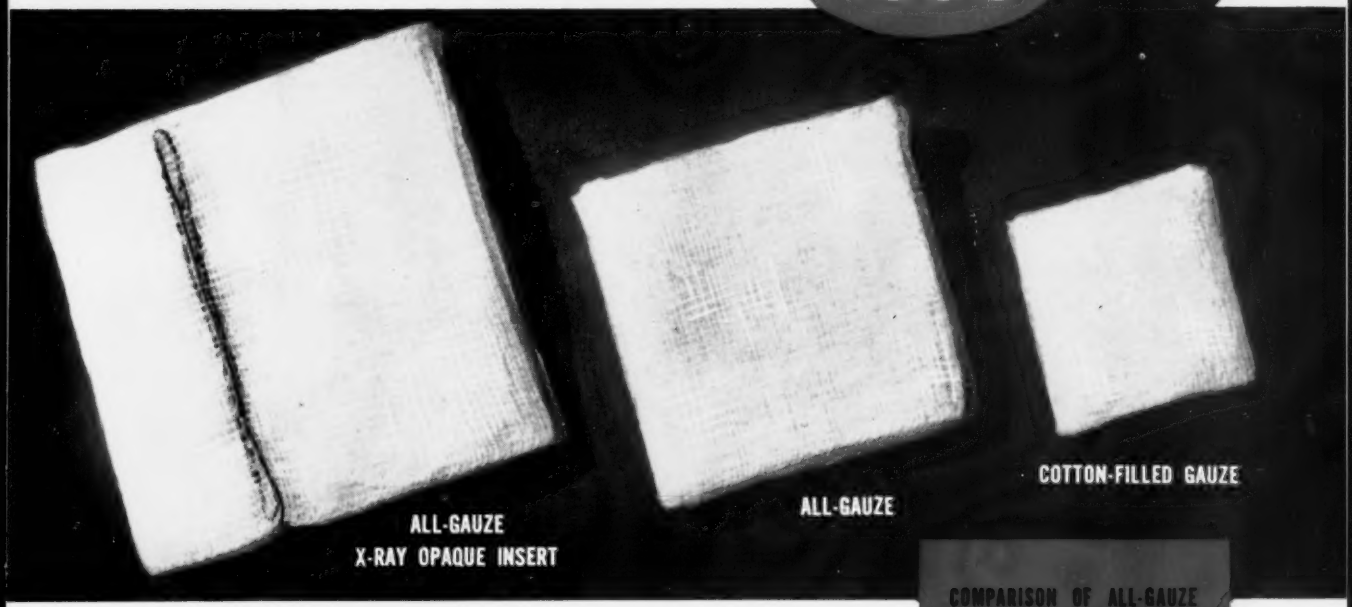
CAROLINA *Sponges*

3 KINDS

15 SIZES

100's OF USES



Carolina sponges are soft and pliable—absorbent and non-abrasive throughout—no hard or harsh corners. Meticulously made, economical.

All edges are carefully, neatly folded inside; no loose threads can escape. Carolina sponges are uniform and dependable.

Monofilament X-ray opaque string makes good clear pattern on plates from any angle. Meets hospital standards for safety, ease of use.

For greater economy outside the operating room, substitute Carolina cotton-filled sponges for all-gauze. The thin even layer of combed cotton is very absorbent. Convenient for pressure dressings as well as post-operative dressings and general wound care.

Write for samples, prices, complete information . . .

Whatever your needs—from a wash cloth to a bolt of drapery material—Carolina has it or can get it. **Your textile problems are our business.**

More important, Carolina has in stock a complete selection of grades—from service weights to luxury items, unbleached muslin to percale—to meet your individual requirements, *and your budget!*

A Carolina representative will be glad to show you samples, help you in any possible way.

Send for a complete Carolina catalog if you do not have one readily available—14-page section on textiles included.

IMPORTANT: Carolina carries only *branded* merchandise—your guarantee of dependable uniformity. High tensile strength, long wearing characteristics are inherent in products bearing the maker's own name.

*Excludes private duty nurses.

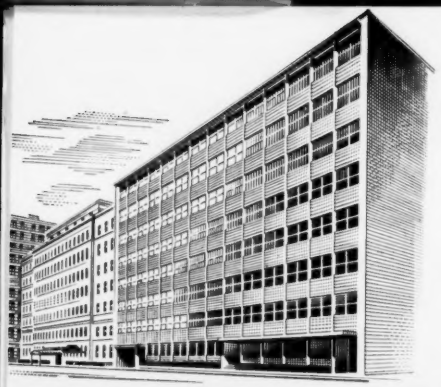
†Includes nurses serving as "superintendent or assistant superintendent of hospital" and as "director and assistant director of nurses and/or nursing school.



How Mt. Sinai Hospital gains nursing time, cuts foot travel, speeds all services!

AUDIO-VISUAL NURSE CALL SYSTEM. At Mt. Sinai, Executone's two-way voice communication between patient and nurse cuts nurse's foot travel more than 60%...allows nurse more time for actual patient care.

New York's famed Mt. Sinai Hospital has pioneered in the application of electronic voice communication. Starting 14 years ago with its first Executone Intercom System in the Radiology Department, Mt. Sinai quickly extended the use of this modern time-saving equipment.

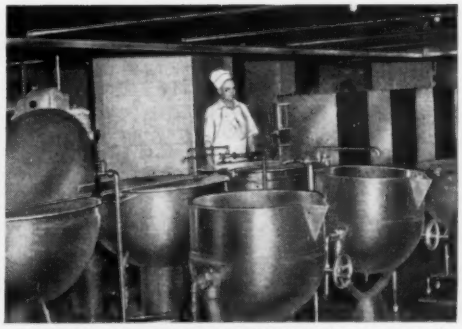
Today, Executone is an integral part of Mt. Sinai, serving the entire hospital. With 325 beds already served by Executone's Audio-Visual Nurse Call System, Mt. Sinai has applied other Executone intercom and sound systems to its many services and departments. Thousands of needless steps are saved daily at Mt. Sinai with Executone—clear, distinct two-way conversations take place at the touch of a button. The over-all result is more personalized patient care and improved administrative efficiency.

Hospitals throughout the nation have discovered the effectiveness, economy and complete dependability of Executone for *all* services. Executone's Audio-Visual Nurse Call System alone is now serving over 12,000 hospital beds. Find out—*without any obligation*—how Executone can work for you as it does for Mt. Sinai and the entire hospital field. Write to Dept. A-4 for further information: Executone, Inc., 415 Lexington Avenue, New York 17, N. Y. (In Canada—331 Bartlett Avenue, Toronto.)

Executone

HOSPITAL COMMUNICATION SYSTEMS

NON-CORRIDOR PAGING. Doctors' paging calls at Mt. Sinai are reproduced at Nurses' Stations—not in Patient Corridors. (Arrow indicates paging unit.)



CENTRAL KITCHEN COORDINATION. An average of 6600 meals are served daily. Executone speeds activities with communication between Steward, Dietician, Food Preparation and Serving areas.

RADIOLOGY TRAFFIC CONTROL. Handling of patients coordinated through Executone between technicians, Reception area, Dark room, Film Files, and Chief Radiologist.

FOR HOSPITALS EVERYWHERE

Sexton Quality Foods

The greatest food service in America

Hartford Hospital, Hartford, Connecticut

By an impressive preference, hospitals throughout the nation continually serve Sexton Quality Foods. Sexton sells and services directly more hospitals than any other wholesale grocer in America. Sexton has earned this enviable position in the food field by maintaining consistent uniformity—always providing the finest there is in freshness, flavor and nutriment. In addition, the Sexton line is notable for its exceptional extent and variety. Equally important, the coast-to-coast network of Sexton warehouses insures prompt deliveries via the great white fleet of Sexton trucks. You can depend upon Sexton service. It is the proud outgrowth of 74 years of Sexton experience in meeting institutional needs.

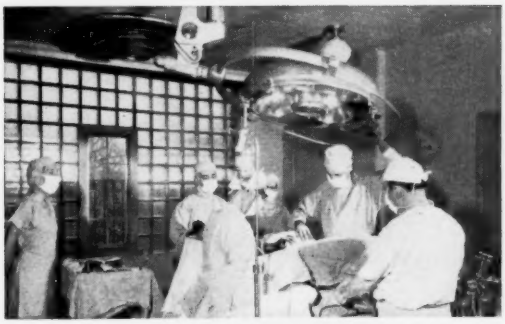
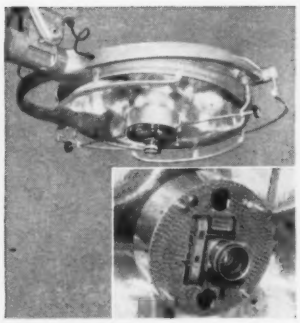
NEW DEVELOPMENTS

in STERILIZATION & LIGHTING

by *Castle*

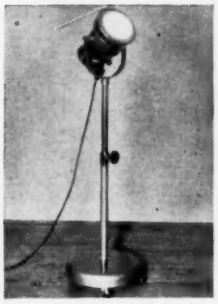


NO. "60 SERIES" LIGHTS—for the first time major overhead operating lights manueverable enough for surgical team adjustment.

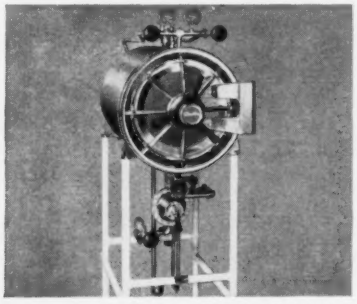


EXCLUSIVE CAMERA ADAPTER—houses a 35mm color camera in No. 62 lamphead for emergency use by surgical team.

NO. 68 CONCENTRA-LIGHT—a versatile DEEP SURGICAL light for brain, thoracic, heart work.



NO. 56 REFLEX LIGHT—the first portable head-mirror E N T light to take explosion risk out of minor surgery.

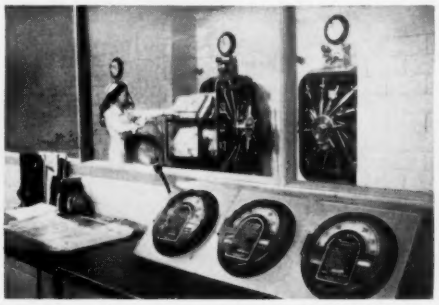


CYLINDRICAL PRESSURE AUTOCLAVES—first units to employ exclusive all-welded Monel construction, all-pressure DUAL-LOCK safety doors.

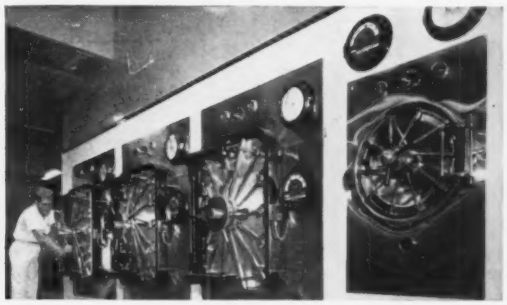
RADIANT ENERGY STERILIZER — first sterilizer exclusively for precision dry heat processing of surgical sharps.

REGAL AUTOMATIC — for attention-free, positive decontamination of bedpans and urinals.

INSTRUMENT WASHER-STERILIZERS — pioneered by Castle . . . quick, thorough, labor-saving washing and sterilizing of instruments. Vertical and horiontal types.



EXCLUSIVE REMOTE CONTROL—Thermatic operation of sterilizers from central "island" control station saves personnel, safeguards technique.



FREE PLANNING SERVICE—for Central Supply and all other hospital departments . . . saves costs, provides efficient work-flow patterns.

WRITE TODAY for complete details on these new products

Continued on page 418

AGAIN we say . . .

The Time is NOW!

Approximately a year ago Tamblyn and Brown, Inc. emphasized in an advertisement that "Now is the time for fund raising."

This conclusion was based on a study indicating that because of our expanding national economy the total of annual giving, estimated at $6 billion in 1955, would reach $7.4 billion by 1960.

During the past twelve months, hospitals and other health institutions have employed the services of Tamblyn and Brown, Inc. to assist in programs totalling more than $37,000,000. Campaigns concluded during the past year have been unusually successful. Every campaign now in progress appears to be headed toward attainment of its objective.

For 37 years, Tamblyn and Brown, Inc. has planned and directed capital fund programs for hospitals. Our all-inclusive services are highly flexible and are expertly designed to meet the particular circumstances of each project.

Data which may help you in planning a program of expansion or development for your hospital will gladly be provided.

Again we say . . . *The Time is NOW!*

I want to tell you-

Syko-ette® MATTRESSES ...are just wonderful

Every Hospital Should Have Them!

- We nurses and attendants save a lot of time and are relieved of a lot of hard work by having them.
- Sheets do not crawl or wrinkle under a patient's body. Beds do not need to be remade so often.
- There are no rubber sheets or plastic covers to bother with.
- They greatly reduce the complaints and demands of patients.
- They are comfortable—no buttons, humps, or lumps. The sleeping surface is smooth, soft and non-irritating.
- Syko-ette Mattresses are waterproof.
- They are quickly cleaned with soap and water, and can be wiped dry for immediate re-use.

- They are fire-resistant and impervious to body fluids, disinfectants, and deodorants.
- A 30 days trial will prove all these facts. Is it any wonder that I want to tell you—Syko-ette Mattresses are just wonderful! Fill in the coupon right now for complete information.

Syko-ette MATTRESSES

THE BALYEAT COMPANY, Dept. H-87,
481 North Main Street, Mansfield, Ohio

JUMBO WASTE CAN LINERS

Noise, unsightly littering of floors, and odors, the usual disadvantages of emptying cans direct, are eliminated . . . refuse collection becomes more efficient and economical when you use Pro-Tex-Mor Disposable Jumbo Waste Can Liners.

Filled liners are quickly tied closed, lifted out of cans, and carted off for disposal. Inside of cans are more sanitary, require less cleaning, last longer. More collection points can be covered in each load, cutting down the number of trips to the incinerator . . . saving time, requiring fewer employees.

SPECIFICATIONS:—Jumbo Liners are specially-treated Kraft bags, with tops long enough to tie securely; strong, waterproof seams; 25-30 gallon capacity.

[a] Data not available.
[b] Beds set up, not bed capacity.
[c] Does not include 10 hospitals (373 beds) operated by the Quarantine, Immigration Medical and Sick Mariners Service.
[d] Includes part-time personnel.
[e] Does not include 1 quarantine hospital.
[f] Only 167 private hospitals reported personnel data.
[g] Includes transfers in.
[h] Does not include 1 hospital in Nova Scotia (142 beds) which did not report admissions and personnel.

OLD DOMINION (Gold Label) NO-RUBBING WAX

There is no finer wax made than Old Dominion Gold Label Wax. A water proof self-polishing wax that gives full surface protection. Manufactured from the light colored grades of pure carnauba wax. Resists dirt, wear & water. Its clear transparency will not cause discoloration on light color floors. Safe for all floors. 1 gal covers 2000-2500 sq. ft.

OLD DOMINION (Anti-Slip) SAFE-TRED WAX

Old Dominion Safe-Tred Wax is a heavy duty wax with a high anti-slip factor. Manufactured from pure refined carnauba wax—fortified with DuPont's "LUDOX" for extra floor safety. It is also a most satisfactory general purpose wax. Not tacky or gritty. Goes on easily & dries quickly. Water resistant. Safe for all floors. 1 gal. covers 2000-2500 sq. ft.

OLD DOMINION (Industrial Brand) NO-RUBBING WAX

Old Dominion Industrial Brand self-polishing wax contains the same basic ingredients as Gold Label Wax. It is manufactured from pure refined carnauba wax but the darker grades are used. Its wearing ability, resistance to dirt and water are splendid. High luster. Easy to apply. Spreads evenly. Dries quickly. 1 gal. covers 2000-2500 sq. ft.

OLD DOMINION (Commercial Brand) NO-RUBBING WAX

Old Dominion Commercial Brand Wax contains less carnauba wax than either of the above brands. In those situations where a fixed maintenance schedule or a fixed budget makes it impossible to realize the savings inherent in longer wearing Gold Label or Industrial Brand waxes Commercial Brand Wax is recommended. It offers extreme economy with long wear. Stands up under machine buffing. 1 gal. covers 2000-2500 sq. ft.

OLD DOMINION ("Concentrate") CLEANER

Old Dominion Concentrate is an all purpose cleaner for Institutional & Industrial users. Neutral. Acts instantly in cold or hard water areas. Is the perfect teammate to all self-polishing waxes. Deodorizes. No harmful deposits. For all types of floors or any surface that is washable in clear water. Saves time, cleans faster, cuts labor cost to a minimum.

OLD DOMINION (Buffing) LIQUID WAX

A heavy body or semi-paste wax. CLEANS as it waxes. Leaves a tough wear resistant film that polishes to a rich luster and gives a beautiful long wearing surface. Ideal for Wood, Cork, Linoleum, Concrete, and Furniture. Fast drying. 1 gal. covers 2000-2500 sq. ft. (Not to be used on Rubber or Asphalt Tile)

†"Payroll expense" denotes net payroll after deductions.

How to Use
THE GUIDE FOR HOSPITAL BUYERS

The Guide for Hospital Buyers was designed to give administrators, purchasing agents, department heads and persons working in allied fields a concise guide to distributors, suppliers, and manufacturers of products used in hospitals.

Listed alphabetically are the products and services most commonly used in hospitals. Under the product listing appears the name of the manufacturer, the address, and telephone number. In certain categories, branch and regional offices are listed. If there is no manufacturer listed under the product you are looking for, write to the Reader Service Department of HOSPITALS for the names of manufacturers producing the item or items you are seeking.

The Guide For Hospital Buyers eliminates needless searching through hundreds of headings for the one product you need. With the Listing of Hospitals, Directory Section, Guide to the American Hospital Association, and Hospital Statistics contained in the Guide Issue, the Guide For Hospital Buyers completes a package of ready, fingertip information for every person in hospitals or allied fields and for persons serving the hospital field.

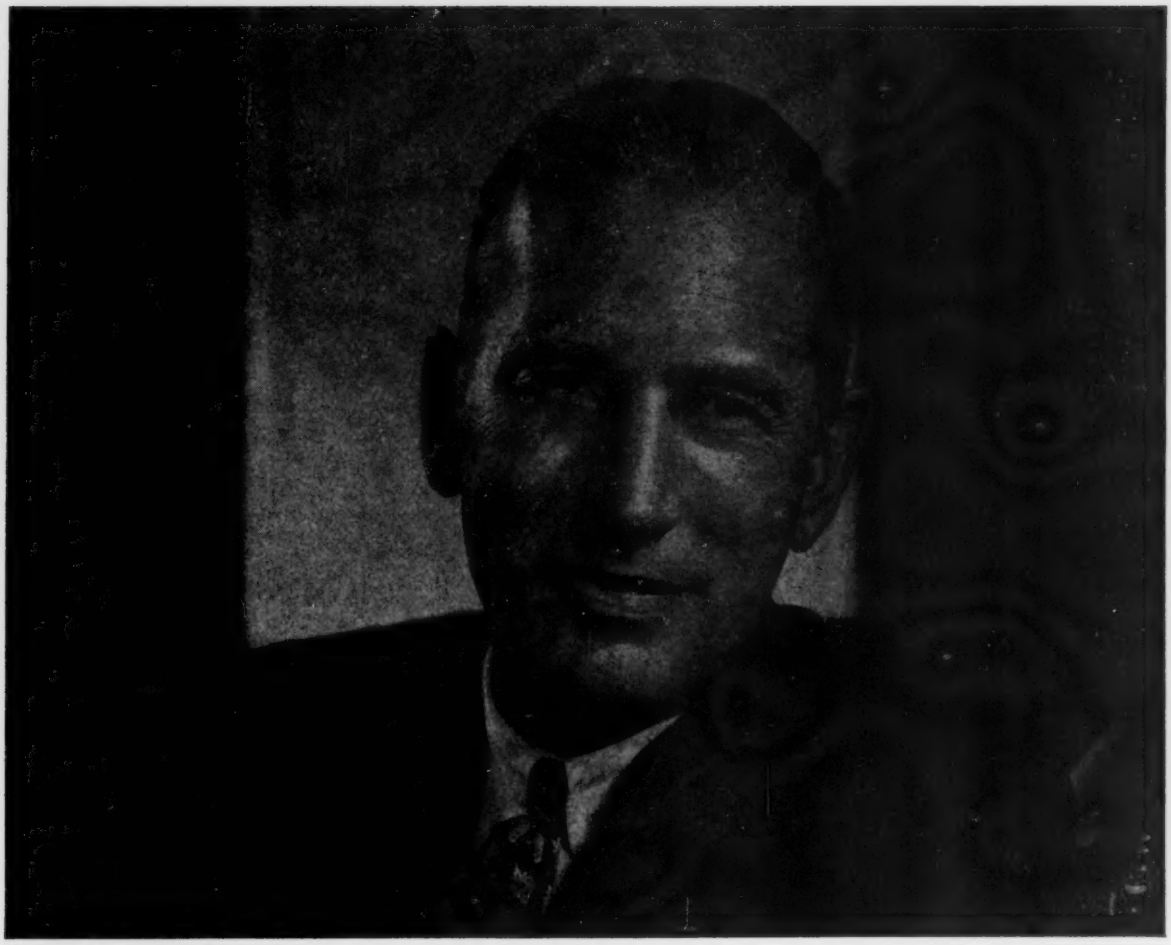
Effective but low-cost Communications

Classified advertising is the lowest-cost method of advertising. It can serve your hospital effectively when you are recruiting employees or when you have used equipment to sell.
Here is the audience for your advertisement . . .

HOSPITALS' subscribers include more than 9,000 hospitals and administrators, 1,800 department heads, 700 governing board members in addition to approximately 4,500 others.

HOSPITALS 18 East Division Street, Chicago 10, Illinois



CRAWFORD H. GREENEWALT

"$22,800,000 Invested in U.S. Savings Bonds During First Year of Thrift Plan . . ."

"Du Pont employees are saving about $23,000,000 each year in U.S. Savings Bonds through the Thrift Plan established by the Company in 1955. Well over 60,000 du Pont people now are purchasing U. S. Savings Bonds through payroll deduction on a regular monthly basis."

CRAWFORD H. GREENEWALT,
President, E. I. du Pont de Nemours & Co., Inc.

Here's how the du Pont thrift plan works: Employees save part of their earnings each month by payroll deductions to buy U.S. Savings Bonds, and the Company contributes one-fourth as much to buy du Pont common stock for them. The bonds are held for them by a bank and are delivered to them in annual installments, beginning four years after they join the Plan. The bank also delivers shares of stock to them when they are due.

Large or small, every company can give their employees the advantages of the Payroll Savings Plan. Installation of the Plan is simplicity itself. A Treasury representative will give you all the assistance you need to introduce the Plan or build enrollment in an existing Plan. Write: Savings Bonds Division, U. S. Treasury Department, Washington, D. C. for complete information.

The United States Government does not pay for this advertisement. The Treasury Department thanks, for their patriotic donation, the Advertising Council and
